The Confederated Salish and Kootenai Tribes of the Flathead Reservation (“Tribes”), the State of Montana, and the United States of America (collectively the “Compacting Parties”) respectfully notify the Water Court that the Compacting Parties have entered into a Compact settling the water rights of the Tribes (“Flathead Compact”). The Flathead Compact settles the water rights of the Tribes, its members, and allottees, and the United States on behalf of the Tribes, its members, and allottees, in accordance with § 85-2-702, MCA. The Flathead Compact, codified at § 85-20-1901, MCA, was ratified by the Montana Legislature on April 24, 2015, by the United States Congress on December 27, 2020, in the Consolidated Appropriations Act of 2021, Division DD, Pub. L. No. 116-260, 134 Stat. 1182, 3008 - 3038 (the “Settlement Act”), by the council of the Tribes by Resolution 21-023 on December 29, 2020, and approved on September 17, 2021, by the Secretary of the Interior for the United States after the statutorily required review under section 4 of the Settlement Act. The Compacting Parties submit herewith an Order for the Commencement of Special Proceedings (**Exhibit 1**) and a proposed Preliminary Decree as corrected (**Exhibits 2-6**).

In light of the foregoing, the Compacting Parties respectfully move the Water Court to take the following actions:

1. Incorporate the water rights of the Tribes, its members, and allottees, and the United States on behalf of the Tribes, its members, and allottees, as set out in the Flathead Compact, as modified by §§ 6(a)-(b) & 10(a)(4) of the Settlement Act, 134 Stat. 3014-15, 3026, into the Preliminary and Final Decrees in Montana’s general stream adjudication in the following basins:
  - a. Basin 76D, Kootenai River;
  - b. Basin 76E, Rock Creek;
  - c. Basin 76F, Blackfoot River;

- d. Basin 76J, Flathead River (South Fork);
- e. Basin 76K, Swan River;
- f. Basin 76L, Flathead River (below Flathead Lake);
- g. Basin 76LJ, Flathead River (Flathead Lake and above);
- h. Basin 76M, Clark Fork River (between Blackfoot and Flathead Rivers); and
- i. Basin 76N, lower Clark Fork River (below Flathead River).

2. In the above-identified basins, and in two other basins where the Tribal water rights can impact water users upstream, Basin 76G, Clark Fork River (above Blackfoot River) and Basin 76GJ, Flint Creek, consolidate the review of the Preliminary Decree emanating from the Flathead Compact into a special proceeding pursuant to § 85-2-215, MCA.

3. Timely enter the proposed Order for the Commencement of Special Proceedings (**Exhibit 1**) and to issue the Preliminary Decree as corrected (**Exhibits 2-6**) in the consolidated basins under § 85-2-231(2), MCA, provide notice thereof under § 85-2-232, MCA, and hold timely hearings under § 85-2-233(1)(a), MCA, regarding any objections filed to the Preliminary Decree.

4. Hold any hearings as may be necessary to determine whether the Flathead Compact should be approved in accordance with applicable law.

5. Following any hearings, or in the absence of a need for any, approve the Flathead Compact and enter, pursuant to, Mont. R. Civ. P. 54(b), a final decree establishing the elements of the water rights of the Tribes, its members, and allottees, and the United States on behalf of the Tribes, its members, and allottees.

As grounds in support of the actions requested, the Compacting Parties state:

A. The Compacting Parties have submitted a proposed Order for the Commencement of Special Proceedings (**Exhibit 1**) and request that the Court issue a Preliminary Decree of the Tribes' water rights under the Flathead Compact (**Exhibit 2**), including technical corrections to the abstracts of water rights (described in **Exhibit 3**), two changes to the Preliminary Decree and three abstracts created by the Settlement Act (**Exhibit 4**), and conformance of certain provisions of the Preliminary Decree to the relevant provisions of the Compact (**Exhibits 5 and 6**).

B. Entry of the Preliminary Decree is appropriate because it is fair, adequate, reasonable, and conforms to applicable law.

C. The Compacting Parties contemporaneously herewith submit their Joint Motion for Approval of Process to Provide Notice of Special Proceedings for Consideration of the Flathead Compact, in which they address the scope of the notice to be given to the Preliminary Decree and that it will be served by regular mail and by publication in newspapers of general circulation in and for the basins where reserved water rights under the Flathead Compact are located or where other rights could be affected by those reserved rights under the Compact.

D. Entry of the decree as a final judgment shall be appropriate when any objections filed in response to the entry of the Preliminary Decree have been resolved.

E. The Compacting Parties herewith submit a Joint Memorandum in Support of this Joint Motion in accordance with Rule 2(b), Mont. Unif. Dist. Ct. R.

WHEREFORE, for the reasons stated in this Motion, the accompanying Memorandum, and the proposed Order of Commencement and in the proposed Preliminary Decree, and for any other reason that may appear to the Court, the Compacting Parties respectfully request that this Motion be granted, the Proposed Order to create a special proceeding be entered accordingly,

and that the corrected Preliminary Decree and abstracts be approved as the subject of review of the special proceeding.

## INTRODUCTION

In accordance with the provisions of §§ 85-2-701 through 85-2-705, MCA, the Montana Reserved Water Rights Compact Commission successfully negotiated a water rights compact with the Confederated Salish and Kootenai Tribes of the Flathead Reservation (“Tribes”) and the United States (“Flathead Compact”). The Flathead Compact has received all necessary approvals: it was ratified by the Montana Legislature (§ 85-20-1901, MCA), approved by the United States Congress (Division DD of the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260, 134 Stat. 1182, 3008-38) (“Settlement Act”), agreed to by the council of the Tribes through Resolution 21-023 on December 29, 2020, and approved on September 17, 2021, by the Secretary of the Interior for the United States after the statutorily required review under section 4 of the Settlement Act. The Flathead Compact quantifies the reserved water rights of the Tribes, its members and allottees, and the United States in its capacity as trustee for the Tribes, its members and allottees (collectively referred to as the (“Tribal water rights”). These rights are located within nine basins - Basin 76D, Kootenai River; Basin 76E, Rock Creek; Basin 76F, Blackfoot River; Basin 76J, Flathead River (South Fork); 76K, Swan River; Basin 76L, Flathead River (below Flathead Lake); Basin 76LJ, Flathead River (to and including Flathead Lake); Basin 76M, Clark Fork River (between Blackfoot and Flathead Rivers); and Basin 76N, lower Clark Fork River (below Flathead River). The Tribal water rights also can impact water rights in two other basins, Basin 76G, Clark Fork River (above Blackfoot River); and Basin 76GJ, Flint Creek.

*The Joint Motion for Incorporation of the Confederated Salish and Kootenai Tribes of the Flathead Reservation’s Compact into Preliminary and Final Decrees, for Commencement of a Special Proceeding on such Decrees, and for a Hearing on Any Objections to the Preliminary*

Joint Mem. in Supp. of Joint Mot. for Incorporation of the Flathead Compact into Prelim. and Final Decrees, Create Special Proceeding for the Flathead Compact, and Hold a Hearing on any Objections to the Prelim. Decree

*Decree* (Joint Motion), filed by the Tribes, the State of Montana, and the United States (collectively the “Compacting Parties”), is submitted pursuant to § 85-2-702(3), MCA and Article VII.B.1 of the Flathead Compact to initiate the review of the Tribal water rights. This memorandum explains the two requests of the Joint Motion: first, the basis for the creation of a special proceeding to review the Tribal water rights; and second, the request for the issuance of the Preliminary Decree that is the subject of the special proceedings, after making necessary revisions to the Preliminary Decree and certain abstracts of water rights attached to the Preliminary Decree.

**I. The Court Should Create A Special Proceeding To Review The Tribal Water Rights Recognized in the Flathead Compact.**

The Compacting Parties request that the Water Court initiate a separate case outside the individual basin preliminary decree process to hear any objections to the Preliminary Decree for the Tribal water rights of the Flathead Compact. *See* Joint Motion at ¶¶ 1-3. Article III of the Flathead Compact quantifies the Tribal water rights. This includes water rights on the Tribes’ Reservation in Basins 76L and 76LJ, and in off-reservation sources located outside of the Tribes’ Reservation in Basin 76D, Kootenai River; Basin 76E, Rock Creek; Basin 76F, Blackfoot River; Basin 76J, Flathead River (South Fork); Basin 76K, Swan River; Basin 76LJ, Flathead River (to and including Flathead Lake); Basin 76M, Clark Fork River (between Blackfoot and Flathead Rivers); and Basin 76N, lower Clark Fork River (below Flathead River); as well, the Tribal water right in Basin 76M can affect private water rights upstream in Basins 76G and 76GJ. *See* Abstracts for water rights 76M-94404-01 and 76M-94404-02, found at <http://dnrc.mt.gov/divisions/water/water-compact-implementation-program/confederated-salish-and-kootenai-tribes-compact> (Appendix 30). Given the location and composition of the Tribes’

rights as determined in Article III of the Flathead Compact, the separate proceeding should include the eleven above-identified basins. Those eleven basins are depicted in the Atlas of Water Resources of Montana prepared by the Montana Water Resources Board. *See* Rule 2(a)(8), W.R.C.E.R.; Basin Location and Adjudication Status map, <http://dnrc.mt.gov/divisions/water/adjudication> (last visited March 08, 2022). This request to establish a separate proceeding to review the Tribal water rights is well supported.

First, the procedural approach contemplated by the Compacting Parties for the review and approval of the water rights recognized in the Flathead Compact is the same one utilized in reviewing other water rights settled through compacts, such as Northern Cheyenne (No. WC-93-1); Fort Peck (No. WC-92-1); National Park Service (No. WC-94-1); Chippewa Cree (No. WC-2000-01); Red Rock Lakes (No. WC-2002-02); Benton Lakes/Black Coulee (No. WC-2002-04); Forest Service (No. WC-2007-03); Bureau of Land Management (No. WC-2008-10); National Bison Range (No. WC-2011-01); Crow (No. WC-2012-06); Bowdoin (No. WC 2013-04); Charles M. Russell (No. WC 2015-05); Upper Missouri Breaks (No. WC 2015-06); and Blackfeet (No. WC 2018-06). Instead of restating the arguments in favor of those procedures here, the Compacting Parties incorporate herein by reference the submissions of the parties in those actions.

Second, commencing a separate proceeding is consistent with the unique types of rights and the special process to negotiate these rights. The Flathead Compact is the product of negotiations among three sovereigns. Montana's participation through the Reserved Water Rights Compact Commission is authorized under §§ 85-2-701 to 705, MCA. The Commission has distinctive powers to negotiate with Indian Tribes and to apportion waters between the State and the reserved rights of the various Indian Tribes situated in Montana. §§ 85-2-701(2) -702,

MCA. Under federal law, the Tribes have water rights both on their Reservation in Basins 76L and 76LJ and to support off-reservation treaty-recognized natural resource use sites in western Montana.<sup>1</sup> Thus, the Flathead Compact recognized the Tribal water rights in nine basins across western Montana. The Tribal water rights do not fit neatly into the basin specific approach that the Water Court typically uses. Such types of rights and a multi-basin geographic scope are beyond the typical state law water right claimant. Therefore, opening a special case to address this unique situation is entirely appropriate. And the Water Court is explicitly empowered to create such a case under § 85-2-215, MCA (granting the Court discretion to “make such consolidations as are necessary to administer the requirements of . . . part 7 in adjudicating claims of existing water rights,” [part 7 concerns “water rights within Indian reservations”]); § 85-2-218(1)(b), MCA (allowing the Water Court to prioritize “Indian reserved rights” that have been completed by compact in determining what preliminary decrees to issue).

Third, providing a single proceeding to address the rights of the Tribes under the Flathead Compact is much more efficient than requiring the Compacting Parties to present their case in every basin where the Tribal water rights are recognized under the Compact. The eleven basins in which the Tribes’ rights are recognized under the Flathead Compact or in which those rights could affect private rights are in many different stages of adjudication of the pre-1973 state law water rights. Two of the basins have no decree whatsoever (Basins 76L and 76LJ); four have temporary preliminary decrees issued in 1984 and 1985 (Basins 76G, 76K, 76M, and 76N); and five have preliminary decrees or re-examination preliminary decrees issued over the last ten

years (Basins 76D, 76E, 76F, 76GJ, and 76J). Including the Tribal water rights separately in each of the basins would be burdensome and unworkable for the Compacting Parties. If the Court were to initiate a distinct process for each basin, the Compacting Parties would face an unnecessary multiplication of effort, as they would be required to explain and defend the Flathead Compact in eleven independent basin proceedings. It is also possible that the eleven proceedings could generate inconsistent rulings regarding the Tribal water rights. Therefore, the commencement of a single comprehensive case to review the Flathead Compact water rights is imperative to save the Court and the Compacting Parties' time and resources.

Fourth, a multiplicity of proceedings would also increase the prospect that the decree process for the Tribal water rights would not occur in a timely manner, with potentially severe consequences for the Flathead Compact. If the Compacting Parties had to navigate a gauntlet of separate proceedings in eleven different basins, large, unknown amounts of delay in reviewing the Tribal water rights are quite possible. Significant delay implicates several potential chances to end the Flathead Compact. Without the Water Court's approval of the Flathead Compact within three years of filing the Joint Motion, the Compact becomes voidable amongst the parties. *See* Article VII.B.1. And the Settlement Act gives the Compacting Parties until January 21, 2032, to complete a series of tasks, of which the Water Court process is a critical one, or the Act becomes potentially voidable. The Act provides as a condition of enforceability that the Secretary of the Interior must publish "a statement of findings" that includes, among other things, the requirement that "the Montana Water Court has approved the Compact in a manner from which no further appeal may be taken." P. L. 116-260, § 10(b)(1)(A), at 3026. If the findings are not published by then, and absent agreement by the Tribes and the United States, the waivers and releases of water rights executed by the Tribes and the United States are void and

the federal approval of the Flathead Compact provided by the Act is eliminated. *Id.* § 10(f)(1), (2), at 3028. Thus, whether under the Flathead Compact or the Settlement Act, it is crucial that the notice, objection, and review process for the Tribal water rights start immediately and be completed as expeditiously as possible. Establishing a single proceeding to review the Flathead Compact water rights to accomplish this is essential.

Fifth, an important financial component of the Flathead settlement also hinges on the Water Court's review of the Preliminary Decree of the Flathead Compact water rights. The Settlement Act provides that a significant portion of the Federal funds are not available to use for a large number of purposes until after the enforceability date, which as explained above includes that the Water Court has approved the Preliminary Decree. P. L. 116-260, § 10(b)(1), at 3026. The money appropriated under the Act cannot be used for eleven of the thirteen authorized purposes designated for the funds until after the enforceability date. *Id.* §§ 8(b), (e), (h)(3) – (13), at 3020, 3021-3022. This includes critical money to improve agricultural land; improve on-farm irrigation systems; improve fish passage facilities; plan, build and maintain community water systems and wastewater systems; and repair or replace culverts and bridges on roads that intersect with portions of the federal irrigation project. *Id.* § 8(h)(3) – (13), at 3022. Thus, a broad array of settlement benefits are not available until after the enforceability date, which requires a final water rights decision by this Court.

In sum, this Court has a long practice of establishing special proceedings to review federal reserved water rights recognized in compacts. There are ample reasons to continue that approach for the review of the water rights recognized in the Flathead Compact.

## II. The Court Should Issue A Preliminary Decree Of The Tribal Water Rights.

The sole purpose of the requested special proceeding is for the Water Court to incorporate the Tribal water rights from the Flathead Compact into a Preliminary Decree that potentially affected parties may object to and for the Water Court to review those objections. As mandated by Article VII.B.1 of the Flathead Compact and § 85-2-702(3), MCA, the Compacting Parties commence that process by filing the instant Motion to enter the proposed Preliminary Decree that was attached to the Flathead Compact as Appendix 38. Pursuant to the structure and text of Appendix 38, three important appendices are included as separate parts of **Exhibit 2**. *Appendix 1* to the Preliminary Decree is the entire Flathead Compact that must be filed and included with the submission of the Preliminary Decree to the Water Court. Flathead Compact, Art. VII.B.2. *Appendices 2 and 3* to the Preliminary Decree are abstracts of the various federal reserved and state law water rights that further describe the attributes of the Tribal water rights recognized generally in the text of the Flathead Compact. **Exhibit 2** to the Joint Motion at 2 nn.1-2. In the ensuing paragraphs, the Compacting Parties describe several types of changes to the Preliminary Decree or the abstracts in order to make those documents more consistent with the Flathead Compact or to comport with congressional action.

The Flathead Compact authorizes the Compacting Parties to make “technical corrections” to the abstracts of water rights before filing the Preliminary Decree with the Water Court. Flathead Compact, Art. III.B. The Compacting Parties reviewed the lengthy abstracts and identified several necessary technical corrections. These include changes to correct a basin number or a legal description, and to ensure that a standard issue remark – such as that the water right is within the Flathead Reservation – is included in all abstracts. A table summarizing the technical changes to certain abstracts is attached hereto as **Exhibit 3** and is provided for general

edification of the Court and potential objectors. The table designates by Compact appendix whether any of the abstracts within that appendix have been revised, and if so, which abstracts have been revised, and what was corrected. The corrected abstracts are included within *Appendices 2 and 3* to **Exhibit 2**.

Next, the Compacting Parties also request that the Preliminary Decree and abstracts include several specific changes to make them consistent with the Settlement Act. The federal legislation changed the Tribal water rights in two respects. First, the Act clarified the priority date and ownership of the Tribes' allocation of water from Hungry Horse Reservoir. P. L. 116-260, § 6(a), (b), at 3014. The drafters of the Flathead Compact anticipated that the United States Congress would take action in this area and it did so. Flathead Compact, Art. III.C.1.c.vii (90,000 acre-feet allocation from Hungry Horse by the Bureau of Reclamation to the Tribes is "subject to the approval of, and any terms and conditions specified by, Congress"). The second change is because Congress required the Tribes to relinquish the off-Reservation water rights located within the Flathead River basin found in Appendices 28 and 29 to the Flathead Compact and described in Article III.D.4 of the Compact. P. L. 116-260, § 10(a)(4), at 3026. Congress has broad powers over Indian affairs and could limit rights recognized in the Flathead Compact through the Settlement Act. *United States v. Lara*, 541 U.S. 193, 200 (2004).

Thus, pursuant to the Settlement Act, the Preliminary Decree abstracts should differ from those attached to the Flathead Compact in 2015 in two respects. As for the Tribes' Hungry Horse Reservoir allocation being based on the United States Bureau of Reclamation's water rights for Hungry Horse Reservoir, this clarification of Article III.C.1.c of the Flathead Compact is reflected by an additional remark on the Flathead System Compact Water Right abstract that is

Appendix 9 to the Compact. That new remark is in the margin<sup>2</sup> and a revised abstract with that additional remark at the end of Appendix 9 is included in **Exhibit 4** to the Joint Motion. And for the relinquishment of instream flow water rights within the Flathead River basin, this change is reflected in Appendices 28 and 29 to the Flathead Compact by the use of the ~~striketrough~~ designation of all the Flathead River basin rights on those two Appendices, indicating their elimination as Tribal water rights. See **Exhibit 4**.<sup>3</sup> The Compacting Parties request that the abstracts included with the Preliminary Decree of the Tribal water rights – the subject of the proposed special proceeding – include these revised versions of Appendices 9 and 28 to the Compact in *Appendix 2* to the Preliminary Decree when it is issued by the Court.<sup>4</sup>

Finally, the Compacting Parties request two types of alterations in the proposed Preliminary Decree that is **Exhibit 2** to the Joint Motion and Appendix 38 to the Flathead Compact. One change has largely been explained above – that the Flathead Compact recognized

---

<sup>2</sup> A new last sentence would be added to the abstract that is Appendix 9: “THE OWNERSHIP AND PRIORITY DATE OF THE WATER RIGHT FOR THE 90,000 ACRE-FEET PER YEAR ALLOCATION OF STORAGE WATER IN HUNGRY HORSE RESERVOIR IS HELD BY THE UNITED STATES BUREAU OF RECLAMATION. SEE DIVISION DD OF THE CONSOLIDATED APPROPRIATIONS ACT, 2021, PUB. L. NO. 116-260, 134 STAT. 1182, 3008-38 (MONTANA WATER RIGHTS PROTECTION ACT) AT SECTION 6.”

