

Simple Search **Advanced Water Rights Search**

The best strategy is to enter as few search criteria as possible, but enough to narrow the search for your purpose. Too many search criteria may exclude water rights that are needed for your research, while too broad of search criteria will not produce an index as the system has a size limit and will return an error code.

Step 1) Select Index - Sort Order: Index Descriptions

Search parameters vary based upon Index Type chosen. To see additional search options, such as legal land description, choose a different Index Type.

Index Type: **EXISTING LEGAL DEMANDS (6/18/2023)** (Records last updated)

Step 2) Select Parameters

WRNumber: Basin Code (ex 41K) Number (ex 1) 130067 00 (ex 2) 123456 00 (ex 3) 300000123

Owner: Partial names are allowed. Not case sensitive. (ex1) lastname firstname (ex2) lastname (ex3) firstname

Area Filters

County: *To enable County selection, reset Basin dropdown to 'Select Basin.'*

Basin: **76L FLATHEAD RIVER, BELOW FLATHEAD LAKE**

Stream: Partial names are allowed. Not case sensitive. (ex) black

Water Right Status

Status: *To select multiple statuses, hold Ctrl while clicking each status.*

ACTIVE
CANCELLED
DENIED
DISMISSED
EXPIRED
NO STATUS
REFLECTED
