

Figure 1. Overview of the proposed Montana Great Outdoors Conservation Easement Project on a portion of former Weyerhaeuser timberlands. Tract 1 and Tract 2 are two different landowners (SPP Montana and Green Diamond Resource Co., respectively). If this project proceeds to completion, each tract would result in a separate conservation easement. Other properties labelled on this map with “FLP FY” are existing conservation easements held by FWP that were funded in part through the Forest Legacy Program (FLP), listed by the program’s fiscal year (FY).