<sup>3</sup> The terms of the abstracts of water rights control over any inconsistent provision in the Compact. Flathead Compact, Art. III.B.

<sup>4</sup> Thus upon approval, the versions of Appendices 9 and 28 in **Exhibit 4** should be exchanged for the same documents in *Appendix 2* to the proposed Preliminary Decree that is **Exhibit 2** to the Joint Motion.

For completeness, the Compacting Parties specify that Appendix 29 is not included in the exchange of Appendices described here because the rights reflected therein were not intended to be part of the Tribal water rights decreed by this Court. Flathead Compact, Appendix 29 at 1 (top).

the United States Congress could impose terms and conditions on the Hungry Horse Reservoir allocation that is a component of the Tribes' Flathead System Compact Water right. Flathead Compact, Art. III.C.1.c.i, vii. Thus, consistent with the Settlement Act, the Compacting Parties request that the conditions imposed by Congress on the Tribes' allocation be stated in the Preliminary Decree. A new sentence describing such conditions is in the margin<sup>5</sup>; it is functionally identical to the issue remark added to Appendix 9; and it is included in the revised text of the proposed Corrected Preliminary Decree that is attached as **Exhibit 5** to the Joint Motion.

The second type of change the Compacting Parties request is to make corrections to the Preliminary Decree attached to the Flathead Compact as Appendix 38, because various provisions had errors when closely compared to the relevant article of the Compact. The Preliminary Decree is based on the Flathead Compact, Article VII.B, and the Decree should therefore track the Compact. The Preliminary Decree recognizes that any difference between the Decree and the Compact is controlled by the Compact language. **Exhibit 2** to the Joint Motion, Preliminary Decree, at 40 (section V). The Compacting Parties therefore seek to have the Court issue a Preliminary Decree that more accurately states the pertinent provisions of the Flathead Compact. In **Exhibit 6**, the Compacting Parties have summarized the typos, formatting convention errors, inadvertent omissions, and paraphrases in the Preliminary Decree that we desire to correct. The Compacting Parties have made these rectifications in the Corrected

<sup>5</sup> A new sentence would be added to the Preliminary Decree at Part III.C.1.c.vii: "Congress specified that the ownership and priority date of the Water Right for the 90,000 acre-feet per year allocation is held by the United States Bureau of Reclamation. See Division DD of the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260, 134 Stat. 1182, 3008-38 (Montana Water Rights Protection Act) at section 6."

Preliminary Decree that is attached to the Joint Motion as **Exhibit 5**. The intended result is to provide the Court and the potentially affected water users with a Corrected Preliminary Decree that is a slightly more precise recitation of the relevant Flathead Compact text and to have that used in the special proceeding.<sup>6</sup> Thus, the Compacting Parties request that the Court issue a Preliminary Decree in the consolidated basins under § 85-2-231(2), MCA, as found in **Exhibit 2** and as corrected with **Exhibits 4 & 5**.

Consistent with § 85-2-232, MCA, the Compacting Parties have provided in another motion filed contemporaneously herewith the scope and timing of the requisite notice of the Preliminary Decree of the Tribal water rights. *See Joint Motion for Approval of Process to Provide Notice of Special Proceedings for Consideration of the Confederated Salish and Kootenai Tribes of the Flathead Reservation-State of Montana-United States Compact*. After the expiration of the notice period for the Preliminary Decree, the Compacting Parties request that the Court hold timely hearings under § 85-2-233(1)(a), MCA, regarding any objections filed to the Preliminary Decree. Approval of the Tribal water rights is appropriate because they are fair, adequate, reasonable, and conform to applicable law. Entry of the proposed decree as a final judgment is appropriate when the Court has resolved all of the objections that may be filed in response to the Notice of Entry of the Preliminary Decree. Then the Court should issue a final judgment under Rule 54(b), Mont. R. Civ. P., accepting the Tribal water rights recognized in the Flathead Compact.

---

<sup>6</sup> To implement the Compacting Parties' request, **Exhibit 5**, the Corrected Preliminary Decree, would replace **Exhibit 2**, the Preliminary Decree that accompanied the Flathead Compact, as the Preliminary Decree that is to be issued by the Water Court and subject to review.

## CONCLUSION

For the reasons stated in the Joint Motion and this Memorandum, and for any other reason appearing to the Court, the Compacting Parties respectfully request that the Water Court issue an order granting the Joint Motion and entering the proposed Order for the Commencement of Special Proceedings and adopting the proposed Corrected Preliminary Decree and related abstracts that are submitted herewith.

**PRELIMINARY DECREE AND ORDER FOR THE COMMENCEMENT  
OF SPECIAL PROCEEDINGS FOR CONSIDERATION OF THE  
CONFEDERATED SALISH AND KOOTENAI TRIBES–STATE OF MONTANA–UNITED  
STATES COMPACT**

---

THIS MATTER came before the Court on the motion of the Confederated Salish and Kootenai Tribes of the Flathead Reservation (“Tribes”), the State of Montana, and the United States of America to commence the proceedings required under applicable law to review and approve the water rights of the Tribes, quantified in the Compact among the Tribes, State, and United States found at § 85-20-1901, MCA (“Flathead Compact”). The Court, based on the submissions of the Tribes, the State, and the United States, and being otherwise advised in these matters, FINDS, CONCLUDES, and ORDERS as follows:

**FINDINGS OF FACT AND CONCLUSIONS OF LAW**

1. The Tribes, the State, and the United States (the “Compacting Parties”) have concluded a Compact settling the water right claims of the Tribes, its members, and allottees, and

of the United States on behalf of the Tribes, its members, and allottees, in accordance with § 85-2-702, MCA. The Flathead Compact was ratified by the Montana Legislature in 2015 (codified at § 85-20-1901, MCA), by the Congress of the United States on December 27, 2020 (P.L. 116-260, Title V, Division DD) (“Montana Water Rights Protection Act”), and by the Tribe by Resolution 21-023 of its Council on December 29, 2020. The Secretary of the United States Department of the Interior approved the Flathead Compact on September 17, 2021, after completing the review process required by section 4 of the Montana Water Rights Protection Act.

2. On March 15, 2022, the Compacting Parties initiated the Water Court process required under the Montana Water Rights Protection Act and Montana law to settle the water rights of the Tribes by filing in the Water Court a Joint Motion for Incorporation of the Confederated Salish and Kootenai Tribes’ Compact into Preliminary and Final Decrees, for Commencement of a Special Proceeding on such Decrees, and for a Hearing on any Objections to the Preliminary Decree. The Compacting Parties asked the Water Court to adopt a procedure allowing consolidation of the nine basins encompassed by the Compact water rights and two additional basins that can be impacted by the Tribal water rights into a single judicial unit, in accordance with § 85-2-215, MCA, and the issuance of a Preliminary Decree within this judicial unit for the water rights defined in the Flathead Compact. This procedure is consistent with the requirements of Article VII.B of the Flathead Compact and has been utilized in the review of other water rights settled through compacts entered into between the State and the United States regarding federal agencies’ rights, and between several Montana Tribes, the State and the United States regarding various tribal rights. *See, e.g.*, Northern Cheyenne (No. WC-93-1); Fort Peck (No. WC-92-1); National Park Service (No. WC-94-1); Chippewa Cree (No. WC-2000-01); Red

Rock Lakes (No. WC-2002-02); Benton Lakes/Black Coulee (No. WC-2002-04); Forest Service (No. WC-2007-3); Bureau of Land Management (No. WC-2008-10); National Bison Range (No. WC-2011-01); Crow (No. WC-2012-06); Bowdoin (No. WC 2013-04); Charles M. Russell (No. WC 2015-05); Upper Missouri Breaks (No. WC 2015-06); and Blackfeet (No. WC 2018-06).

3. The Compacting Parties asked in their Joint Motion that the Court include the water rights quantified in the Flathead Compact in the final decrees for the following nine basins:

- a. Basin 76D, Kootenai River;
- b. Basin 76E, Rock Creek;
- c. Basin 76F, Blackfoot River;
- d. Basin 76J, South Fork, Flathead River;
- e. Basin 76K, Swan River;
- f. Basin 76L, Flathead River, below Flathead Lake
- g. Basin 76LJ, Flathead River, Flathead Lake and above;
- h. Basin 76M, Clark Fork River, between Blackfoot and Flathead Rivers; and
- i. Basin 76N, lower Clark Fork River, below Flathead River.

4. The Compacting Parties also demonstrated that in two other basins the Tribal water rights can impact water users upstream. These basins are Basin 76G, Clark Fork River, above Blackfoot River, and Basin 76GJ, Flint Creek. Thus, the Court should consolidate the review relating to the Preliminary Decree emanating from the Flathead Compact into a special proceeding pursuant to § 85-2-215, MCA, that encompasses all eleven of the basins where the Tribal water rights are and where impacts could be felt.

5. The Court finds that the Compacting Parties have established special circumstances as to why the Court should adopt procedures for consideration of the Flathead

Compact as a single preliminary decree, rather than piecemeal in eleven separate preliminary decrees in the normal adjudication of the basins affected. While the Court is unable to accord priority status to all claims in the adjudication, significant reasons exist to prioritize the water rights quantified in the Flathead Compact in a separate proceeding.

First, the requested procedure is consistent with the procedures adopted for reviewing the water rights quantified in other compacts, such as Northern Cheyenne (No. WC-93-1); Fort Peck (No. WC-92-1); National Park Service (No. WC-94-1); Chippewa Cree (No. WC-2000-01); Red Rock Lakes (No. WC-2002-02); Benton Lakes/Black Coulee (No. WC-2002-04); Forest Service (No. WC-2007-3); Bureau of Land Management (No. WC-2008-10); National Bison Range (No. WC-2011-01); Crow (No. WC-2012-06); Bowdoin (No. WC 2013-04); Charles M. Russell (No. WC 2015-05); Upper Missouri Breaks (No. WC 2015-06); and Blackfeet (No. WC 2018-06).

Second, differences between the geographic and hydrologic divisions associated with the adjudication and the settlement process authorized by the Montana Legislature warrant special proceedings to allow integration of settlements into decrees. Section 85-2-702, MCA authorizes the Reserved Water Rights Compact Commission to enter into negotiations with Indian Tribes claiming reserved water rights in Montana on a government-to-government basis. This approach can lead to agreements that track political boundaries or are consistent with key legal documents rather than only the basin boundaries utilized in the adjudication. The Flathead Compact includes water rights in nine Water Court basins and those rights can affect water uses in two other basins. The Compact also includes general provisions that apply to water rights in each basin. Eleven separate considerations of the same provisions could lead to conflicting interpretations and to duplication of effort.

Third, the eleven basins affected by the Flathead Compact are in various stages of the adjudication process. Two of the eleven basins have not been decreed (Basins 76L and 76LJ), while in the other nine basins, the Water Court has issued various types of decrees over a long period of time and that are in various stages of having objections to claims resolved.

Consideration of the Flathead Compact on a basin-by-basin approach would occur over an extended period of time. Background information necessary to evaluate the water rights settled in the Flathead Compact could become stale.

Fourth, time is of the essence in this matter. Under the Flathead Compact, Art. VII.B.1, the proposed decree must be approved by the Water Court within three years of submission or it becomes voidable. And under the Montana Water Rights Protection Act, §§ 10(b)(1)(A) and 10(f), if the Water Court has not “approved the Compact in a manner from which no further appeal may be taken” by January 2032, the federal and tribal waivers of claims are void and the federal approval of the settlement is no longer effective, absent further agreement among the Parties. It is not clear whether the eleven basins will have final decrees issued within these two time frames. If the Court were to stay the proceeding on the Flathead Compact until all the decrees in the eleven basins were issued in the normal course of the adjudication process, the approval, ratification, and confirmation of the entire Flathead Compact could expire before the water rights quantified in the Compact could even be considered by the Water Court in all respects.

Fifth, expenditure of a large amount of the funds made available under the federal legislation for a significant number of important projects are not allowed until the Preliminary Decree has become final in the Water Court. Montana Water Rights Protection Act, §§ 8(b)(2),

8(e), 8(h)(3) – (13), and 9(a). A special proceeding on the Flathead Compact will allow for direct consideration of the Tribes' water rights.

Sixth, the United States, through the Department of Justice, is willing to pay the costs of mailing personal notice to the water rights holders in the eleven Basins, and for the publication of notice for a period of no less than once each week for three consecutive weeks in twenty-one newspapers to have these water rights confirmed on a timely basis.

6. Issuance of a preliminary decree containing the Flathead Compact as authorized by § 85-2-231, MCA is a reasonable and appropriate measure to commence a process that will lead to the approval and incorporation of the Flathead Compact into Montana's general water right adjudication effort or to the Compact's disapproval.

7. The Compacting Parties have demonstrated good cause for entry of an order of commencement and a Preliminary Decree in this matter pursuant to § 85-2-218(1)(b), MCA.

8. Commencement of this proceeding is consistent with prior Water Court practice in approving and incorporating reserved water rights quantified in compacts into the Montana Adjudication.

9. Prioritization of this decree for issuance furthers the intent of the 2015 Montana Legislature in approving the Flathead Compact and incorporating it into the Montana Code. It is fitting and timely to issue the Preliminary Decree now to incorporate the relevant provisions of the Compact into the Water Court Adjudication.

10. This Court has the authority to order the commencement of Special Proceedings under §§ 3-7-224(2) and 85-2-231, MCA.

11. The Compacting Parties have demonstrated good cause to make corrections to the Preliminary Decree attached to the Flathead Compact as Appendix 38 and several of the

Appendices to the Compact. First, the Montana Water Rights Protection Act directed several changes to the Flathead Compact that must be reflected in the Preliminary Decree that is the subject of the special proceedings created herein. The Flathead Compact specifically authorized such changes by Congress for the component of the Tribal water rights that is an allocation of water from the Bureau of Reclamation's Hungry Horse project. Article III.C.1.c.vii. As to the changes to Appendices 28 and 29, to reduce the Tribal water rights, those are authorized by Congress' power under federal law. Regarding the requested corrections to the Preliminary Decree attached to the Flathead Compact as Appendix 38, these are warranted to have the Preliminary Decree more precisely track the Compact. This is consistent with Article VII.B of the Flathead Compact that directs that the Preliminary Decree include Article III of the Compact and any other portions of the Compact that control administration of the Tribal water rights. A more accurate recitation of the Tribal water rights and limitations on those rights from the Flathead Compact in the Preliminary Decree furthers the intent of the Compact.

WHEREFORE, for good cause shown, the Court hereby enters the following:

**ORDER**

12. The Court grants the Compacting Parties' motion to commence these proceedings to consider the Flathead Compact. The Court sets forth in this Order the initial set of procedures necessary to commence the proceedings and to provide notice of the Flathead Compact in accordance with § 85-2-232, MCA.

13. The water rights quantified in the Flathead Compact shall be incorporated into a Preliminary Decree in those basins in which a source for a water right set forth in the Compact is located or in which the Tribal water rights could affect water users. Those basins are: Basin 76D, Kootenai River; Basin 76E, Rock Creek; Basin 76F, Blackfoot River; Basin 76G, Clark

Fork River (above Blackfoot River); Basin 76GJ, Flint Creek; Basin 76J, Flathead River (South Fork); Basin 76K, Swan River; Basin 76L, Flathead River (below Flathead Lake); Basin 76LJ, Flathead River (to and including Flathead Lake); Basin 76M, Clark Fork River (between Blackfoot and Flathead Rivers); and Basin 76N, lower Clark Fork River (below Flathead River). These basins are hereinafter collectively referred to as the “CSKT Basins.”

14. For the purposes of these proceedings, the Court consolidates the CSKT Basins into a single judicial unit in accordance with § 85-2-215, MCA. In accordance with § 85-2-218(1) and (3), MCA, the Court hereby designates the CSKT Basins as a priority basin for the purposes of these proceedings.

15. For the purposes of these proceedings and in accordance with § 85-2-231(3), MCA, the Court hereby designates all of the water rights quantified in the Flathead Compact as a single class of claims within the CSKT Basins.

16. The following provisions of the Montana Water Rights Protection Act impose conditions on and clarify several of the water rights recognized in the Flathead Compact:

## **SEC. 6. STORAGE ALLOCATION FROM HUNGRY HORSE RESERVOIR**

### **(a) STORAGE ALLOCATION TO TRIBES.—**

(1) IN GENERAL.—Subject to paragraph (2), the Secretary shall allocate to the Tribes 90,000 acre-feet per year, as measured at the Hungry Horse Dam, of storage water in Hungry Horse Reservoir for use by the Tribes for any beneficial purpose on or off the Reservation under a water right held by the United States and managed by the Bureau of Reclamation.

(2) LIMITATIONS.—The allocation under paragraph (1) shall be subject to—

(A) Appendix 7 to the Compact, entitled “Flathead Basin Tribal Depletions Study”, prepared by the Bureau of Reclamation, and dated September 2012; and

(B) Appendix 8 to the Compact, entitled “Hungry Horse Reservoir, Montana: Biological Impact Evaluation and Operational Constraints for a proposed 90,000-acre-foot withdrawal”, prepared by the State, as revised on September 14, 2011.

### **(b) TREATMENT.—**

(1) IN GENERAL.—The allocation under subsection (a) shall be considered to be part of the Tribal Water Right.

(2) ADMINISTRATION.—The Tribes shall administer the water allocated under subsection (a) in accordance with, and subject to the limitations of, the Compact and this Act.

(c) ALLOCATION AGREEMENT.—

(1) IN GENERAL.—As a condition of receiving the allocation under subsection (a), the Tribes shall enter into an agreement with the Secretary to establish the terms and conditions of the allocation, in accordance with the Compact and this Act.

(2) INCLUSIONS.—The agreement under paragraph (1) shall include provisions establishing that—

(A) the agreement shall be without a limit as to a term;

(B) the Tribes, and not the United States, shall be entitled to all consideration due to the Tribes under any lease, contract, or agreement entered into by the Tribes pursuant to subsection (d);

(C) the United States shall have no obligation to monitor, administer, or account for—

(i) any funds received by the Tribes as consideration under any lease, contract, or agreement entered into by the Tribes pursuant to subsection (d); or

(ii) the expenditure of those funds;

(D) if the capacity or function of any facility of Hungry Horse Reservoir or Hungry Horse Dam is significantly reduced, or is anticipated to be significantly reduced, for an extended period of time, the Tribes shall have the same storage rights as other storage contractors with respect to the allocation under subsection (a);

(E) the costs associated with the construction and operation of the storage facilities at Hungry Horse Reservoir and Hungry Horse Dam allocable to the Tribes shall be nonreimbursable;

(F) no water service capital charge shall be due or payable for the agreement or any water allocated under subsection (a), regardless of whether that water is delivered for use by the Tribes or under a lease, contract, or by an agreement entered into by the Tribes pursuant to subsection (d);

(G) the Tribes shall not be required to make payments to the United States for the agreement or any water allocated under subsection (a), except for each acre-foot of stored water leased or transferred for industrial purposes;

(H) for each acre-foot of stored water leased by the Tribes for industrial purposes—

(i) the Tribes shall pay annually to the United States an amount sufficient to cover the proportionate share of the annual operation, maintenance, and replacement costs for the Hungry Horse Project allocable to that quantity of water; and

(ii) the annual payments of the Tribes shall be reviewed and adjusted, as appropriate, to reflect the actual operation, maintenance, and replacement costs for the Hungry Horse Project; and

(I) the costs described in subparagraphs (G) and (H) shall not apply to any lease or transfer for industrial purposes to—

(i) any entity of the Tribes; or

(ii) any entity wholly owned by the Tribes.

**SEC. 10. WAIVERS AND RELEASES OF CLAIMS.**

(a) WAIVERS AND RELEASES.—

(4) CERTAIN OFF-RESERVATION WATER RIGHTS.—

(A) IN GENERAL.—Notwithstanding the confirmation of the water rights of the Tribes described in Appendices 28 and 29 to the Compact, as consideration for recognition of the Tribal Water Right and other benefits described in the Compact and this Act, the Tribes shall relinquish any right, title, or claim to the water rights located within the Flathead basin and described in those appendices.

(B) REQUIREMENT.—The water rights described in subparagraph (A) shall be held solely by the State.

17. In order to present the appropriate Preliminary Decree and abstracts of the Tribal water rights, the Court directs that the Preliminary Decree that is the subject of the special proceedings authorized in this Order is the document attached to the Compacting Parties' Joint Motion as Exhibit 5. The appendices to the Preliminary Decree shall be the three appendices attached to the Compacting Parties' Joint Motion, Exhibit 2. The Court further orders that Appendices 9 and 28 that are attached to the Compacting Parties' Joint Motion as Exhibit 4 should be substituted for the same documents in Exhibit 2, Appendix 2.

18. The Court, in a forthcoming, separate order, shall outline the necessary process to provide notice to the potentially affected water users in the CSKT Basins.

19. All proceedings following the issuance of this Order shall be pursuant to the further order of the Court.

20. Nothing herein constitutes approval of the Flathead Compact, the Preliminary Decree of the Compact, or any objections thereto.

DATED this      day of                      , 2022.

In the event of changes to the U.S. Army Corps of Engineers' (Corps) responsibilities under the ESA, such as the delisting of resident and anadromous fish species, that no longer require the Corps to operate Libby Dam pursuant to ESA section 7 biological opinions or other substantive ESA requirements, the United States, acting through the Corps, the Tribes, and the State shall establish written protocols and understandings on meeting and enforcing the Tribes' mainstem Instream Flow right in the Kootenai River while also ensuring that the Corps' operations of Libby Dam meet all Federal statutory and regulatory requirements and obligations. Provided however, that any such enforcement protocol shall not alter the limitations on Call set forth in Article III.D.1.g. The establishment of such protocols and understandings are pursuant to, and shall not be deemed an amendment of, this Compact.

g. Should the suspension on enforcement set forth in Article III.D.1.e be lifted due to the removal of Libby Dam, this water right may be exercised to make a Call only against junior users whose point of diversion is from the mainstem of the Kootenai River and not its tributaries, the purpose of whose rights is irrigation and whose source of supply is surface water, or against junior users the purpose of whose rights is irrigation, whose source of supply is Groundwater that is connected to the mainstem of the Kootenai River, and whose flow rate is greater than 100 gallons per minute.

4. Co-ownership of Instream and Public Recreation Water Rights Held by MFWP.

a. Upon the Effective Date, the Tribes shall be added as a co-owner with MFWP of the Water Rights Arising Under State Law held by MFWP for Instream Flow and recreation purposes that are identified on the tables attached hereto as Appendix 28 and Appendix 29. vi. Call may be initiated on the day following a five-consecutive-day-period in which four out of five average daily river flows fall below their respective daily enforceable hydrograph values. Call may persist until such time as two average daily flows of the previous five-consecutive-day-period are in excess of their respective enforceable hydrograph values.

b. Upon the Effective Date, the Tribes shall be a co-owner with MFWP of these water rights. As co-owners, the Tribes and MFWP shall meet and confer on a biennial basis, or on such other timeframe as the Tribes and MFWP may mutually agree to, regarding the exercise of these rights, with a goal of establishing a joint plan for the exercise of these rights. The establishment of such a plan is pursuant to, and shall not be deemed an amendment of, this Compact. Notwithstanding this planning process, the Tribes and MFWP each retains the unilateral right to exercise these water rights as each deems appropriate, but neither the Tribes nor MFWP has any affirmative duty to take any particular action in regard to the exercise of these rights.

In the event that MFWP obtains an ownership interest in any water rights pursuant to these contracts or obtains an ownership interest in any water rights pursuant to any future contract for the delivery of water from Painted Rocks Reservoir, MFWP shall expeditiously take all steps necessary to add the Tribes as a co-owner of said water rights.

b. MFWP is a party to a contract for the delivery of stored water from Lake Como: Agreement Between the Bitterroot Irrigation District and the United States Department of the Interior, Bureau of Reclamation for the Operation of the Enlarged Storage Pool at Lake Como, July, 1994 (attached hereto as Appendix 34). In the event that MFWP obtains an ownership interest in any water rights pursuant to this contract, or obtains an ownership interest in any water rights pursuant to any future contract for delivery of water from Lake Como, MFWP shall expeditiously take all steps necessary to add the Tribes as a co-owner of said water rights.

c. MFWP shall manage the Painted Rocks and Como contract rights, in a prudent, biologically based and environmentally sound manner, and within the terms and conditions of these contracts. MFWP will manage in the same manner any future contracts for the delivery of water from Painted Rocks or Lake Como to which MFWP becomes a party. The Tribes are an intended beneficiary of MFWP's management of these contracts, and have the right to challenge MFWP's management decisions in a Court of Competent Jurisdiction.

d. MFWP shall meet and confer with the Tribes on a biennial basis, or on such other timeframe as the Tribes and MFWP may mutually agree to, regarding the management of these contract rights. Such modifications to the meeting schedule are pursuant to, and shall not be deemed an amendment of, this Compact. If the Tribes become co-owners of any water right pursuant to this Article III.D.6 of the Compact, the Tribes and MFWP shall each retain the independent right to exercise each water right as each deems appropriate. Neither the Tribes nor MFWP has any affirmative duty to take any particular action in regard to the exercise of any of such rights. The Tribes do not assume any liability arising out of or resulting from any of the contracts identified in this Article III.D.6 pertaining to co-ownership of rights to stored water in Basin 76H.

7. Instream Flow Right on the North Fork of Placid Creek (Basin 76F). The Tribes have an Instream Flow water right for the upper reach of the North Fork of Placid Creek with the

associated flow rates set forth in the abstract of water right attached hereto as Appendix 35. The measurement point for this water right shall be within the main channel of the North Fork of Placid Creek, below the North Fork Placid Creek FIIP Diversion located within the SE 1/4 of the NW 1/4 of the SE 1/4 of Section 29 in Township 17 North Range 16 West.

- a. The priority date for this water right is time immemorial.

f. The recognition of the Instream Flow water rights in this Article III.D.8 does not confer on the Tribes any authority over the management of National Forest System lands within Basin 76D, or any claim to ownership or other rights in that land. With the exception of future diversionary uses by the United States on National Forest System lands in excess of the Forest Service's reserved rights identified in Article III.D.8.e, the Tribes hold the United States harmless for delivery of water or maintenance of flows to meet this Instream Flow water right in Basin 76D.

E. Period of Use. The period of use of the Tribal Water Right set forth in this Article III shall be January 1 to December 31 of each year, provided however, that any portion of that water right that is dedicated to seasonal use, including irrigation use, shall have a period of use as set forth in the abstracts attached hereto as Appendix 5 or as set forth in the registration of such right pursuant to the Law of Administration, as applicable.

F. Points and Means of Diversion. The points and means of diversion for use of the Tribal Water Right set forth in this Article III are as set forth in the abstracts of water rights attached to this Compact or as may be provided for under the Law of Administration.

G. Call Protection.

1. Non-Irrigators. The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose(s) do(es) not include irrigation.

2. Groundwater Irrigators with Flow Rates Less Than or Equal to 100 Gallons Per Minute. The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose is irrigation and whose source of supply is Groundwater and whose flow rate is less than or equal to 100 gallons per minute.

3. Irrigators Within the FIIP Influence Area.

a. The Tribes, the United States, and the Project Operator, agree to relinquish their right to exercise the Tribal Water Right to make a Call against that portion of any Water Right Arising Under State Law identified in Article III.G.3.b that is equal to the quantity of water established as the annual FIIP quota for the current irrigation season, or an equivalent farm delivery amount within the FIIP as implemented by the Project Operator within the applicable RDA Area, or the quantity allowed under a claim decreed by the Montana Water Court or water right granted by the DNRC (an Alternate Value), whichever is less, whose owner enters into a consensual agreement as described in this Article III.G.3.

b. Water Rights Arising Under State Law whose owners are eligible to enter into consensual agreements as described in this Article III.G.3 are those rights:

i. whose purpose is irrigation;

ii. whose point(s) of diversion or place(s) of use are within the FIIP Influence Area; and

iii. whose source of supply is surface water; or

iv. whose source of supply is Groundwater and whose flow rate is greater than 100 gallons per minute.

c. The Tribes, the United States, and the Project Operator, agree to enter into the consensual agreement described in this Article III.G.3 with every owner of a Water Right Arising Under State Law described in Article III.G.3.b who wishes to enter into such an agreement. The following conditions shall apply to any such consensual agreement:

i. the owner of a Water Right Arising Under State Law that meets the criteria described in Article III.G.3.b shall measure all diversions, report the measured amount of those diversions to the Project Operator, agree to divert no more water each year than the lesser of the quantity established as the annual FIIP quota or an Alternate Value, and shall not expand water use beyond the terms of the agreement;

ii. the owner of a Water Right Arising Under State Law does not acquire any entitlement to any delivery or diversion of water from the FIIP, whether the water is stored or run of the river, by entering into a consensual agreement as described in this Article III.G.3;

iii. irrigation use pursuant to any Water Right Arising Under State Law whose owner enters into a consensual agreement as set forth in this Article III.G.3 shall be limited to the irrigation season identified annually by the FIIP and to such period of use limitation as may apply to FIIP irrigators;

iv. the method and frequency of measurement of the diversion must be described and occur at a reasonable level of accuracy and frequency to demonstrate that the diversion does not exceed the lesser of the annual FIIP quota for a given irrigation season or an Alternate Value; and

v. the agreement is permanent and is binding on the heirs and assigns of the owner of each Water Right Arising Under State Law who enters into such agreement.

d. The entering into a consensual agreement as set forth in this subsection (3) does not relieve the owner of any claim to a Water Right Arising Under State Law that is at issue

in the Montana general stream adjudication from the obligation of prosecuting that water right claim through the Montana general stream adjudication.

e. If a consensual agreement is entered into among the Tribes, United States, the Project Operator and the owner of a Water Right Arising Under State Law described in Article III.G.3.b prior to the issuance of the final decree for Montana Water Court Basin 76L and 76 LJ, as applicable, that agreement shall terminate as a matter of law if the claimed Water Right is terminated as a result of proceedings conducted in the Montana general stream adjudication.

f. If a consensual agreement is entered into among the Tribes, the United States, the Project Operator, and the owner of a Water Right Arising Under State Law described in Article III.G.3.b prior to the issuance of the final decree for Montana Water Court Basin 76L and 76 LJ, as applicable, and such owner has a claim in the Montana general stream adjudication that is ultimately decreed a quantity of water for that claim less than the quantity established in the agreement, the consensual agreement shall protect only the lesser amount of water.

g. If the owner of a Water Right Arising Under State Law described in Article III.G.3.b ceases to use that portion of that water right in excess of the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, pursuant to a consensual agreement as set forth in Article III.G.3:

i. that nonuse does not represent an intent by the owner of that water right to wholly or partially abandon that water right or to not comply with the terms and conditions of that right; and

ii. the period of nonuse may not create or may not be added to any previous period of nonuse to create a presumption of abandonment.

h. Any use of a Water Right Arising Under State Law subject to a consensual agreement described in this Article III.G.3 exceeding the volume of water specified in the consensual agreement shall be subject to Call by the Tribes, the United States, or the Project Operator for that amount of water in excess of the terms of the consensual agreement.

i. A Person who has both an entitlement to the delivery of water from the FIIP and a Water Right Arising Under State Law to serve the same acreage may only protect from Call, by entering into a consensual agreement pursuant to this Article III.G.3, a total quantity of water equal to the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, for each acre served, irrespective of whether the water applied to each acre is pursuant to that Person's FIIP delivery right or that Person's Water Right Arising Under State Law.

4. Water Rights Upstream of the Reservation (Basins 76I, 76J, and 76LJ). The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this

Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any water right located upstream of the Flathead Reservation in Basins 76I, 76J, and 76LJ, except for those Water Rights Arising Under State Law:

a. Whose purpose is irrigation and whose source of supply is surface water, and whose point of diversion is:

i. the mainstem of the Flathead River, including Flathead Lake;

ii. the North Fork of the Flathead River;

iii. the Middle Fork of the Flathead River; or

iv. the South Fork of the Flathead River.

b. Whose purpose is irrigation, whose source of supply is Groundwater connected to one of the sources identified in Article III.G.4.a, and whose flow rate is greater than 100 gallons per minute.

c. The Tribes and the United States agree that the Tribal Water Right recognized in the Compact may not be exercised to make Call against any Water Right Arising Under State Law upstream of the Flathead Reservation and located on a tributary to the Flathead River not identified in Article III.G.4.a.

5. Water Rights on the Little Bitterroot River Outside the Reservation (Basin 76L). The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose point of diversion is outside the Flathead Reservation and whose source of supply is the Little Bitterroot River or its tributaries.

6. Any Water Right Arising Under State Law the purpose of which is irrigation and that is susceptible to Call by the Tribes pursuant to Article III.D.1.g, III.D.2.e, III.D.3.e, III.D.5.a.iv, III.D.7.e, III.G.4.a, or III.G.4.b whose purpose is changed after the Effective Date to something other than irrigation shall remain susceptible to Call pursuant to the terms and conditions of this Compact as though the purpose of the Water Right Arising Under State Law was still irrigation.

H. Water Rights Arising Under State Law Appurtenant to Lands Acquired by the Tribes. For lands acquired by the Tribes within the Reservation, the Tribes have the right to any Water Right Arising Under State Law acquired as an appurtenance to the land. Starting upon the Effective Date of the Compact, the Tribes may file a Trust Transfer form with the Board for any lands acquired by the Tribes with appurtenant Water Rights Arising Under State Law that have been taken into trust by the United States on behalf of the Tribes, as provided in the Law of Administration and the water right appurtenant to the land shall be transferred to the Tribal Water Right quantified in this Compact with a priority date of July 16, 1855, provided that the

Tribes shall continue to use the acquired water right as it was historically used or may change the use of the acquired water right pursuant to the provisions for change of use set forth in Article IV.B.4 and the Law of Administration. Such transfer does not shield the underlying right from abandonment based on acts or omissions of the holder of that water right prior to its acquisition by the Tribes.

#### ARTICLE IV - IMPLEMENTATION OF COMPACT

A. Trust Status of Tribal Water Right. The Tribal Water Right shall be held in trust by the United States for the benefit of the Tribes, their members and Allottees.

B. Use of Tribal Water Right.

1. Persons Entitled to Use the Tribal Water Right. The Tribal Water Right may be used by the Tribes, their members, Allottees, or their lessees or assigns. FIIP customers who have assessed land within the FIIP who are in compliance with the applicable BIA rules and guidelines are entitled to have delivered an equitable share of the FIIP Water Use Right as provided by Article IV.D.2.

2. Effect of Non-Use of the Tribal Water Right. Non-use of all or any portion of the Tribal Water Right described in Article III shall not constitute a relinquishment, forfeiture, or abandonment of such right.

3. Review of Registration of Existing Uses of the Tribal Water Right.

a. Within five (5) years after the Effective Date, the Board shall provide the DNRC with a report, in a form materially consistent with that of abstracts of water rights decreed by the Montana Water Court, of the Tribal Water Right registered pursuant to the Law of Administration as being in existence as of the Effective Date.

b. Within six (6) months after receipt of the report, the DNRC must agree, agree in part, or disagree with the report. If the DNRC takes no action by the end of the six-month period after the report is received, the report shall be deemed accepted. If the DNRC agrees in part or disagrees with the report, the State, the Tribes, and the United States shall meet within ninety (90) days of issuance of the DNRC's notice of disagreement in an effort to resolve the issue(s) giving rise to the disagreement. If, after meeting and conferring, the State, the Tribes, and the United States are still unable to come to agreement on the list of Existing Uses, all disagreements over the contents of the list must be brought to the Water Management Board for resolution of the dispute under Article IV.I.4.c within 180 days of the issuance of the DNRC's notice of disagreement.

4. Changes in Use of the Tribal Water Right. Any user of a portion of the Tribal Water Right who proposes a change of such use must seek authorization to change the use of that portion of the right. Such applications for authorization to change a use shall be heard and decided by the Board pursuant to Article IV.I.4.b of the Compact and the Law of Administration, provided that the Board may not consider any change application of

Flathead System Compact Water unless the applicant has secured the written consent of the Tribal Council to apply for a Change in Use authorization.

5. New Development of the Tribal Water Right.

a. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Tribal Water Right on the Reservation after the Effective Date. Such development may only proceed upon the issuance of an Appropriation Right for the New Development by the Board pursuant to Article IV.I.4.a and the Law of Administration.

b. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Flathead System Compact Water Right set forth in Article III.C.1.c off the Reservation after the Effective Date, but only after complying with the provisions of Article IV.B.5.c.

c. Any New Development by the Tribes of a portion of the Tribes' Flathead System Compact Water Right off the Reservation shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to developing Flathead System Compact Water for beneficial use off the Reservation, the Tribes must comply with the provisions of subsections (1) through (3) and (8) through (17) of 85-2-402, MCA, as those provisions read on December 31, 2014.

d. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively amends or repeals any of the sections identified in Article IV.B.5.c, the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions of State law set forth in Article IV.B.5.c or the new provisions of State law shall govern the process for off-Reservation development of new uses of the Flathead System Compact Water Right set forth in Article III.C.1.c. In the event that the Tribes and the DNRC are unable to agree, the provisions of State law identified in Article IV.B.5.c shall remain in effect. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

e. If the Tribes' use of Flathead System Compact Water off the Reservation involves diversion works or facilities for the transport of water located off the Reservation, the Tribes shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

6. Lease of the Tribal Water Right.

a. Lease of the Tribal Water Right generally.

i. Pursuant to the terms and conditions of this Compact, the Tribes may Lease, for use on or off the Reservation, any portion of the Tribal Water Right set forth in Article III.C.1.a, b, i, and j; provided, that either the Tribes or its assignee, on behalf of the Tribes, first comply with the procedures for changing the use of water rights set forth in subsections iii and iv of this Article IV.B.6.a, as applicable.

ii. The Tribes may make or authorize a Lease of the Tribal Water Right for use within or outside the Reservation; provided that, any Lease shall be for a term not to exceed 99 years, and may include provisions authorizing renewal for an additional term not to exceed 99 years. The off-Reservation use of any portion of the Tribal Water Right is limited to a place of use within the Flathead or Clark Fork River Basins in Montana.

iii. A Lease of the Tribal Water Right shall not adversely affect a Water Right Arising Under State Law with a priority date before the date of the Lease or an Appropriation Right issued pursuant to this Compact with a priority date before the date of the Lease. Uses of the Tribal Water Right being exercised prior to the date of the Lease shall not be adversely affected by a Lease of the Tribal Water Right, except that the Tribes may allow uses of the Tribal Water Right on Tribally owned land to be adversely affected by declining to object to the Change in Use application associated with the Lease.

1. If the Lease is for use on the Reservation, the determination of adverse effect shall be made by the Water Management Board pursuant to the process set forth regarding applications for Change in Use authorizations under the Law of Administration.

2. If the Lease is for use off the Reservation, the Lease shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to the lessee putting leased water to beneficial use, the Tribes or their assignee, on behalf of the Tribes, must comply with the following provisions of State law as those provisions read on December 31, 2014:

a. Subsections (1) through (3) and (8) through (17) of 85-2-402, MCA;

b. Subsections (1) through (8) of 85-2-407, MCA, provided, that the term of any such Lease may be for up to 99 years, and the DNRC may approve the renewal of such a Lease for a period of up to 99 years; and

c. 85-2-408, MCA, as limited by the provisions of Article IV.B.6.a.iii.2.a.

iv. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively

amends or repeals any of the sections identified in Article IV.B.6.a.iii.2, the Tribes and the DNRC shall meet, no later than 60 days after the effective date of the State legislative action amending or repealing, to determine if they can agree whether the provisions set forth in Article IV.B.6.a.iii.2 or the new provisions of State law shall govern the process for off-Reservation Leases under this Compact. In the event that the Tribes and the DNRC are unable to agree, the provisions of Article IV.B.6.a.iii.2 shall remain in effect. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

v. The Tribes or any Person using diversion works or facilities for the transportation of water located off the Reservation in connection with a use of the Tribal Water Right shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, or facility proposed to use or transport water, prior to exercising a use of the Tribal Water Right off the Reservation.

b. Lease of the Tribal Water Right by an Individual Indian Owner.

i. An Individual Indian Owner may enter into a Lease to authorize a Person or Persons to use the Individual Indian Owner's allocated portion of the Tribal Water Right on the Reservation.

ii. If the lessee intends to put the water to beneficial use in a manner different than how the Individual Indian Owner had been using the water prior to the date of the Lease, the Individual Indian Owner or the lessee must comply with the provisions of the Law of Administration pertaining to securing Change in Use authorizations from the Water Management Board before the use of water may be changed.

iii. Any Lease entered into pursuant to subsection b of this section may be for a term not to exceed 25 years, and may include provisions authorizing renewal for an additional term not to exceed 25 years.

iv. A Lease of the Tribal Water Right by an Individual Indian Owner shall not adversely affect a Water Right Arising Under State Law with a priority date before the date of the Lease or an Appropriation Right issued pursuant to this Compact with a priority date before the date of the Lease. Uses of the Tribal Water Right being exercised prior to the date of the Lease shall not be adversely affected by a Lease of the Tribal Water Right by an Individual Indian Owner, except that the Tribes may allow uses of the Tribal Water Right on Tribally owned land to be adversely affected by declining to object to the Change in Use application associated with the Lease.

c. Lease of the Flathead System Compact Water Right.

i. Pursuant to the terms and conditions of this Compact, the Tribes may Lease Flathead System Compact Water for use on or off the Reservation, provided that either the Tribes or their lessee comply with the Law of Administration and the relevant provisions of this section, as applicable.

ii. The Tribes shall make available Flathead System Compact Water for short-term Lease within the FIIP or the FIIP Influence Area pursuant to the Shared Shortages provisions set forth at Article IV.E. The Lease term may not exceed the period during which Shared Shortage provisions are in effect. The baseline annual price for this water shall be \$8 per Acre-foot plus a \$25 administrative fee per Lease as of July 1, 2015. From that date, the baseline annual price and the administrative fee shall be indexed for inflation and consequently adjusted annually on July 1st of each successive year thereafter (the Adjustment Date) by the percentage change over the previous twelve months in the most recent monthly Consumer Price Index for All Urban Consumers (CPI-U) published by the United States Department of Labor, Bureau of Labor Statistics, or such other index as the Parties may agree to use. The initial price for each Lease of any portion of the Flathead System Compact Water entered into during that year pursuant to the Shared Shortage provisions contained in Article IV.E shall be the adjusted baseline price. During the term of any given Lease, the price per Acre-foot shall continue to adjust annually on the Adjustment Date by the percentage change in the CPI-U, or such other index as the Parties may agree to use, of the previous twelve-month period. The foregoing provisions regarding the adjusted baseline price and per-Lease administrative fee shall constitute the sole and exclusive price terms of each Lease entered under this Article IV.B.6.c.ii. Any modifications of the index are pursuant to, and shall not be deemed an amendment of, this Compact.

iii. The Tribes may make or authorize a Lease of the Tribal Water Right for use within or outside the Reservation; provided that, any Lease shall be for a term not to exceed 99 years, and may include provisions authorizing renewal for an additional term not to exceed 99 years. The off-Reservation use of any portion of the Tribal Water Right is limited to a place of use within the Flathead or Clark Fork River Basins in Montana.

iv. If the Lease is for a portion of the Tribes' Flathead System Compact Water right to be delivered wholly from water stored in Hungry Horse Reservoir, the Tribes shall provide notice to the DNRC and the Water Management Board, in advance of the effective date of the Lease, of the terms of the Lease and any modifications thereto or termination thereof. For Leases lasting one irrigation season or less, notice to the DNRC and the Water Management Board shall be provided as far in advance as practicable. For Leases lasting longer than one year, notice shall be provided to the DNRC and the Water Management Board by the later of 120 days prior to the date on which the Lease is to take effect or March 31 of the year in which the Lease is to take effect. The point of delivery for a Lease shall be the outlet works at the Hungry Horse Dam. If disputes arise between or among holders of Water Rights Arising Under State Law as to the reasonable transmission and

carriage losses from the point of delivery to the place of use of the Lease, the district court pursuant to its powers and duties under Title 85, Chapter 5, MCA, shall calculate such losses.

v. Any Lease or portion of a Lease to be delivered from water stored in Hungry Horse Reservoir is subject to reduction due to conditions defined in Appendix 8 on a pro rata basis as set forth in Article III.C.1.c.iii.

vi. If the Lease is for the off-Reservation use of a portion of the Tribes' Flathead System Compact Water right to be delivered from a combination of stored water and direct flow water from the Flathead River, or exclusively from direct flow water from the Flathead River, the Lease shall be treated as a change in use as it pertains to the use of the direct flow water. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to the lessee putting leased water to beneficial use, the Tribes or the lessee must comply with the following provisions of State law as those provisions read on December 31, 2014:

1. Subsections (1) through (3) and (8) through (17) of 85-2-402, MCA;

2. Subsections (1) through (8) of 85-2-407, MCA, provided, however, that the term of any such Lease may be for up to 99 years, and the DNRC may approve the renewal of such a Lease for a period of up to 99 years; and

3. 85-2-408, MCA, as limited by the provisions of Article IV.B.6.c.vi.1.

vii. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively amends or repeals any of the sections identified in Article IV.B.6.c.vi.1 through 3, the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions set forth in Article IV.B.6.c.vi.1 through 3 or the new provisions of State law shall govern the process for off-Reservation Leases under this Compact. In the event that the Tribes and the DNRC are unable to agree, the provisions of Article IV.B.6.c.vi.1 through 3 shall remain in effect. Any agreed upon modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

viii. The Tribes or any Person using diversion works or facilities for the transportation of water located off the Reservation in connection with a use of the Flathead System Compact Water Right shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, or facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

7. Lease of 11,000 Acre-Feet per Year of Water From Hungry Horse Reservoir for Off-Reservation Mitigation.

a. The Tribes shall make available for Lease off the Reservation 11,000 Acre-feet of the water identified in Article III.C.1.c.i stored in Hungry Horse Reservoir pursuant to the process, and subject to the terms and conditions, set forth in this Article IV.B.7.

b. The water identified in Article IV.B.7.a shall be available for the mitigation of net depletions arising from new or existing domestic, commercial, municipal and/or industrial uses of water at any point in the Flathead or Clark Fork Basins in Montana for which the 11,000 Acre-feet per year of water is capable of providing mitigation.

c. The DNRC, under Title 85, MCA, shall retain the responsibility for determining if, when, where, and how much mitigation water is needed for any proposed new development and if the water identified in Article IV.B.7.a meets the appropriate mitigation criteria for any proposed mitigation plan.

d. The water identified in Article IV.B.7.a is subject to reduction due to conditions defined in Appendix 8 on a pro rata basis as set forth in Article III.C.1.c.iii.

e. The mechanism for entering into a Lease for any portion of the water set forth in this Article IV.B.7.a shall be as follows:

i. Any interested Person may approach the Tribes, through the Tribal Lands Department or successor Tribal department, to negotiate a Lease of a portion of this water;

ii. The baseline annual per Acre-foot price for this water shall be set at \$40 as of July 1, 2015. From that date, the baseline price shall be indexed for inflation and consequently adjusted annually on July 1st of each year thereafter (the Adjustment Date) by the percentage change over the previous year in the most recent monthly Consumer Price Index for All Urban Consumers (CPI-U) published by the United States Department of Labor, Bureau of Labor Statistics, or such other index as the Parties may agree. The initial price for each Lease of any portion of the 11,000 Acre-feet identified in this Article IV.B.7 entered into during that year shall be the adjusted baseline price. During the term of any given Lease, the price per Acre-foot shall continue to adjust annually on the Adjustment Date by the percentage change in the CPI-U, or such other index as the Parties may agree to use, of the previous twelve-month period. The foregoing provisions regarding the adjusted baseline price shall constitute the sole and exclusive price term of each Lease;

iii. Each Lease between the Tribes and a lessee shall be for a term of 99 years, with the lessee holding an option to renew for an additional 99 years, unless the Tribes and the lessee affirmatively agree on an alternate duration not to exceed 99 years. Any Lease including a term of alternate duration may also include an option to renew for a term not to exceed 99 years; and

iv. The Tribes and each prospective lessee shall negotiate any and all other non-price terms of the Lease arrangement.

f. In the event of an impasse between the Tribes and a prospective lessee over any non-price term, the prospective lessee may file a notice of impasse with the Water Management Board, invoking the Board's authority to resolve any such impasse pursuant to the process set forth in Article IV.B.7.g.

g. Process for resolving disputes over Lease terms.

i. Upon receipt of a notice of impasse, the Board shall date stamp it. Within three days of the filing of a notice of impasse, the Board shall provide notice of the filing to the Tribes, with a copy to the prospective lessee, identifying a date certain between 30 and 60 days from the date of receipt of the notice for the Tribes and the prospective lessee each to submit a last, best offer concerning all of the non-price terms.

ii. No later than the date set by the Board, the Tribes and the prospective lessee shall file a last, best offer with the Board in the form of a proposed Lease agreement and shall serve the same on each other. To be filed, the offer must be placed in the custody of the Board within the time fixed for filing. Filing may be accomplished by mail addressed to the Board, but filing shall not be timely unless the papers are actually received within the time fixed for filing. Immediately upon receipt by the Board, the offers shall be date stamped. If the Tribes fail to timely file an offer, the offer filed by the prospective lessee shall become the terms of the Lease. If the prospective lessee fails to timely file an offer, no Lease shall be concluded.

iii. The Board shall issue a decision selecting one side's offer or the other's between 15 and 45 days after the filing of the offer. At any time prior to the Board's decision, the prospective lessee may choose to withdraw the prospective lessee's offer and decline to enter into the Lease.

iv. The Board shall provide notice of its decision to both the Tribes and the prospective lessee. The Lease shall be concluded on the terms selected by the Board, but must include the price term identified in Article IV.B.7.e.ii of this Compact. The effective date of the Lease shall be ten days after the Board's issuance of its decision.

v. The Tribes or a prospective lessee dissatisfied with a decision of the Board made pursuant to this Article IV.B.7.g may appeal that decision by filing a petition for judicial review with a Court of Competent Jurisdiction within 30 days of the issuance of the Board's decision. The court shall review the Board's decision for abuse of discretion.

C. Exercise of Certain Portions of the Tribal Water Right Related to the FIIP.

1. Priority for the Exercise of the FIIP Instream Flow and FIIP Water Use Rights. Once the water rights described in Article III.C become enforceable, the following relative priorities among those rights shall apply:

- a. Minimum Enforceable Instream Flows.
- b. Minimum Reservoir Pool Elevations.
- c. River Diversion Allowances.
- d. Target Instream Flows.

2. Reallocated Water in excess of Target Instream Flows will be split as equally as hydrologically practicable between the Instream Flow water rights set forth in Article III.C.1.d.ii and the FIIP Water Use Right set forth in Article III.C.1.a.

3. MEF and TIF implementation and schedule. Exercise of FIIP Instream Flow Rights set forth in Article III.C.1.d.ii shall be accomplished through the implementation and enforcement of MEFs and TIFs and is subject to the Shared Shortage and Adaptive Management provisions set forth in Article IV.E and F and Appendix 3.5.

a. MEFs and TIFs shall be enforceable at the values set forth in Appendix 3.1.

b. Implementation and enforceability of MEFs and TIFs.

i. Incremental implementation of Operational Improvements will result in additional FIIP Instream Flow.

ii. MEFs and TIFs shall be enforceable following the completion of Operational Improvements according to the schedule attached hereto as Appendix 3.4.

iii. Reallocated Water from Rehabilitation and Betterment Projects shall be used to incrementally achieve FIIP Instream Flows set forth in Article III.C.1.d.ii.

iv. If the schedule attached hereto as Appendix 3.4 cannot be met due to lack of available funding or other circumstances outside of the control of the Parties or Project Operator, the Parties may agree to adjust the schedule as necessary to allow for timely implementation of MEFs and TIFs. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

v. If the Project Operator fails to implement the schedule attached hereto as Appendix 3.4 due to acts, errors, or omissions of the Project Operator, MEFs and TIFs will be enforceable as though the schedule had been implemented.

c. Until an MEF has become enforceable, the interim Instream Flow, where applicable, for that location shall be the enforceable Instream Flow. Where the Instream Flow has been incrementally increased above the interim Instream Flow level as a result of the partial completion of actions listed in the Implementation Schedule attached hereto as Appendix 3.4, the incrementally achieved level may be maintained until the MEF is achieved.

d. Until a Minimum Reservoir Pool Elevation has become enforceable, the interim reservoir pool elevation, where applicable, for that location shall be enforced.

e. TIFs shall be determined seasonally according to Appendix 3.5, and will vary between the wet and normal year levels attached hereto as Appendix 3.1.

4. Minimum Reservoir Pool Elevations. Minimum Reservoir Pool Elevations attached hereto as Appendix 3.1 shall be enforceable according to the schedule specified in Appendix 3.4. Enforceability of Minimum Reservoir Pool Elevations is subject to Article IV.E, Appendix 3.5, and superseding Federal law allowing for regulation of reservoir elevations.

#### D. Exercise of the FIIP Water Use Right.

##### 1. FIIP Water Use Right.

a. The FIIP Water Use Right shall be satisfied by meeting the RDA values for each RDA Area attached hereto as Appendix 3.2 and as evaluated pursuant to Article IV.D.1.e.

b. RDAs shall be enforceable according to the schedule attached hereto as Appendix 3.4, subject to evaluation pursuant to Article IV.D.1.e.

c. Headworks diversion amounts shall be progressively adjusted to achieve the RDAs as Operational Improvements are completed pursuant to Appendix 3.4.

d. Once RDAs are achieved through completion of Operational Improvements, headworks diversion amounts shall be progressively adjusted as Rehabilitation and Betterment is completed pursuant to Appendix 3.6. The enforceable RDA for the location in which a particular Rehabilitation and Betterment project has been completed is the amount defined in Appendix 3.2, reduced by the volume of Reallocated Water made available by that Rehabilitation and Betterment project. The amount actually diverted may be adjusted pursuant to the evaluation process described in Article IV.D.1.e.

e. RDA values shall be evaluated to ensure their adequacy to meet Historic Farm Deliveries. Initial evaluation of RDAs shall occur once the Parties and Project Operator have completed all Operational Improvements in a given RDA Area according to the

schedule attached hereto as Appendix 3.4. Evaluation of RDAs will continue as part of the responsibilities of the CITT described in Appendix 3.5 as follows:

i. The Project Operator must measure and record farm turnout deliveries within a given RDA Area.

ii. If the aggregate measured deliveries to farm turnouts do not meet Historic Farm Deliveries for a given RDA Area, actual diversions shall be adjusted to assure that Historic Farm Deliveries are met for wet, normal and dry water years. If water in excess of the RDA is needed to meet Historic Farm Deliveries, it will be provided through an increase of the Flathead River pumping plant diversion allowed by the Flathead Pumping Station RDA attached hereto as Appendix 3.2. If the aggregate measured deliveries to farm turnouts exceed Historic Farm Deliveries within an RDA Area, the actual diversions shall be reduced accordingly.

iii. Any adjustment of actual diversions pursuant to this section shall not result in decrease of the MEFs, TIFs, or Minimum Reservoir Pool Elevations.

f. RDAs are quantified for wet, normal, and dry Natural Flow years, attached hereto as Appendix 3.2, and shall be set each year according to the process specified in Appendix 3.5.

2. FIIP Delivery Entitlement Statement. Assessed land within the FIIP is entitled to have water delivered by the Project Operator if the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP. Beginning on the Effective Date, an owner of assessed land within the FIIP may request of the Project Operator a delivery entitlement statement, which must be tendered within 90 days of the request or denied for cause. Beginning on the date one year after the Effective Date, the delivery entitlement statement must be tendered or denied within 30 days. The delivery entitlement runs with the land and is valid so long as the land remains assessed and the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP.

#### E. Shared Shortages Provision.

1. In the event that water supplies are inadequate to simultaneously satisfy an enforceable Instream Flow water right and a corresponding RDA, the provisions of Article IV.E govern the exercise of the water rights set forth in Articles III.C.1.a and III.C.1.d.ii and iv at that location. The CITT shall determine when Shared Shortages conditions begin and end as specified in Appendix 3.5.

2. For purposes of Article IV.E, once MEFs and RDAs have become enforceable, they shall be maintained at the levels set forth in Appendices 3.1 and 3.2, as adjusted pursuant to Article IV.D.1.e. Prior to enforceability of the MEF and RDA levels attached hereto as Appendices 3.1 and 3.2, Instream Flows will be maintained as provided by Article IV.C.3.c and RDAs will be maintained as provided by Article IV.D.1.b and c.

3. Subject to the priority system set forth in Article IV.C.1, RDAs shall be maintained by implementing the following measures in the order of priority set forth below:

a. Available Natural Flow or regulated streamflow shall be diverted by the Project Operator to satisfy RDAs.

b. If the application of Article IV.E.3.a does not satisfy RDAs, Flathead River pumping plant diversions shall be increased as allowed by the Flathead Pumping Station RDA attached hereto as Appendix 3.2.

c. If the application of Article IV.E.3.a and b does not satisfy RDAs, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations specified in Appendix 3.1 to supply RDAs, subject to Article IV.E.5.

d. If the application of Article IV.E.3.a through c does not satisfy RDAs, the Tribes shall make available for short-term lease Flathead System Compact Water for use within the FIIP as provided by Article IV.B.6.c.ii.

4. Within the Basin 76LJ portion of the Little Bitterroot Valley, RDAs shall be maintained by sequentially applying the procedures in Article IV.E.3.a through c, where applicable.

5. As set forth in Article IV.E.3.c, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations set forth in Article III.C.1.e to support RDAs as follows:

a. FIIP reservoirs may be reduced pursuant to this section for no more than four consecutive years.

b. Article IV.E.3.c does not apply to Mission Reservoir.

c. FIIP reservoirs may not be reduced below the interim reservoir pool elevations set forth in Article III.C.1.e.iv and attached hereto as Appendix 13.

d. RDAs may be met from carryover reservoir storage, at the discretion of the Project Operator.

F. Requirement to Implement Adaptive Management and Water Measurement.

1. The Parties agree that Adaptive Management and a comprehensive water measurement program, as described in Appendix 3.5, are essential to the successful implementation of this Compact.

2. The Parties, upon mutual written agreement, and in conformance with the Compact and other applicable provisions of law, may amend Appendix 3.5. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

G. Compact Implementation Technical Team. Within six months of the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Parties shall establish a Compact Implementation Technical Team (CITT) to allow planning for and implementation of Operational Improvements, Rehabilitation and Betterment, and Adaptive Management prior to and following the Effective Date.

1. The CITT membership shall be as provided for in Appendix 3.5.
2. The CITT shall carry out the duties specified by Appendix 3.5.
3. The CITT shall develop criteria for prioritizing and selecting projects.
4. Public Meetings and Records:
  - a. All regularly scheduled meetings of the CITT shall be open to the observation of the general public pursuant to State and Tribal open meeting laws. Where there is a conflict of laws, the law that provides for greater openness to the public applies.
  - b. CITT records are public records and shall be made available to the public for inspection under such reasonable terms and conditions as the CITT shall establish.
5. Disputes Related to the Compact Implementation Technical Team. The Parties agree to perform each obligation set forth in this Compact in good faith and with diligence and loyalty to this agreement. The Parties shall form a Compact Management Committee (CMC) comprised of the Director of the Montana Department of Natural Resources, the Chairman of the Tribal Council, and the Regional Director of the Northwest Region of the Bureau of Indian Affairs or their designees. The CMC will provide policy and administrative oversight of the CITT.
  - a. The CITT shall attempt to reach consensus on all of its actions.
  - b. Where consensus is not achieved, the CITT will resolve disputed issues by majority vote.
  - c. If the CITT vote results in a tie, or is appealed, the disputed issue will be referred to the CMC. The CMC will review and attempt to reach consensus on the disputed issue and if consensus is not possible, will resolve the issue by majority vote.
  - d. A majority vote of the CMC may be appealed using the following procedures:
    - i. Disputes arising out of any act, failure to act, error or omission of the BIA or Project Operator involving Operational Improvements or Rehabilitation and Betterment or otherwise affecting real property owned by the United States may be appealed under Title 25, Part 2, Code of Federal Regulations.

ii. For disputes raising questions of Compact interpretation, the CMC shall immediately seek a determination of those questions from the Water Management Board, which determination will be provided in writing within 30 days.

iii. All other disputes may be appealed to a Court of Competent Jurisdiction. In considering a petition for relief, a Court of Competent Jurisdiction will review the CMC's legal conclusions for correctness and its factual findings for abuse of discretion.

## H. Power Provisions

### 1. Low-Cost Block of Power

The Parties recognize that Article 40 of the Kerr Project License, as amended, jointly issued to the Montana Power Company and the Tribes for the Kerr Project, Project No. 5, requires Montana Power Company, through its successor-in-interest, NorthWestern Energy, to make available the capacity and energy up to 3.734 megawatts at up to 100 percent load factor during the months of April through October to the United States, for and on behalf of the FIIP, at the rates set forth in and adjusted in accordance with such Article.

The Parties agree that the Kerr Project License Article 40 Low Cost Block of Power is equivalent to the delivery of 19,178,000 kilowatt hours of electricity per year, and generally supplies electricity necessary to pump approximately 46,000 Acre-feet of water per year to the FIIP. If the operation and maintenance, and all other rights and responsibilities for the Kerr Project are assumed by the Tribes or their wholly-owned corporation, the Tribes agree, to the extent permitted under applicable license(s) and Federal law, to make the Low Cost Block of Power available in the same manner and at the same rates, as adjusted, as NorthWestern Energy. If the Tribes seek a new license for the Kerr Project, the Tribes or their wholly-owned corporation, agree that their license application will request authority from FERC to make the Low Cost Block of Power available in the same manner and at the same rates, as adjusted, as NorthWestern Energy.

### 2. Net Power in Excess of Low Cost Block

For purposes of Article IV.E, power required to run the Flathead Pumping Station in excess of the Low Cost Block of Power identified in Article IV.H.1 shall be purchased at the price at which Mission Valley Power sells power for irrigation purposes.

### 3. Net Power Revenues

The State and Tribes agree to seek provisions in the Federal legislation ratifying this Compact for Mission Valley Power to budget annually for an anticipated amount of \$200,000 of Net Power Revenues to be made available in the subsequent year to meet the needs of both the power system and the FIIP with an initial allocation of the Net Power Revenue that provides fifty percent to the Project Operator and fifty percent to the Tribes. These funds shall only be used for work on the FIIP that has significant fisheries, water

conservation, or water management benefits. If on an annual basis such work by the Project Operator or the Tribes does not require the full amount of such net revenues the remainder shall be set aside and accumulated for future expenditure for these purposes. This initial allocation may be changed by mutual agreement of the Parties within nine (9) years of the Effective Date, with any subsequent agreement to become effective on the tenth (10th) anniversary of the Effective Date. Any such modification is pursuant to, and shall not be deemed an amendment of, this Compact.

#### I. Administration: Establishment of Flathead Reservation Water Management Board.

1. Establishment of Board. There is hereby established the Flathead Reservation Water Management Board. Upon the Effective Date, the Board shall be the exclusive regulatory body on the Reservation for the issuance of Appropriation Rights and authorizations for Changes in Use of Appropriation Rights and Existing Uses, and for the administration and enforcement of all Appropriation Rights and Existing Uses. The Board shall also have exclusive jurisdiction to resolve any controversy over the meaning and interpretation of the Compact on the Reservation, and any controversy over the right to the use of water as between the Parties or between or among holders of Appropriation Rights and Existing Uses on the Reservation except as explicitly provided otherwise in Article IV.G.5. The jurisdiction of this Board does not extend to any water rights whose place of use is located outside the exterior boundaries of the Reservation.

#### 2. Membership.

a. Voting Members. The Board shall consist of five voting members: two members selected by the Governor of the State pursuant to Article IV.I.2.b, after consultation with holders of Water Rights Arising Under State Law located on the Reservation; two members appointed by the Tribal Council; and one member selected by the other four members. All members shall be appointed within six months of the Effective Date.

b. Appointment by Governor. Within 90 days of the Effective Date, or 15 days of any vacancy in one or more of the Board positions selected by the Governor, the commissioners of each county whose boundaries include any portion of the Reservation shall nominate individuals for the Governor's consideration for appointment to the Board as follows:

- i. The Commissioners of Lake County shall choose five (5) nominees;
- ii. The Commissioners of Sanders County shall choose three (3) nominees;
- iii. The Commissioners of Missoula County shall choose two (2) nominees;
- iv. The Commissioners of Flathead County shall choose one (1) nominee; and
- v. Each nominee must meet the eligibility requirements of Article IV.I.2.f.

The Governor shall choose two Board members from the group of nominees. If the county commissioners fail to nominate a minimum of seven (7) individuals for selection by the Governor within the time set forth in Article IV.I.2.b, the Governor may select any two individual(s) who meet the eligibility requirements set forth in Article IV.I.2.f after consultation with Holders of Water Rights Arising Under State Law located on the Reservation.

c. Should the four appointed members fail to agree on the selection of a fifth voting member within sixty days of the date of appointment of the fourth member, or within thirty days after any vacancy in that fifth position occurs, the following procedure shall be utilized:

i. Within five days thereafter the two members appointed by the Tribal Council shall nominate three individuals to serve as a member of the Board and the two members appointed by the Governor shall nominate three individuals to serve as a member of the Board;

ii. A. Ratification and Effectiveness of Compact.

1. The terms of the Compact may not be amended without the consent of all the Parties following the first ratification by any Party. After the Effective Date, no provision of the Compact shall be modified except as expressly provided in the Compact. Any amendment that is not expressly provided for in the Compact must be ratified in the same manner as the Compact; however, if the proposed amendment concerns non-monetary matters and does not affect the water rights of the Tribes determined in this Compact or other property held in trust by the United States on behalf of the Tribes or Indians, the Secretary may ratify such amendment on behalf of the United States, as determined by Congress. The State and the Tribes will support provisions in the Federal legislation ratifying the Compact that delegates to the Secretary the authority to ratify such future amendments on behalf of the United States.

2. Notwithstanding any other provision in the Compact, the Tribes reserve the unilateral right to withdraw as a Party if:

- a. Congress has not ratified this Compact and authorized appropriations for the Federal contribution to the settlement within four years from the date on which the ratification

of the Compact by the Montana Legislature takes effect under State law. This is a continuing right until Congress ratifies the Compact;

b. Appropriations are not made in the manner contemplated by the Federal legislation ratifying this Compact;

c. The Parties do not reach agreement on the State contribution to settlement;

d. The State has not authorized appropriations for the State contribution to settlement within five years from the date the Compact is ratified by the United States; or

e. Appropriations are not made by the State in the manner contemplated by any agreement for contributions to settlement made pursuant to Article VI.A.

3. The Tribes may exercise their right to withdraw from the Compact under Article VII.A.2 by sending to the Governor of the State and to the Secretary by certified mail a resolution of the Tribal Council expressing the Tribes' intent to withdraw and specifying a reason for withdrawal and a withdrawal date not sooner than one hundred and twenty days from the date of the resolution. On the date designated in the resolution for Tribal withdrawal, the Compact shall become null and void without further action by any Party.

4. Notwithstanding any other provision in the Compact, the State reserves the unilateral right to withdraw as a Party to the Compact if:

a. Congress has not ratified this Compact within four years from the date on which the ratification of the Compact by the Montana Legislature takes effect under State law. This is a continuing right until Congress ratifies the Compact;

b. The Tribes have not ratified this Compact within five years from the date on which the ratification of the Compact by the Montana Legislature takes effect under State law;

c. Congress requires a State contribution to settlement that exceeds the contributions described in Article VI.A; or

d. Congress does not authorize and appropriate the Federal share of funding agreed to pursuant to Article VI.B.

5. The State may exercise its right to withdraw under Article VII.A.4 by sending to the Chair of the Tribal Council and to the Secretary a letter delivered by certified mail from the Governor of the State expressing the State's intent to withdraw and specifying a reason for withdrawal and a withdrawal date not sooner than one hundred and twenty days from the date of the letter. If the Montana Water Court does not approve the proposed decree submitted with the motion within three years following the filing of the motion, the Compact shall be voidable by written agreement of the State and the Tribes. If the Montana Water Court approves the proposed decree within three years, but the decree is subsequently set aside by the Montana Water Court or on appeal, the Compact shall be voidable by written agreement of the State and the Tribes. Any effect of the failure of approval or setting aside of the decree on the approval, ratification, and confirmation by the United States shall be as provided by Congress. The Parties understand and agree that the submission of the Compact to a State court or courts, as provided for in the Compact, is solely to comply with the provisions of 85-2-702(3), MCA, and does not expand the jurisdiction of the State court or expand in any manner the waiver of sovereign immunity of either the United States or the Tribes in the McCarran Amendment, 43 U.S.C. 666, or other provision of Federal law.

2. Consistent with 3-7-224, MCA, setting forth the jurisdiction of the chief water judge, for the purposes of 85-2-702(3), MCA, the review by the Montana Water Court shall be limited to the contents of Appendix 38, and may extend to other sections of the Compact only to the extent that they relate to the determination of water rights and their administration. The final decree shall consist of the contents of Appendix 38, and such other information as may be required by 85-2-234, MCA. Nevertheless, pursuant to 85-2-702(3), MCA, the terms of the entire Compact must be included in the preliminary decree without alteration for the purpose of notice.

Director, Montana Department of Natural Resources and Conservation, and the Montana Department of Natural Resources and Conservation, Montana First Judicial Court, County of Lewis and Clark, Cause No. BDV-2001-253, Montana First Judicial District Court, Lewis and Clark County, Montana;

c. The United States, the Tribes, and the State shall execute and file joint motions pursuant to Rule 41(a), Mont.R.Civ.P., to dismiss without prejudice any and all claims of the Tribes, Tribal members, and Allottees and any and all claims made by the United States for the benefit of the Tribes, Tribal members, and Allottees that have been filed in the Montana Water Court as contemplated by Article VII.D.2. The case adjudicating those claims may only be resumed if either the State or the Tribes exercise the rights each holds under Article VII.A.2 and 4; and

d. The Decree shall be filed by the Parties as a consent decree in Abell, or in Federal court as a new proceeding after the dismissal of Abell conditional on agreement by the Parties to seek the necessary State, Tribal, and Federal ratification of the Compact, if it is finally determined in a judgment binding on the State that the State courts lack jurisdiction over, or that the State court proceedings are inadequate to adjudicate some or all of the water rights asserted in Abell.

#### D. Settlement of Water Rights Claims.

1. The water rights and other benefits confirmed to the Tribes in this Compact are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or to the use of water by the Tribes, Tribal members, and Allottees and the United States on behalf of the Tribes, Tribal members, and Allottees existing on the Effective Date, except for any Appropriation Rights or Water Rights Arising Under State Law held by the Tribes, their members, or Allottees as of the Effective Date or acquired thereafter, which shall be satisfied pursuant to their own terms.

2. The Tribes and United States will file all of their claims to water on and off of the Flathead Indian Reservation on or before July 1, 2015, pursuant to [85-2-702\(3\)](#), MCA. Upon filing, the Tribes and United States will request that the Montana Department of Natural Resources and Conservation stay any action on such claims pending the occurrence of the following events:

a. The passage of an Act of Congress ratifying the Compact and authorizing appropriations for monetary settlement to the Tribes;

b. Approval by the Tribes of the Compact and the Act described in Article VII.D.2.a.

c. Issuance by the Montana Water Court of a final water right decree or decrees incorporating the water rights quantified pursuant to this Compact; and

d. All portions of the final Water Court decree or decrees survive exhaustion of all avenues of appeal.

3. Upon occurrence of these events, the waiver and dismissal described in Article VII.C.1.c and VII.D.3 shall be accomplished.

4. In consideration of the water rights and other benefits confirmed to the Tribes, Tribal members, and Allottees in this Compact, and of performance by the State and the United States of all actions required by this Compact, and on entry of a final order issuing the decree of the Tribal Water Right held in trust by the United States as quantified in this Compact and displayed in Appendix 38 and occurrence of the events set forth in Article VII.D.2, the Tribes and the United States as trustee for the Tribes, Tribal members, and Allottees shall waive, release, and relinquish any and all claims to water rights or to the use of water, and shall dismiss any such claims filed pursuant to Article VII.D.2, existing on the Effective Date.

E. Settlement of Tribal Claims Against the United States. Waiver of claims against the United States by the Tribes, their members and Allottees shall be as provided by Congress.

F. Binding Effect. After the Effective Date and the entry of a final decree by the Montana Water Court of the water rights quantified by this Compact, or if necessary the Federal court in Abell, the Compact's terms shall be binding on:

1. The State and any Person using, claiming or in any manner asserting any right under the authority of the State to the use of water in the State; provided that, the validity of consent, ratification, or authorization by the State is to be determined by State law;

2. The Tribes and any Person using, claiming or in any manner asserting any right to the use of the Tribal Water Right, or any right arising under any doctrine of reserved or aboriginal water rights for the Tribes, Tribal members, and Allottees, or any rights arising under Tribal law; provided that, the validity of consent, ratification or authorization by the Tribes is to be determined by Tribal and, if applicable, Federal law; and

3. The United States and any Person using, claiming or in any manner asserting any right under the authority of the United States to the use of water in the State; provided that, the validity of consent, ratification or authorization by the United States is to be determined by Federal law.

Secretary of the Interior<sup>1</sup>

<sup>1</sup> The Secretary of the Interior is executing the Compact pursuant to Section 4(b) of the Montana Water Rights Protection Act, and her signature is conditioned upon the interpretations set forth in the attached Execution Statement.

THE SECRETARY OF THE INTERIOR  
WASHINGTON

EXECUTION STATEMENT FOR THE WATER RIGHTS COMPACT ENTERED INTO BY  
THE STATE OF MONTANA, THE CONFEDERATED SALISH AND KOOTENAI TRIBES  
OF THE FLATHEAD RESERVATION, AND THE UNITED STATES OF AMERICA

Today, I am honored to sign the Water Rights Compact entered into by the State of Montana, the Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation (Tribes), and the United States of America (Compact). I am issuing this execution statement to clarify the authority under which I am signing the Compact.

The Montana Legislature passed the Compact on April 16, 2015, and the Governor of Montana signed the Compact legislation on April 24, 2015. The United States Congress passed the Montana Water Rights Protection Act (Settlement Act) on December 21, 2020, and the President of the United States signed the Settlement Act on December 27, 2020. The Tribes ratified both the Compact and the Settlement Act by resolution on December 29, 2020.

Section 4(a) of the Settlement Act provides that the Compact is authorized, ratified, and confirmed as “modified by this Act,” and section 4(b) directs that, to the extent that the Compact does not conflict with the Settlement Act, the Secretary of the Interior (Secretary) is directed to execute the Compact, including all exhibits to, appendices to, and parts of the Compact requiring the signature of the Secretary (which includes only the waivers and releases provided in section 10(a) of the Settlement Act and executed with the Compact).

I have determined that the Compact does not conflict with the Settlement Act and that the Settlement Act governs as follows:

1. Section 6 of the Settlement Act clarifies that the ownership and priority date of the Tribes’ Hungry Horse Reservoir allocation recognized in Article III.C.1.c of the Compact are based on the United States Bureau of Reclamation’s water rights for Hungry Horse Reservoir; and
2. Section 10(a)(4) of the Settlement Act requires the Tribes to relinquish the water rights located within the Flathead basin and as described in Appendices 28 and 29 to the Compact.

I also note two typographical errors in the Compact: the reference in Article VI.A of the Compact to “Articles IV.H.1.a and b above” should refer to “Appendix 3.4,” and the reference in Article VII.D.3 of the Compact to “VII.D.3” should refer to “VII.D.4.”

Thus, pursuant to section 4(b) of the Settlement Act, I am proudly executing the Compact today.

THIS IS A NONCONSUMPTIVE INSTREAM WATER RIGHT; THE PURPOSE AND INSTREAM PLACE OF USE CANNOT BE CHANGED.

## 76D 30063810 Technical Documentation

By way of the water rights compact entered into by the Confederated Salish & Kootenai Tribes, the State of Montana, and the United States of America, 76D 30063810 is hereby issued, creating a new and active enforceable water right, with a place of use along the reach of the Kootenai River starting just above the point where the Kootenai River crosses the Montana Idaho State Border and extending upstream along the Kootenai River to the confluence of the Kootenai and Yaak Rivers. The designation of a place of use of this water right is a designation for purposes of measurement of the enforceable levels and is not a geographic limitation on the location of junior water rights against whom this right may be enforced.

The priority date of this water right is time immemorial.

The purpose of this water right is the maintenance and enhancement of fish habitat.

This water right shall not be exercised in conjunction with any artificial diversion.

The enforceable levels of this water right take the form of static distributions of unique daily flow values, one each for every day of the year. Call may be initiated on the day following a 24-hour period where average daily river flows fall below their respective daily enforceable value.

The owner of this water right shall be entitled to make a call, in accordance with State law, to enforce this water right only against junior water rights in Basin 76D (Kootenai Drainage) whose point of diversion is from the mainstem of the Kootenai River and not its tributaries, the purpose of whose rights is irrigation and whose source of supply is surface water, or against junior users the purpose of whose rights is irrigation, whose source of supply is groundwater connected to the mainstem to the Kootenai River and whose flow rate is greater than 100 gallons per minute.

Enforceable levels of this water right shall be measured at the USGS gage # 12305000 location on the Kootenai River at Leonia, Idaho (48°37'04"N, 116°02'47"W, NAD83) (NWNWNW SEC 20 T33N R34W). If USGS gage # 1230500 is discontinued or otherwise rendered nonfunctional, measurements shall be taken either at this same location or as near to that point as is reasonably practicable. The enforceable static individual daily flow values are described on Page 2 of this document.

The exercise of this water right is subject to the terms and conditions of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America.

ENFORCEABLE LEVELS OF THIS WATER RIGHT SHALL BE MEASURED AT THE USGS GAGE #12340000 LOCATION ON THE MAINSTEM OF THE BLACKFOOT RIVER @ BONNER, MONTANA (46 53 57.88 N, 113 45 22.75 W, NAD83) (SESENW SEC 9 T13N R17W). IF USGS GAGE #12340000 IS DISCONTINUED OR OTHERWISE RENDERED NONFUNCTIONAL, MEASUREMENTS SHALL BE TAKEN EITHER AT THIS SAME LOCATION OR AT A POINT DOWNSTREAM AS NEAR AS REASONABLY PRACTICABLE TO THE CONFLUENCE OF THE CLARK FORK AND BLACKFOOT RIVERS.

THIS WATER RIGHT SHALL NOT BE EXERCISED IN CONJUNCTION WITH ANY ARTIFICIAL DIVERSION.

WATER RIGHT 76M 94404-00 HAS BEEN CHANGED FROM HYDROPOWER GENERATION TO INSTREAM FISHERY AND SPLIT INTO WATER RIGHTS 76M 94404-01 AND 76M 94404-02 BY THE MONTANA LEGISLATURE'S RATIFICATION OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA. 76M 94404-00 CAN NO LONGER BE CHANGED.

THE EXERCISE OF THIS WATER RIGHT IS SUBJECT TO THE TERMS AND CONDITIONS OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA.

THE ABILITY TO ENFORCE THIS RIGHT SHALL BE SUSPENDED UNTIL APRIL 24, 2025, WHICH IS 10 YEARS FROM THE DATE THE RATIFICATION OF THIS COMPACT BY THE MONTANA LEGISLATURE BECAME EFFECTIVE UNDER STATE LAW (APRIL 24, 2015).

THE OWNERS OF THIS WATER RIGHT SHALL BE ENTITLED TO MAKE A CALL, IN ACCORDANCE WITH STATE LAW, TO ENFORCE THIS WATER RIGHT ONLY AGAINST JUNIOR WATER RIGHTS IN BASIN 76F (BLACKFOOT RIVER), THAT:

1) HAVE A PRIORITY DATE EARLIER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW (APRIL 24, 2015), HAVE A PURPOSE OF IRRIGATION AND WHOSE SOURCE OF SUPPLY IS SURFACE WATER;

2) HAVE A PRIORITY DATE EARLIER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW (APRIL 24, 2015), AND HAVE A PURPOSE OF IRRIGATION, WHOSE SOURCE OF SUPPLY IS GROUNDWATER AND WHOSE FLOW RATE IS GREATER THAN 100 GALLONS PER MINUTE; OR

3) HAVE A PRIORITY DATE LATER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES (APRIL 24, 2015), THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW.

THE PLACE OF USE OF THIS WATER RIGHT INCLUDES THE REACH OF THE BLACKFOOT RIVER STARTING JUST ABOVE THE CONFLUENCE OF THE CLARK FORK AND BLACKFOOT RIVERS (46 52 17 N, 113 53 16 W, NAD27) (NESWNW SEC 21 T13N R18W) AND EXTENDING UPSTREAM TO THE CONFLUENCE OF THE BLACKFOOT RIVER AND EAST TWIN CREEK (46 54 49 N, 113 42 35 W, NAD27) (SWSWNE SEC 2 T12N R17W).

THE DESIGNATION OF A PLACE OF USE OF THIS WATER RIGHT IS A DESIGNATION FOR PURPOSES OF MEASUREMENT OF THE ENFORCEABLE LEVELS AND IS NOT A GEOGRAPHIC LIMITATION ON THE LOCATION OF JUNIOR WATER RIGHTS AGAINST WHOM THIS RIGHT MAY BE ENFORCED.

76M 94404-01 & 76M 94404-02 ARE NONCONSUMPTIVE INSTREAM WATER RIGHTS AND THE PURPOSES AND INSTREAM PLACES OF USE CANNOT BE CHANGED.

## Appendix 31: 76M 94404-01 and 76M 94404-02 Technical Documentation

By way of the water rights compact entered into by the Confederated Salish & Kootenai Tribes, the State of Montana, and the United States of America, the former Milltown Dam water right, 76M 94404-00, is hereby split and changed, creating two separate active and enforceable water rights: 76M 94404-01, with a place of use along the reach of the Clark Fork River starting just above the confluence of the Clark Fork and Blackfoot Rivers extending upstream along the Clark Fork River to the confluence of the Clark Fork River and Allen Creek; and 76M 94404-02, with a place of use along the reach of the Blackfoot River starting just above the confluence of the Clark Fork and Blackfoot Rivers and extending along the Blackfoot River upstream to the confluence of the Blackfoot River and the East Fork of Twin Creek. The designation of a place of use of these water rights is a designation for purposes of measurement of the enforceable levels and is not a geographic limitation on the location of junior water rights against whom this right may be enforced.

These water rights maintain the original priority date of December 11, 1904.

The purpose of these water rights is the maintenance and enhancement of fish habitat.

For any analysis of the legal availability of water in basins 76F (Blackfoot River), 76G (Clark Fork above Blackfoot River), 76E (Rock Creek, Tributary to the Clark Fork River), and 76GJ (Flint Creek), these water rights shall be considered conjoined at a combined flow rate of 2,000 CFS for every day of the year, as measured downstream of the confluence of the Clark Fork and Blackfoot Rivers at the location of USGS Gage #12340500 above Missoula (46°52'38.06" N, 113°55'54.99" W, NAD83) (NWNWNW SEC 19 T13N R18W).

These water rights shall not be exercised in conjunction with any artificial diversion.

The ability to enforce these water rights shall be suspended for a period of 10 years from the date the ratification by the Montana legislature of the water rights compact entered into by the Confederated Salish & Kootenai Tribes, the State of Montana, and the United States of America, becomes effective under state law.

The enforceable levels of these water rights take the form of static distributions of unique daily flow values, one each for every day of the year for each water right. Call may be initiated on the day following a five-consecutive-day-period where four out of five average daily river flows fall below their respective daily enforceable flow values; call may persist until such time as two average daily flows of the previous five-consecutive-day-period are in excess of their respective daily enforceable flow values.

### **The details of each water right are described as follows:**

**Water Right 76M 94404-01:** The owners of these water rights shall be entitled to make a call, in accordance with state law, to enforce water right number 94404-01 only against junior water

rights in basins 76G (Clark Fork above Blackfoot River), 76E (Rock Creek, Tributary to the Clark Fork River). and 76GJ (Flint Creek), that:

- 1) Have a priority date earlier than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), have a purpose of irrigation and whose source of supply is surface water;
- 2) Have a priority date earlier than the date on which the ratification by the Montanan Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), and have a purpose of irrigation, whose source of supply is groundwater and whose flow rate is greater than 100 gallons per minute; or
- 3) Have a priority date later than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015).

Enforceable levels of water right 76M 94404-01 shall be measured at USGS gage #12334550 on the mainstem of the Clark Fork River at Turah Bridge, Montana (46°49'33.28" N, 113°48'50.51", NAD83) (SWNWSW SEC 1 T12N R18W), unless that USGS gage is discontinued or otherwise rendered nonfunctional at which point measurements shall be taken either at this same location or at a point downstream on the Clark Fork River as near as reasonably practicable to just above, but not below, the confluence of the Clark Fork and Blackfoot Rivers. The enforceable static individual daily flow values are described in Table 1.

**Water Right 76M 94404-02:** The owners of these water rights shall be entitled to make a call, in accordance with state law, to enforce water right number 94404-02 only against junior water rights in basin 76F (Blackfoot River), that:

- 1) Have a priority date earlier than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), have a purpose of irrigation and whose source of supply is surface water;
- 2) Have a priority date earlier than the date on which the ratification by the Montanan Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), and have a purpose of irrigation, whose source of supply is groundwater and whose flow rate is greater than 100 gallons per minute; or

- 3) Have a priority date later than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015).

Enforceable levels of water right 76M 94404-02 shall be measured at the USGS gage #12340000 near Bonner, Montana (46°53'57.88" N, 113°45'22.75", NAD83) (SESENW SEC 9 T13N R17W), unless that USGS gage is discontinued or otherwise rendered nonfunctional at which point measurements shall be taken either at this same location or at a point downstream on the Blackfoot River as near as reasonably practicable to just above, but not below, the confluence of the Clark Fork and Blackfoot Rivers. The enforceable static individual daily flow values are described in Table 2.

The measurement point for this water right shall be within the main channel of the North Fork of Placid Creek, below the North Fork Placid Creek FIIP Diversion as located within the SE ¼ of the NW ¼ of the SE ¼ of Section 29 in Township 17 North Range 16 West.

- a. The priority date for this water right is time immemorial.
- b. The period of use of this water right is January 1 to December 31 of each year.

- d. The point of diversion and place of use for this water right is instream. This water right shall not be exercised in conjunction with any artificial diversion.
- e. The Tribes, and/or the United States on behalf of the Tribes, shall be entitled to make a Call to enforce this water right only against junior users the purpose of whose rights is irrigation and whose source of supply is surface water of Placid Creek, or against junior users the purpose of whose rights is irrigation, whose source of supply is Groundwater connected to Placid Creek and whose flow rate is greater than 100 gallons per minute.

- f. Call may be made only when the average daily flow drops below the enforceable level for the previous 24-hour period.

**8. Instream Flow Rights on Kootenai River Tributaries (Basin 76D).** The Tribes have Instream Flow water rights for the reaches of the Kootenai River tributaries Big Creek, Boulder Creek, Steep Creek and Sutton Creek, with the associated flow rates set forth in the abstracts of water right attached hereto as [part of Decree Appendix 2 and Compact] Appendix 36.

- a. The priority date for this water right is time immemorial.
- b. The period of use of this water right is January 1 to December 31 of each year.
- c. The purpose of this water right is for the maintenance and enhancement of fish habitat to benefit the instream fishery. This right shall not be changed to any other or additional purpose, changed to consumptive use, or transferred to different ownership.

- e. Existing water rights held by the United States Forest Service pursuant to the United States Forest Service-Montana Water Rights Compact 85-20-1401, MCA shall not be subject to Call by the Tribes and/or the United States on behalf of the Tribes.
- f. The recognition of the Instream Flow water rights in this Article III.D.8 does not confer on the Tribes any authority over the management of National Forest System lands within Basin 76D, or any claim to ownership or other rights in that land. With the exception of future diversionary uses by the

United States on National Forest System lands in excess of the Forest Service's existing or future reserved rights identified in Article III.D.8.e above, the Tribes hold the United States harmless for delivery of water or maintenance of flows to meet this instream flow right in Basin 76D.

**E. Period of Use.** The period of use of the Tribal Water Right set forth in [Part] III [of this Decree] shall be January 1 to December 31 of each year, provided however, that any portion of that water right that is dedicated to seasonal use, including irrigation use, shall have a period of use as set forth in the abstracts attached [to the Compact] as Appendix 5 or as set forth in the registration of such right pursuant to the Law of Administration, as applicable. . [The period of use of any Water Right Arising Under State Law owned exclusively by the Tribes or by the Tribes jointly with Montana Fish Wildlife and Parks or with the United States Fish and Wildlife Service shall be the period identified on the abstract of water right for that particular right as set forth in Appendix 3 of this Decree.]

**F. Points and Means of Diversion.** The points and means of diversion for use of the Tribal Water Right [or any Water Right Arising Under State Law owned exclusively by the Tribes or by the Tribes jointly with Montana Fish Wildlife and Parks or with the United States Fish and Wildlife Service] set forth in this [Part]III [of this Decree] are as set forth in the abstracts of water rights attached to this [Decree as part of either Decree Appendix 2 or Decree Appendix 3] or as may be provided for under the Law of Administration.

**G. Call Protection.**

**1. Non-Irrigators.** The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any

Water Right Arising Under State Law whose purpose(s) do(es) not include irrigation.

**2. Groundwater Irrigators with Flow Rates Less Than 100 Gallons Per Minute.**

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree] and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose is irrigation and whose source of supply is Groundwater and whose flow rate is less than or equal to 100 gallons per minute.

**3. Irrigators Within the FIIP Influence Area.**

- a. The Tribes, the United States, and the Project Operator agree to relinquish their right to exercise the Tribal Water Right to make a Call against that portion of any Water Right Arising Under State Law identified in [Part] III.G.3.b [of this Decree] that is equal to the quantity of water established as the annual FIIP quota for the current irrigation season, or an equivalent farm delivery amount within the FIIP as implemented by the Project Operator within the applicable RDA Area, or the quantity allowed under a claim decreed by the Montana Water Court or water right granted by the DNRC (an Alternate Value), whose owner enters into a consensual agreement as described in this [Part] III.G.3 [of this Decree].
- b. Water Rights Arising Under State Law whose owners are eligible to enter into consensual agreements as described in this [Part] III.G.3 [of this Decree] are those rights:
  - i. whose purpose is irrigation;

annually by the FIIP and to such period of use limitation as may apply to FIIP irrigators;

- iv. the method and frequency of measurement of the diversion must be described and occur at a reasonable level of accuracy and frequency to demonstrate that the diversion does not exceed the lesser of the annual FIIP quota for a given irrigation season or an Alternate Value, and;
  - v. the agreement is permanent and is binding on the heirs and assigns of the owner of each Water Right Arising Under State Law who enters into such agreement.
  - vi. the agreement is permanent and is binding on the heirs and assigns of the owner of each Water Right Arising Under State Law who enters into such agreement
- d. The entering into a consensual agreement as set forth in this [Part] III.G.3 [of this Decree] does not relieve the owner of any claim to a Water Right Arising Under State Law that is at issue in the Montana General Stream Adjudication from the obligation of prosecuting that water right claim through the Montana General Stream Adjudication.
- e. If a consensual agreement is entered into among the Tribes, United States, the Project Operator and the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] prior to the issuance of the final decree for Water Court Basin 76L and 76 LJ, as applicable, that agreement shall terminate as a matter of law if the claimed Water Right is terminated as a result of proceedings conducted in the Montana General

Stream Adjudication.

- f.** If a consensual agreement is entered into among the Tribes, the United States, the Project Operator, and the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] prior to the issuance of the final decree for Water Court Basin 76L and 76 LJ, as applicable, and such owner has a claim in the Montana General Stream Adjudication that is ultimately decreed a quantity of water for that claim less than the quantity established in the agreement, the consensual agreement shall protect only the lesser amount of water.
- g.** If the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] ceases to use that portion of that water right in excess of the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, pursuant to a consensual agreement as set forth in [Part] III.G.3 [of this Decree], pursuant to a consensual agreement as set forth in this [Part] III.G.3.b [of this Decree]:

  - i.** that nonuse does not represent an intent by the owner of that water right to wholly or partially abandon that water right or to not comply with the terms and conditions of that right; and
  - ii.** the period of nonuse may not create or may not be added to any previous period of nonuse to create a presumption of abandonment.
- h.** Any use of a Water Right Arising Under State Law subject to a consensual agreement described in this [Part] III.G.3 [of this Decree] exceeding the volume of water specified in the consensual agreement shall be subject to Call

by the Tribes, the United States, or the Project Operator for that amount of water in excess of the terms of the consensual agreement.

- i. A Person who has both an entitlement to the delivery of water from the FIIP and a Water Right Arising Under State Law to serve the same acreage may only protect from Call, by entering into a consensual agreement pursuant to this [Part] III.G.3 [of this Decree], a total quantity of water equal to the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, for each irrigation season for each acre served, irrespective of whether the water applied to each acre is pursuant to that Person's FIIP delivery right or that Person's Water Right Arising Under State Law.

**4. Water Rights Upstream of the Reservation (Basins 76I, 76J, and 76LJ).** The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any water right located upstream of the Flathead Reservation in Basins 76I, 76J, and 76LJ, except for those Water Rights Arising Under State Law:

- a. whose purpose is irrigation and whose source of supply is surface water, and whose point of diversion is:
  - i. the mainstem of the Flathead River, including Flathead Lake;
  - ii. the North Fork of the Flathead River;
  - iii. the Middle Fork of the Flathead River; or
  - iv. the South Fork of the Flathead River.
- b. Whose purpose is irrigation, whose source of supply is Groundwater

connected to one of the sources identified in [Part] III.G.4.a [of this Decree], and whose flow rate is 100 gallons per minute or greater.

- c. The Tribes and the United States agree that the Tribal Water Right recognized in the [Decree] may not be exercised to make Call against any Water Right Arising Under State Law upstream of the Flathead Reservation and located on a tributary to the Flathead River not identified in [Part] III.G.4.a [of this Decree].

**5. Water Rights on the Little Bitterroot River Outside the Reservation (Basin 76L).**

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose point of diversion is outside the Flathead Reservation and whose source of supply is the Little Bitterroot River or its tributaries.

6. Any Water Right Arising Under State Law the purpose of which is irrigation and that is susceptible to Call by the Tribes pursuant to [Parts] III.D.1.g, III.D.2.e, III.D.3.e, III.D.5.a.iv, III.D.7.e, III.G.4.a, or III.G.4.b [of this Decree] whose purpose is changed after the Effective Date to something other than irrigation shall remain susceptible to Call pursuant to the terms and conditions of this [Decree] as though the purpose of the Water Right Arising Under State Law was still irrigation.

**H. Water Rights Arising Under State Law Appurtenant to Lands Acquired by the**

**Tribes.** For lands acquired by the Tribes within the Reservation, the Tribes have the right to any Water Right Arising Under State Law acquired as an appurtenance to the land. At such time as the acquired land is transferred to trust title status or at the conclusion of the

adjudication of the Water Rights Arising Under State Law that are held by the Tribes, whichever is later, the Tribes shall file a Trust Transfer form with the Water Management Board, as provided in the Law of Administration and the water right appurtenant to the land shall be transferred to the Tribal Water Right quantified in this [Decree] with a priority date of July 16, 1855, provided that the Tribes shall continue to use the acquired water right as historically used or may change the use of the acquired water right pursuant to the provisions for change of use set forth in [Part] IV.[A of this Decree] and the Law of Administration.

**Part IV. Conditions on Changes and New Development of the Tribal Water Right.**<sup>5</sup>

**A. Change in Uses of the Tribal Water Right.**

Except for those portions of the Tribal Water Right that are not eligible to be changed to another purpose [as set forth in the abstracts of water right for those rights], any user of a portion of the Tribal Water Right who proposes to change such use must seek authorization to change the use of that right. Such applications for authorizations to change use shall be heard and decided by the [Water Management] Board pursuant to Article IV.C.4.b of the Compact and the Law of Administration, provided that the [Water Management] Board may not consider any change application of Flathead System Compact Water unless the applicant has secured the written consent of the Tribal Council to apply for a Change in Use authorization.

**B. New Development of the Tribal Water Right.**

1. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Tribal Water Right on the Reservation after the Effective Date. Such development may only proceed upon the issuance of an Appropriation Right for the

---

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

New Development by the [Water Management] Board pursuant to Article IV.C.4.a [of the Compact] and the Law of Administration.

2. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree] off the Reservation after the Effective Date, but only after complying with the provisions of [Part] IV.B.[3 of this Decree].
3. Any new development by the Tribes of a portion of the Tribes' Flathead System Compact Water Right off the Reservation shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 307-310 and 314, MCA. Prior to developing Flathead System Compact Water for beneficial use off the Reservation, the Tribes must comply with the provisions of subsections (1)-(3) and (8)-(17) of 85-2-402, MCA, as those provisions read on December 31, 2012;
4. In the event that, after the Effective Date, the Montana legislature substantively amends or repeals any of the sections identified in [Part] IV.B.[3 of this Decree], the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine whether the provisions of State law set forth in [Part] IV.B.[3 of this Decree] or the new provisions of State law shall govern the process for off-Reservation development of new uses of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree]. In the event that the Tribes and the DNRC are unable to agree, the provisions of State law indentified in [Part] IV.B.[3 of this Decree] shall remain in effect. Any modification to the provisions of [Part] IV.B.[3 of this Decree] agreed to by the Tribes and the

DNRC in response to future State legislative action shall be pursuant to and not a modification or amendment to [the] Compact.

5. If the Tribes' use of Flathead System Compact Water off the Reservation involves diversion or transportation facilities located off the Reservation, the Tribes shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

**C. Exercise of Certain Portions of the Tribal Water Right Related to the FIIP.**

**1. Priority for the Exercise of the FIIP Instream Flow and FIIP Water Use Rights.**

Once the water rights described in [Part] III.C [of this Decree] become enforceable, the following relative priorities among those rights shall apply:

- a. Minimum Enforceable Instream Flows.
  - b. Minimum Reservoir Pool Elevations.
  - c. River Diversion Allowances.
  - d. Target Instream Flows.
2. Reallocated Water in excess of Target Instream Flows will be split as equally as hydrologically practicable between the Instream Flow water rights set forth in [Part] III.C.1.d.ii and the FIIP Water Use Right set forth in [Part] III.C.1.a [of this Decree].
  3. **MEF and TIF implementation and schedule.** Exercise of FIIP Instream Flow Rights set forth in [Part] III.C.1.d.ii [of this Decree] shall be accomplished through the implementation and enforcement of MEFs and TIFs and is subject to the Shared

Shortage and Adaptive Management provisions set forth in [Part] IV.E and F [of this Decree] and Appendix 3.5 [to the Compact].

- a.** MEFs and TIFs shall be enforceable at the values set forth in Appendix 3.1 [to the Compact].
- b.** Implementation and enforceability of MEFs and TIFs.
  - i.** Incremental implementation of Operational Improvements will result in additional FIIP Instream Flow.
  - ii.** MEFs and TIFs shall be enforceable following the completion of Operational Improvements according to the schedule attached [to the Compact] as Appendix 3.4.
  - iii.** Reallocated Water from Rehabilitation and Betterment Projects shall be used to incrementally achieve FIIP Instream Flows set forth in [Part] III.C.1.d.ii [of this Decree].
  - iv.** If the schedule attached [to the Compact] as Appendix 3.4 cannot be met due to lack of available funding or other circumstances outside of the control of the Parties or Project Operator, the Parties may agree to adjust the schedule as necessary to allow for timely implementation of MEFs and TIFs. [last sentence omitted as unnecessary for this Decree].
  - v.** If the Project Operator fails to implement the schedule attached [to the Compact] as Appendix 3.4 due to acts, errors, or omissions of the Project Operator, MEFs and TIFs will be enforceable as though the schedule had been implemented.
- c.** Until an MEF has become enforceable, the interim Instream Flow, where

applicable, for that location shall be the enforceable Instream Flow. Where the Instream Flow has been incrementally increased above the interim Instream Flow level as a result of the partial completion of actions listed in the Implementation Schedule attached [to the Compact] as Appendix 3.4, the incrementally achieved level may be maintained until the MEF is achieved.

- d. Until a Minimum Reservoir Pool Elevation has become enforceable, the interim reservoir pool elevation, where applicable, for that location shall be enforced.
- e. TIFs shall be determined seasonally according to [Compact] Appendix 3.5, and will vary between the wet and normal year levels attached [to the Compact] as Appendix 3.1.

**4. Minimum Reservoir Pool Elevations.** Minimum Reservoir Pool Elevations attached hereto as Appendix 3.1 shall be enforceable according to the schedule specified in Appendix 3.4 [to the Compact]. Enforceability of Minimum Reservoir Pool Elevations is subject to [Part] IV.E [of this Decree], Appendix 3.5 [to the Compact], and superseding Federal law allowing for regulation of reservoir elevations.

**D. Exercise of the FIIP Water Use Right.**

**1. FIIP Water Use Right.**

- a. The FIIP Water Use Right shall be satisfied by meeting the RDA values for each RDA Area attached [to the Compact] as Appendix 3.2 and as evaluated pursuant to [part] IV.D.1.e [of this Decree].
- b. RDAs shall be enforceable according to the schedule attached [to the Compact] as Appendix 3.4, subject to evaluation pursuant to [Part] IV.D.1.e [of this Decree].

- c. Headworks diversion amounts shall be progressively adjusted to achieve the RDAs as Operational Improvements are completed pursuant to Appendix 3.4 [to the Compact].
- d. Once RDAs are achieved through completion of Operational Improvements, headworks diversion amounts shall be progressively adjusted as Rehabilitation and Betterment is completed pursuant to Appendix 3.6 [to the Compact]. The enforceable RDA for the location in which a particular Rehabilitation and Betterment project has been completed is the amount defined in [Compact] Appendix 3.2, reduced by the volume of Reallocated Water made available by that Rehabilitation and Betterment project. The amount actually diverted may be adjusted pursuant to the evaluation process described in [Part] IV.D.1.e [of this Decree].
- e. RDA values shall be evaluated to ensure their adequacy to meet Historic Farm Deliveries. Initial evaluation of RDAs shall occur once the Parties and Project Operator have completed all Operational Improvements in a given RDA Area according to the schedule attached [to the Compact] as Appendix 3.4. Evaluation of RDAs will continue as part of the responsibilities of the CITT described in [Compact] Appendix 3.5 as follows:
  - i. The Project Operator must measure and record farm turnout deliveries within a given RDA Area.
  - ii. If the aggregate measured deliveries to farm turnouts do not meet Historic Farm Deliveries for a given RDA Area, actual diversions shall be adjusted to assure that Historic Farm Deliveries are met for wet,

normal and dry water years. If water in excess of the RDA is needed to meet Historic Farm Deliveries, it will be provided through an increase of the Flathead River pumping plant diversion allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2. If the aggregate measured deliveries to farm turnouts exceed Historic Farm Deliveries within an RDA Area, the actual diversions shall be reduced accordingly.

iii. Any adjustment of actual diversions pursuant to this section shall not result in decrease of the MEFs, TIFs, or Minimum Reservoir Pool Elevations.

f. RDAs are quantified for wet, normal, and dry Natural Flow years, attached [to the Compact] as Appendix 3.2, and shall be set each year according to the process specified in Appendix 3.5 [to the Compact].

**2. FIIP Delivery Entitlement Statement.** Assessed land within the FIIP is entitled to have water delivered by the Project Operator if the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP. Beginning on the Effective Date, an owner of assessed land within the FIIP may request of the Project Operator a delivery entitlement statement, which must be tendered within 90 days of the request or denied for cause. Beginning on the date one year after the Effective Date, the delivery entitlement statement must be tendered or denied within 30 days. The delivery entitlement runs with the land and is valid so long as the land remains assessed and the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP.

**E. Shared Shortages Provision.**

1. In the event that water supplies are inadequate to simultaneously satisfy an enforceable Instream Flow water right and a corresponding RDA, the provisions of [Part] IV.E [of this Decree] govern the exercise of the water rights set forth in [Parts] III.C.1.a and III.C.1.d.ii and iv [of this Decree] at that location. The CITT shall determine when Shared Shortages conditions begin and end as specified in Appendix 3.5 [to the Compact].
2. For purposes of [Part] IV.E [of this Decree], once MEFs and RDAs have become enforceable, they shall be maintained at the levels set forth in [Compact] Appendices 3.1 and 3.2, as adjusted pursuant to [Part] IV.D.1.e [of this Decree]. Prior to enforceability of the MEF and RDA levels attached hereto as [Compact] Appendices 3.1 and 3.2, Instream Flows will be maintained as provided by [Part] IV.C.3.c and RDAs will be maintained as provided by [Parts] IV.D.1.b and c [of this Decree].
3. Subject to the priority system set forth in [Part] IV.C.1 [of this Decree], RDAs shall be maintained by implementing the following measures in the order of priority set forth below:
  - a. Available Natural Flow or regulated streamflow shall be diverted by the Project Operator to satisfy RDAs.
  - b. If the application of [Part] IV.E.3.a [of this Decree] does not satisfy RDAs, Flathead River pumping plant diversions shall be increased as allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2.
  - c. If the application of [Parts] IV.E.3.a and b [of this Decree] does not satisfy RDAs, FIIP reservoirs may be reduced below the Minimum Reservoir Pool

Elevations specified in [Compact] Appendix 3.1 to supply RDAs, subject to [Part] IV.E.5 [of this Decree].

- d. If the application of [Parts] IV.E.3.a through c [of this Decree] does not satisfy RDAs, the Tribes shall make available for short-term lease Flathead System Compact Water for use within the FIIP as provided by Article IV.B.6.c.ii [of the Compact].
4. Within the Basin 76LJ portion of the Little Bitterroot Valley, RDAs shall be maintained by sequentially applying the procedures in [Parts] IV.E.3.a through c [of this Decree], where applicable.
5. As set forth in [Part] IV.E.3.c [of this Decree], FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations set forth in [Part] III.C.1.e [of this Decree] to support RDAs as follows:
  - a. FIIP reservoirs may be reduced pursuant to this section for no more than four consecutive years.
  - b. [Part] IV.E.3.c [of this Decree] does not apply to Mission Reservoir.
  - c. FIIP reservoirs may not be reduced below the interim reservoir pool elevations set forth in [Part] III.C.1.e.iv [of this Decree] and attached [to the Compact] as Appendix 13.
  - d. RDAs may be met from carryover reservoir storage, at the discretion of the Project Operator.

**F. Requirement to Implement Adaptive Management and Water Measurement.**

1. The Parties agree that Adaptive Management and a comprehensive water measurement program, as described in [Compact] Appendix 3.5, are essential to the

successful implementation of this Compact.

- 2. The Parties, upon mutual written agreement, and in conformance with the Compact and other applicable provisions of law, may amend [Compact] Appendix 3.5. Such modifications are pursuant to, and shall not be deemed an amendment of, this [Decree].

**V. Relationship with Compact and Other Water Rights Claims.**

This Decree is based upon the Compact. The water rights of the Tribes confirmed in this Decree are subject to all conditions upon use and administration set forth in the Compact. The water rights of the Tribes confirmed in this Decree are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or the use of water by the Tribes, Tribal members, and Allottees and the United States on behalf of the Tribes, Tribal members, and Allottees except for any Appropriation Rights or Water Rights Arising Under State Law held by the Tribes, their members, or Allottees. Upon entry of this Decree and the occurrence of the other events described in Compact Article VII.D.2, the Tribes and United States shall waive and dismiss all such claims as provided by Compact Article VII.C and D. Nothing in this Decree is intended to modify, alter, or amend the terms and provisions of the Compact.

**VI. Jurisdiction of Court.**

Nothing in this Decree or the Compact shall expand the subject matter jurisdiction of the Water Court of the State of Montana.

- 1. Non-Irrigators.** The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to

relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose(s) do(es) not include irrigation.

**2. Groundwater Irrigators with Flow Rates Less Than 100 Gallons Per Minute.**

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree] and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose is irrigation and whose source of supply is Groundwater and whose flow rate is less than or equal to 100 gallons per minute.

**3. Irrigators Within the FIIP Influence Area.**

- a. The Tribes, the United States, and the Project Operator agree to relinquish their right to exercise the Tribal Water Right to make a Call against that portion of any Water Right Arising Under State Law identified in [Part] III.G.3.b [of this Decree] that is equal to the quantity of water established as the annual FIIP quota for the current irrigation season, or an equivalent farm delivery amount within the FIIP as implemented by the Project Operator within the applicable RDA Area, or the quantity allowed under a claim decreed by the Montana Water Court or water right granted by the DNRC (an Alternate Value), whichever is less, whose owner enters into a consensual agreement as described in this [Part] III.G.3 [of this Decree].
- b. Water Rights Arising Under State Law whose owners are eligible to enter into consensual agreements as described in this [Part] III.G.3 [of this Decree] are those rights:
  - i. whose purpose is irrigation;
  - ii. whose point(s) of diversion or place(s) of use are within the FIIP Influence

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

Area; and

- iii. whose source of supply is surface water; or
  - iv. whose source of supply is Groundwater and whose flow rate is greater than 100 gallons per minute.
- c. The Tribes, the United States, and the Project Operator, agree to enter into the consensual agreement described in this [Part] III.G.3 [of this Decree] with every owner of a Water Right Arising Under State Law described in [Part] III.G.3.b [of this Decree] who wishes to enter into such an agreement. The following conditions shall apply to any such consensual agreement:
- i. the owner of a Water Right Arising Under State Law that meets the criteria described in [Part] III.G.3.b [of this Decree] shall measure all diversions, report the measured amount of those diversions to the Project Operator, agree to divert no more water each year than the lesser of the quantity established as the annual FIIP quota or an Alternate Value, and shall not expand water use beyond the terms of the agreement;
  - ii. the owner of a Water Right Arising Under State Law does not acquire any entitlement to any delivery or diversion of water from the FIIP, whether the water is stored or run of the river, by entering into a consensual agreement as described in this [Part] III.G.3 [of this Decree];
  - iii. irrigation use pursuant to any Water Right Arising Under State Law whose owner enters into a consensual agreement as set forth in this [Part] III.G.3 [of this Decree] shall be limited to the irrigation season identified annually by the FIIP and to such period of use limitation as may apply to FHP irrigators;

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

established in the agreement, the consensual agreement shall protect only the lesser amount of water.

- g.** If the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] ceases to use that portion of that water right in excess of the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, pursuant to a consensual agreement as set forth in [Part] III.G.3 [of this Decree]:

  - i.** that nonuse does not represent an intent by the owner of that water right to wholly or partially abandon that water right or to not comply with the terms and conditions of that right; and
  - ii.** the period of nonuse may not create or may not be added to any previous period of nonuse to create a presumption of abandonment.
- h.** Any use of a Water Right Arising Under State Law subject to a consensual agreement described in this [Part] III.G.3 [of this Decree] exceeding the volume of water specified in the consensual agreement shall be subject to Call by the Tribes, the United States, or the Project Operator for that amount of water in excess of the terms of the consensual agreement.
- i.** A Person who has both an entitlement to the delivery of water from the FIIP and a Water Right Arising Under State Law to serve the same acreage may only protect from Call, by entering into a consensual agreement pursuant to this [Part] III.G.3 [of this Decree], a total quantity of water equal to the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, for each acre served, irrespective of whether the water applied to each acre is pursuant to that Person's FIIP delivery right or that Person's Water Right

Arising Under State Law.

**4. Water Rights Upstream of the Reservation (Basins 761, 76J, and 76LJ).** The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Rightset forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any water right located upstream of the Flathead Reservation in Basins 761, 76J, and 76LJ, except for those Water Rights Arising Under State Law:

- a. whose purpose is irrigation and whose source of supply is surface water, and whose point of diversion is:
  - i. the mainstem of the Flathead River, including Flathead Lake;
  - ii. the North Fork of the Flathead River;
  - iii. the Middle Fork of the Flathead River; or
  - iv. the South Fork of the Flathead River.
- b. Whose purpose is irrigation, whose source of supply is Groundwater connected to one of the sources identified in [Part] III.G.4.a [of this Decree], and whose flow rate is greater than 100 gallons per minute.
- c. The Tribes and the United States agree that the Tribal Water Right recognized in the [Decree] may not be exercised to make Call against any Water Right Arising Under State Law upstream of the Flathead Reservation and located on a tributary to the Flathead River not identified in [Part] III.G.4.a [of this Decree].

**5. Water Rights on the Little Bitterroot Rivet· Outside the Reservation (Basin 76L).**

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to

exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose point of diversion is outside the Flathead Reservation and whose source of supply is the Little Bitterroot River or its tributaries.

6. Any Water Right Arising Under State Law the purpose of which is irrigation and that is susceptible to Call by the Tribes pursuant to [Part] III.D.1.g, III.D.2.e, III.D.3.e, III.D.5.a.iv, III.D.7.e, III.G.4.a, or III.G.4.b [of this Decree] whose purpose is changed after the Effective Date to something other than irrigation shall remain susceptible to Call pursuant to the terms and conditions of this [Decree] as though the purpose of the Water Right Arising Under State Law was still irrigation.

**H. Water Rights Arising Under State Law Appurtenant to Lands Acquired by the**

**Tribes.** For lands acquired by the Tribes within the Reservation, the Tribes have the right to any Water Right Arising Under State Law acquired as an appurtenance to the land. Starting upon the Effective Date of the Compact, the Tribes may file a Trust Transfer form with the Board for any lands acquired by the Tribes with appurtenant Water Rights Arising Under State Law that have been taken into trust by the United States on behalf of the Tribes, as provided in the Law of Administration and the water right appurtenant to the land shall be transferred to the Tribal Water Right quantified in this [Decree] with a priority date of July 16, 1855, provided that the Tribes shall continue to use the acquired water right as historically used or may change the use of the acquired water right pursuant to the provisions for change of use set forth in [Part] IV.[A of this Decree] and the Law of Administration. [The last sentence was omitted as unnecessary for this Decree.]

**Part IV. Conditions on Changes and New Development of the Tribal Water Right.<sup>5</sup>**

**A. Change in Use of the Tribal Water Right.**

Any user of a portion of the Tribal Water Right who proposes a change of such use must seek authorization to change the use of that portion of the right. Such applications for authorization to change a use shall be heard and decided by the [Water Management] Board pursuant to Article IV.I.4.b of the Compact and the Law of Administration, provided that the [WaterManagement] Board may not consider any change application of Flathead System Compact Water unless the applicant has secured the written consent of the Tribal Council to apply for a Change in Use authorization.

**B. New Development of the Tribal Water Right.**

1. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Tribal Water Right on the Reservation after the Effective Date. Such development may only proceed upon the issuance of an Appropriation Right for the New Development by the [Water Management] Board pursuant to Article IV.I.4.a[of the Compact] and the Law of Administration.
2. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree] off the Reservation after the Effective Date, but only after complying with the provisions of [Part] IV.B.3 [of this Decree].
3. Any new development by the Tribes of a portion of the Tribes' Flathead System Compact Water Right off the Reservation shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302,307-310 and 314, MCA. Prior to developing Flathead System Compact Water for beneficial use off the

<sup>5</sup> Provisions IV.A and B are copied, exactly where noted in brackets, from Articles IV.B.4 and 5 of the Compact.

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

Reservation, the Tribes must comply with the provisions of subsections (1)-(3) and (8)-(17) of 85-2-402, MCA, as those provisions read on December 31, 2014;

4. In the event that, after the Effective Date, the Montana legislature substantively amends or repeals any of the sections identified in [Part] IV.B.3 [of this Decree], the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions of State law set forth in [Part] IV.B.3 [of this Decree] or the new provisions of State law shall govern the process for off-Reservation development of new uses of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree]. In the event that the Tribes and the DNRC are unable to agree, the provisions of State law identified in [Part] IV.B.3 [of this Decree] shall remain in effect. Any modification to the provisions of [Part] IV.B.3 [of this Decree] agreed to by the Tribes and the DNRC in response to future State legislative action shall be pursuant to and not a modification or amendment to [the] Compact.
5. If the Tribes' use of Flathead System Compact Water off the Reservation involves diversion works or facilities for the transport of water located off the Reservation, the Tribes shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

**C. Exercise of Certain Portions of the Tribal Water Right Related to the FIIP.**

**1. Priority for the Exercise of the FIIP Instream Flow and FIIP Water Use Rights.**

Once the water rights described in [Part] III.C [of this Decree] become enforceable,

the following relative priorities among those rights shall apply:

- a. Minimum Enforceable Instream Flows.
  - b. Minimum Reservoir Pool Elevations.
  - c. River Diversion Allowances.
  - d. Target Instream Flows.
2. Reallocated Water in excess of Target Instream Flows will be split as equally as hydrologically practicable between the Instream Flow water rights set forth in [Part] III.C.1.d.ii and the FIIP Water Use Right set forth in [Part] III.C.1.a [of this Decree].
3. **MEF and TIF implementation and schedule.** Exercise of FIIP Instream Flow Rights set forth in [Part] III.C.1.d.ii [of this Decree] shall be accomplished through the implementation and enforcement of MEFs and TIFs and is subject to the Shared Shortage and Adaptive Management provisions set forth in [Part] IV.E and F [of this Decree] and Appendix 3.5 [to the Compact].
  - a. MEFs and TIFs shall be enforceable at the values set forth in Appendix 3.1 [to the Compact].
  - b. Implementation and enforceability of MEFs and TIFs.
    - i. Incremental implementation of Operational Improvements will result in additional FIIP Instream Flow.
    - ii. MEFs and TIFs shall be enforceable following the completion of Operational Improvements according to the schedule attached [to the Compact] as Appendix 3.4.
    - iii. Reallocated Water from Rehabilitation and Betterment Projects shall be used to incrementally achieve FIIP Instream Flows set forth in [Part] III.C.1.d.ii [of this Decree].

- iv. If the schedule attached [to the Compact] as Appendix 3.4 cannot be met due to lack of available funding or other circumstances outside of the control of the Parties or Project Operator, the Parties may agree to adjust the schedule as necessary to allow for timely implementation of MEFs and TIFs. [last sentence omitted as unnecessary for this Decree].
  - v. If the Project Operator fails to implement the schedule attached [to the Compact] as Appendix 3.4 due to acts, errors, or omissions of the Project Operator, MEFs and TIFs will be enforceable as though the schedule had been implemented.
- c. Until an MEF has become enforceable, the interim Instream Flow, where applicable, for that location shall be the enforceable Instream Flow. Where the Instream Flow has been incrementally increased above the interim Instream Flow level as a result of the partial completion of actions listed in the Implementation Schedule attached [to the Compact] as Appendix 3.4, the incrementally achieved level may be maintained until the MEF is achieved.
- d. Until a Minimum Reservoir Pool Elevation has become enforceable, the interim reservoir pool elevation, where applicable, for that location shall be enforced.
- e. TIFs shall be determined seasonally according to [Compact] Appendix 3.5, and will vary between the wet and normal year levels attached [to the Compact] as Appendix 3.1.
- 4. Minimum Reservoir Pool Elevations.** Minimum Reservoir Pool Elevations attached as Appendix 3.1 [to the Compact] shall be enforceable according to the schedule specified in Appendix 3.4 [to the Compact]. Enforceability of Minimum Reservoir Pool Elevations is subject to [Part] IV.E [of this Decree], Appendix 3.5 [to the Compact], and superseding Federal law allowing for regulation of reservoir elevations.

**D. Exercise of the FIIP Water Use Right.**

**1. FIIP Water Use Right.**

- a.** The FIIP Water Use Right shall be satisfied by meeting the RDA values for each RDA Area attached [to the Compact] as Appendix 3.2 and as evaluated pursuant to [part] IV.D.1.e [of this Decree].
- b.** RDAs shall be enforceable according to the schedule attached [to the Compact] as Appendix 3.4, subject to evaluation pursuant to [Part] IV.D.1.e [of this Decree].
- c.** Headworks diversion amounts shall be progressively adjusted to achieve the RDAs as Operational Improvements are completed pursuant to Appendix 3.4 [to the Compact].
- d.** Once RDAs are achieved through completion of Operational Improvements, headworks diversion amounts shall be progressively adjusted as Rehabilitation and Betterment is completed pursuant to Appendix 3.6 [to the Compact]. The enforceable RDA for the location in which a particular Rehabilitation and Betterment project has been completed is the amount defined in [Compact] Appendix 3.2, reduced by the volume of Reallocated Water made available by that Rehabilitation and Betterment project. The amount actually diverted may be adjusted pursuant to the evaluation process described in [Part] IV.D.1.e [of this Decree].
- e.** RDA values shall be evaluated to ensure their adequacy to meet Historic Farm Deliveries. Initial evaluation of RDAs shall occur once the Parties and Project Operator have completed all Operational Improvements in a given RDA Area according to the schedule attached [to the Compact] as Appendix 3.4.

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

Evaluation of RDAs will continue as part of the responsibilities of the CITT described in [Compact] Appendix 3.5 as follows:

- i. The Project Operator must measure and record farm turnout deliveries within a given RDA Area.
  - ii. If the aggregate measured deliveries to farm turnouts do not meet Historic Farm Deliveries for a given RDA Area, actual diversions shall be adjusted to assure that Historic Farm Deliveries are met for wet, normal and dry water years. If water in excess of the RDA is needed to meet Historic Farm Deliveries, it will be provided through an increase of the Flathead River pumping plant diversion allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2. If the aggregate measured deliveries to farm turnouts exceed Historic Farm Deliveries within an RDA Area, the actual diversions shall be reduced accordingly.
  - iii. Any adjustment of actual diversions pursuant to this section shall not result in decrease of the MEFs, TIFs, or Minimum Reservoir Pool Elevations.
  - f. RDAs are quantified for wet, normal, and dry Natural Flow years, attached [to the Compact] as Appendix 3.2, and shall be set each year according to the process specified in Appendix 3.5 [to the Compact].
- 2. FIIP Delivery Entitlement Statement.** Assessed land within the FIIP is entitled to have water delivered by the Project Operator if the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP. Beginning on the Effective Date, an owner of assessed land within the FIIP may request of the Project Operator a delivery

entitlement statement, which must be tendered within 90 days of the request or denied for cause. Beginning on the date one year after the Effective Date, the delivery entitlement statement must be tendered or denied within 30 days. The delivery entitlement runs with the land and is valid so long as the land remains assessed and the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP.

**E. Shared Shortages Provision.**

1. In the event that water supplies are inadequate to simultaneously satisfy an enforceable Instream Flow water right and a corresponding RDA, the provisions of [Part] IV.E [of this Decree] govern the exercise of the water rights set forth in [Parts] III.C.1.a and III.C.1.d.ii and iv [of this Decree] at that location. The CITT shall determine when Shared Shortages conditions begin and end as specified in Appendix 3.5 [to the Compact].
2. For purposes of [Part] IV.E [of this Decree], once MEFs and RDAs have become enforceable, they shall be maintained at the levels set forth in [Compact] Appendices 3.1 and 3.2, as adjusted pursuant to [Part] IV.D.1.e [of this Decree]. Prior to enforceability of the MEF and RDA levels attached hereto as [Compact] Appendices 3.1 and 3.2, Instream Flows will be maintained as provided by [Part] IV.C.3.c [of this Decree] and RDAs will be maintained as provided by [Parts] IV.D.1.b and c [of this Decree].
3. Subject to the priority system set forth in [Part] IV.C.1 [of this Decree], RDAs shall be maintained by implementing the following measures in the order of priority set forth below:
  - a. Available Natural Flow or regulated streamflow shall be diverted by the Project Operator to satisfy RDAs.
  - b. If the application of [Part] IV.E.3.a [of this Decree] does not satisfy RDAs,

2015 PROPOSED DRAFT DECREE [SUBJECT TO REVISION]

Flathead River pumping plant diversions shall be increased as allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2.

- c.** If the application of [Parts] IV.E.3.a and b [of this Decree] does not satisfy RDAs, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations specified in [Compact] Appendix 3.1 to supply RDAs, subject to [Part] IV.E.5 [of this Decree].
  - d.** If the application of [Parts] IV.E.3.a through c [of this Decree] does not satisfy RDAs, the Tribes shall make available for short-term lease Flathead System Compact Water for use within the FIIP as provided by Article IV.B.6.c.ii [of the Compact].
- 4.** Within the Basin 76LJ portion of the Little Bitterroot Valley, RDAs shall be maintained by sequentially applying the procedures in [Parts] IV.E.3.a through c [of this Decree], where applicable.
- 5.** As set forth in [Part] IV.E.3.c [of this Decree], FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations set forth in [Part] III.C.1.e [of this Decree] to support RDAs as follows:
- a.** FIIP reservoirs may be reduced pursuant to this section for no more than four consecutive years.
  - b.** [Part] IV.E.3.c [of this Decree] does not apply to Mission Reservoir.
  - c.** FIIP reservoirs may not be reduced below the interim reservoir pool elevations set forth in [Part] III.C.1.e.iv [of this Decree] and attached [to the Compact] as Appendix 13.
  - d.** RDAs may be met from carryover reservoir storage, at the discretion of the Project Operator.

**F. Requirement to Implement Adaptive Management and Water Measurement.**

1. The Parties agree that Adaptive Management and a comprehensive water measurement program, as described in [Compact] Appendix 3.5, are essential to the successful implementation of this Compact.
2. The Parties, upon mutual written agreement, and in conformance with the Compact and other applicable provisions of law, may amend [Compact] Appendix 3.5. Such modifications are pursuant to, and shall not be deemed an amendment of, this [Decree].

**V. Relationship with Compact and Other Water Rights Claims.**

This Decree is based upon the Compact. The water rights of the Tribes confirmed in this Decree are subject to all conditions upon use and administration set forth in the Compact. The water rights of the Tribes confirmed in this Decree are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or the use of water by the Tribes, Tribal members, and Allottees and the United States on behalf of the Tribes, Tribal members, and Allottees except for any Appropriation Rights or Water Rights Arising Under State Law held by the Tribes, their members, or Allottees. Upon entry of this Decree and the occurrence of the other events described in Compact Article VII.D.2, the Tribes and United States shall waive and dismiss all such claims as provided by Compact Article VII.C and D. Nothing in this Decree is intended to modify, alter, or amend the terms and provisions of the Compact.

**VI. Jurisdiction of Court.**

Nothing in this Decree or the Compact shall expand the subject matter jurisdiction of the Water Court of the State of Montana.

# EXHIBIT 6

Compact App. 38 Page #	Decree Part	Compact Article	Proposed Correction
1	Preamble	N/A	Filled in citation and dates that the Compact was approved in several blank spaces at the end of the first paragraph.
2	Preamble	N/A	The cross-reference to "Parts I through <i>III</i> " of the Decree should be to "Parts I through <u>IV</u> " and that has been corrected in order to include the relevant parts of Article IV of the Compact regarding administration that are in the Decree.
4	III.A.	III.A.	A comma was omitted after "traditional" from the phrase in the second sentence in the Decree, "exercises of traditional cultural or religious uses are exempt", and that has been corrected.
5	III.C.1.a.	III.C.1.a.	In the last sentence of the first paragraph of this provision, over a line of text in the Compact was inadvertently omitted from the Decree, and that has been corrected.
5	III.C.1.b.i.	III.C.1.b.i.	In the Compact, the first letter of the words "existing uses" is capitalized, and as such the term has a defined meaning; therefore these two words have been corrected in the Decree.
6	III.C.1.b.iii.	III.C.1.b.iii.	In the Compact, the first letter of the words "existing use" is capitalized, and therefore these two words have been corrected in the Decree on the first and third lines of this provision.
6	III.C.1.c.	III.C.1.c.	"Flathead Lake, and the South Fork of the Flathead River up to Hungry Horse Reservoir" are sources of water for this right in the Compact but were not included in the Decree, and therefore the omission has been corrected in the Decree.

9	III.C.1.c.ix.	III.C.1.c.ix.	At the end of the sentence, the citation to "IV.B. [3 of this Decree]" should be "IV.B.3 [of this Decree]". The bracket has been moved two spaces to the right, and placed immediately next to "[of". This corrects the citation in the Decree.
9	III.C.1.c.x.	III.C.1.c.x.	Subsection III.C.1.c.x was properly omitted from the Decree but the convention was not followed to identify that omission. So, the convention is followed and the omission is now identified. With the omission of subpart x, subpart xi was renumbered as subpart x.
10	III.C.1.d.ii.	III.C.1.d.ii.	In the last sentence, the Compact makes the rights of this provision subject to "Articles IV.C to IV.F", rather than just "IV.C" as found in the Decree, and therefore that cross-reference has been corrected in the Decree.
10-11	III.C.1.d.iv.	III.C.1.d.iv.	Several sentences in the Decree, not found in the Compact, have been eliminated, and the Compact text has been inserted.
11	III.C.1.e.i.	III.C.1.e.i.	The convention employed in the Decree, to insert the term "[of this Decree]" when making a cross reference, has been added here. This addition corrects the record regarding the location of the applicable provision (Compact or Decree).
11	III.C.1.e.ii.	III.C.1.e.ii.	Within the phrase "will become enforceable on the schedule according to the schedule attached", the words "on the schedule" are not in the Compact. The Decree has therefore been corrected to remove the phrase "on the schedule".

12	III.C.1.e.iv.	III.C.1.e.iv.	The phrase, "pursuant to Article IV.C", that is in the Compact, was omitted from the Decree and therefore it has been inserted before the comma in the second line of the Decree.
12-13	III.C.1.f. – j.	III.C.1.f. – j.	In the Compact, there is no paragraph break between the first and second sentences, and therefore this errant paragraph break has been eliminated from the Decree in five subparagraphs.
15	III.D.1.e.	III.D.1.e.	The reference in the Compact to the "2014 Supplemental Federal Columbia River Power System Biological Opinion" was omitted from the Decree, and it has been inserted in the Decree after the reference to the 2010 Biological Opinion.
15	III.D.1.f.	III.D.1.f.	The final sentence of the paragraph in the Compact was properly omitted from the Decree as it is unrelated to the description of the Tribal water rights. So, the convention for the Decree is now followed to include the following phrase: "[The last sentence was omitted as unnecessary for this Decree.]"
19	III.D.4.a.ii.	III.D.4.a.ii.	In the Compact, the phrase "general stream adjudication" uses the lower case first letter rather than capitalizing the first letter, and that convention is now correctly used in the Decree.
20	III.D.5.b.	III.D.5.b.	The second sentence of the Compact for this provision ends with the plural term "these rights", while the Decree incorrectly ended with the singular term "this right". The Decree has been corrected.
21	III.D.5.d.	III.D.5.d.	The Decree had omitted the word "combined" before "year-round flow rate" that was in the Compact and that has been corrected in the Decree.
23	III.D.8.e.	III.D.8.e.	The first word in this provision in the Decree, "Existing", is not in the Compact, and therefore that word is deleted from the corrected Decree.

23	III.D.8.f.	III.D.8.f.	Under the nomenclature to transform the Compact citations to Decree citations, the reference to "Article III.D.8" should be "[Part] III.D.8" [of this Decree] to better locate the provision referred to in the corrected Decree.
24	III.D.8.f.	III.D.8.f.	Same nomenclature problem as immediately above.
24	III.E.	III.E.	The Compact does not include a second period at the end of the first sentence of this Article, and it is therefore deleted in the corrected Decree.
25	III.G.3.a.	III.G.3.a.	The Compact included the words "whichever is less," and they have been correctly inserted on the second to the last line of the corrected Decree.
27	III.G.3.c.v. & vi.	III.G.3.c.v. & vi.	These two subparagraphs are duplicates, and there is only one in the Compact. Therefore, one paragraph has been deleted.
27-28	III.G.3.d., e., f.	III.G.3.d., e., f.	In the Compact, the phrase "general stream adjudication" uses the lower case first letter rather than capitalizing the first letter, and that convention is now correctly used in the Decree in these three subparagraphs.
28	III.G.3.g.	III.G.3.g.	The phrase "pursuant to a consensual agreement as set forth in [Part] III.G.3 [of this Decree]" is stated once at the end of this paragraph in the Compact but twice in the Decree, and therefore the Decree has been corrected by deleting the second use of the phrase.
29	III.G.3.i.	III.G.3.i.	In the Decree phrase "a total quantity of water equal to the lesser of the annual FHP quota for a given irrigation season, or an Alternate Value, for each irrigation season for each acre served," the words "for each irrigation season" are not found in the Compact and therefore the Decree has been corrected by deleting those words.

30	III.G.4.b.	III.G.4.b.	The closing phrase in the Compact “and whose flow rate is greater than 100 gallons per minute” was misstated in the Decree as “and whose flow rate is 100 gallons per minute or greater.” This has been corrected.
30-1	III.H.	III.H.	The second sentence of the Compact text (after the heading) was inaccurately transferred to the Decree, and therefore the Decree has been corrected.
31	III.H.	III.H.	The final sentence of this article in the Compact was properly omitted from the Decree. So, the Decree convention is followed to include the following statement: “[The last sentence was omitted as unnecessary for this Decree.]”
31	Part IV, n. 5	n/a	The explanatory footnote in the Decree points to which parts of Article IV of the Compact are included here and uses the term “These provisions” but that term is not entirely clear when juxtaposed with the rest of Part IV. Thus, the term has been replaced with the more precise term “Provisions IV.A and B”.
31	IV.A.	IV.B.4.	The first sentence of this Article in the Compact (after the heading) was inaccurately transferred to the Decree, and therefore the language of the Decree has been corrected.
31	IV.A.	IV.B.4.	The citation in the Compact in the second sentence of this paragraph is to Article IV. <u>I</u> .4.b of the Compact, not IV. <u>C</u> .4.b, and therefore this mistaken cross-reference in the Decree has been corrected. Also in the second sentence of the Decree, “authorizations to use” should have been “authorization to change a use” and that has been corrected.
31	IV.B.1.	IV.B.5.a.	In the Decree, the words “development may” were inadvertently underlined, and this has been corrected.

32	IV.B.1.	IV.B.5.a.	The citation in the Compact in the second sentence of this paragraph is to Article IV. <u>I</u> .4.a. of the Compact, not IV. <u>C</u> .4.a, and therefore this mistaken cross-reference in the Decree has been corrected.
32	IV.B.2.	IV .B.5.b.	At the end of the sentence, the citation to "IV.B. [3 of this Decree]" should be "IV.B.3 [of this Decree]". The bracket has been moved two spaces to the right, and placed immediately next to "[of". This corrects the citation in the Decree.
32	IV.B.3.	IV.B.5.c.	In the Compact, the year at the end of the paragraph is "2014" rather than "2012" as found in the Decree, and therefore the Decree has been corrected.
32	IV.B.4.	IV.B.5.d.	The phrase in the Compact, "if they can agree", was inadvertently omitted from the Decree, and this omission in the Decree has been corrected by adding that phrase on the fourth line, after the phrase "to determine".
32	IV.B.4.	IV.B.5.d.	Throughout the paragraph, the citations to "IV.B. [3 of this Decree]" should be "IV.B.3 [of this Decree]". The bracket has been moved two spaces to the right, and placed immediately next to "[of". This corrects the citations in the Decree.
33	IV.B.5.	IV.B.5.e.	Several words in the Compact had been omitted from the second line of the Decree, and those omissions have been corrected in the Decree.
35	IV.C.4.	IV.C.4.	In the second line, the standard clarifying insertion for the Decree of the phrase "[to the Compact]" was added in the second line after "Appendix 3.1." This makes it clear in the Decree that this appendix is located in the Compact. And because of this changed vantage point, Decree over Compact, the word "hereto" was deleted from the Decree.
38	IV.E.2.	IV.E.2.	The convention employed in the Decree, to insert the term "[of this Decree]" when making a cross reference, has been added to the fifth line of the Corrected Decree. This addition corrects the record regarding the location of the applicable provision (Compact or Decree).
