- e. No owner of these water rights, acting independently or jointly, shall be entitled to lease, sell or change the purpose of these water rights.
- f. The Water Rights Arising Under State Law identified in [Part III.D.5 of this Decree] shall be finally decreed as part of the decree of this Compact that will be proposed to the Montana Water Court pursuant to Article VII.B [of the Compact].

6. Contract Rights to Stored Water Held by MFWP in Basin 76H (Bitterroot).

[Omitted as unnecessary for this Decree.]

7. Instream Flow Right on the North Fork of Placid Creek (Basin 76 F). The Tribes have the Instream Flow water right for the upper reach of the North Fork of Placid Creek with the associated flow rates set forth in the abstract of

water right attached hereto as [part of Decree Appendix 2 and Compact] Appendix 35. The measurement point for this water right shall be within the main channel of the North Fork of Placid Creek, below the North Fork Placid Creek FIIP Diversion as located within the SE¹/₄ of the NW¹/₄ of the SE¹/₄ of Section 29 in Township 17 North Range 16 West.

- a. The priority date for this water right is time immemorial.
- b. The period of use of this water right is January 1 to December 31 of each year.
- c. The purpose of this water right is for the maintenance and enhancement of fish habitat to benefit the instream fishery. This right shall not be changed to any other or additional purpose, changed to consumptive use, or transferred to different ownership.
- d. The point of diversion and place of use for this water right is instream. This water right shall not be exercised in conjunction with any artificial diversion.
- e. The Tribes, and/or the United States on behalf of the Tribes, shall be entitled to make a Call to enforce this water right only against junior users the purpose of whose rights is irrigation and whose source of supply is surface water of Placid Creek, or against junior users the purpose of whose rights is irrigation, whose source of supply is Groundwater connected to Placid Creek and whose flow rate is greater than 100 gallons per minute.
- f. Call may be made only when the average daily flow drops below the enforceable level for the previous 24-hour period.

8. Instream Flow Rights on Kootenai River Tributaries (Basin 76D). The Tribes have Instream Flow water rights for the reaches of the Kootenai River tributaries Big Creek, Boulder Creek, Steep Creek and Sutton Creek, with the associated flow rates set forth in the abstracts of water right attached hereto as [part of Decree Appendix 2 and Compact] Appendix 36.

- a. The priority date for this water right is time immemorial.
- b. The period of use of this water right is January 1 to December 31 of each year.
- c. The purpose of this water right is for the maintenance and enhancement of fish habitat to benefit the instream fishery. This right shall not be changed to any other or additional purpose, changed to consumptive use, or transferred to different ownership.
- d. The point of diversion and place of use for this water right is instream. This water right shall not be exercised in conjunction with any artificial diversion.
- e. Water rights held by the United States Forest Service pursuant to the United States Forest Service-Montana Water Rights Compact Section 85-20-1401, MCA shall not be subject to Call by the Tribes and/or the United States on behalf of the Tribes.
- f. The recognition of the Instream Flow water rights in this [Part] III.D.8 [of this Decree] does not confer on the Tribes any authority over the management of National Forest System lands within Basin 76D, or any claim to ownership or other rights in that land. With the exception of future diversionary uses by the United States on National Forest System lands in excess of the Forest Service's existing or future reserved rights identified in [Part] III.D.8.e [of this Decree] above, the Tribes hold the United States harmless for delivery of water or maintenance of flows to meet this instream flow right in Basin 76D.

E. Period of Use. The period of use of the Tribal Water Right set forth in [Part] III [of this Decree] shall be January 1 to December 31 of each year, provided however, that any portion of that water right that is dedicated to seasonal use, including irrigation use, shall have a period of use as set forth in the abstracts attached [to the Compact] as Appendix 5 or as set forth in the registration of such right pursuant to the Law of Administration, as applicable. [The period of use of

any Water Right Arising Under State Law owned exclusively by the Tribes or by the Tribes jointly with Montana Fish Wildlife and Parks or with the United States Fish and Wildlife Service shall be the period identified on the abstract of water right for that particular right as set forth in Appendix 3 of this Decree.]

F. Points and Means of Diversion. The points and means of diversion for use of the Tribal Water Right [or any Water Right Arising Under State Law owned exclusively by the Tribes or by the Tribes jointly with Montana Fish Wildlife and Parks or with the United States Fish and Wildlife Service] set forth in this [Part] III [of this Decree] are as set forth in the abstracts of water rights attached to this [Decree as part of either Decree Appendix 2 or Decree Appendix 3] or as may be provided for under the Law of Administration.

G. Call Protection.

1. Non-Irrigators. The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose(s) do(es) not include irrigation.

2. Groundwater Irrigators with Flow Rates Less Than 100 Gallons Per Minute.

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree] and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose is irrigation and whose source of supply is Groundwater and whose flow rate is less than or equal to 100 gallons per minute.

3. Irrigators Within the FIIP Influence Area.

a. The Tribes, the United States, and the Project Operator agree to relinquish their right to exercise the Tribal Water Right to make a Call against that portion of any Water Right Arising Under State

Law identified in [Part] III.G.3.b [of this Decree] that is equal to the quantity of water established as the annual FIIP quota for the current irrigation season, or an equivalent farm delivery amount within the FIIP as implemented by the Project Operator within the applicable RDA Area, or the quantity allowed under a claim decreed by the Montana Water Court or water right granted by the DNRC (an Alternate Value), whichever is less, whose owner enters into a consensual agreement as described in this [Part] III.G.3 [of this Decree].

- b.** Water Rights Arising Under State Law whose owners are eligible to enter into consensual agreements as described in this [Part] III.G.3 [of this Decree] are those rights:
 - i.** whose purpose is irrigation;
 - ii.** whose point(s) of diversion or place(s) of use are within the FIIP Influence Area; and
 - iii.** whose source of supply is surface water; or
 - iv.** whose source of supply is Groundwater and whose flow rate is greater than 100 gallons per minute.
- c.** The Tribes, the United States, and the Project Operator, agree to enter into the consensual agreement described in this [Part] III.G.3 [of this Decree] with every owner of a Water Right Arising Under State Law described in [Part] III.G.3.b [of this Decree] who wishes to enter into such an agreement. The following conditions shall apply to any such consensual agreement:
 - i.** the owner of a Water Right Arising Under State Law that meets the criteria described in [Part] III.G.3.b [of this Decree] shall measure all diversions, report the measured amount of those diversions to the Project Operator, agree to divert no more water each year than the lesser of the quantity established as the

- annual FIIP quota or an Alternate Value, and shall not expand water use beyond the terms of the agreement;
- ii.** the owner of a Water Right Arising Under State Law does not acquire any entitlement to any delivery or diversion of water from the FIIP, whether the water is stored or run of the river, by entering into a consensual agreement as described in this [Part] III.G.3 [of this Decree];
 - iii.** irrigation use pursuant to any Water Right Arising Under State Law whose owner enters into a consensual agreement as set forth in this [Part] III.G.3 [of this Decree] shall be limited to the irrigation season identified annually by the FIIP and to such period of use limitation as may apply to FHP irrigators;
 - iv.** the method and frequency of measurement of the diversion must be described and occur at a reasonable level of accuracy and frequency to demonstrate that the diversion does not exceed the lesser of the annual FIIP quota for a given irrigation season or an Alternate Value, and;
 - v.** the agreement is permanent and is binding on the heirs and assigns of the owner of each Water Right Arising Under State Law who enters into such agreement
- d.** The entering into a consensual agreement as set forth in this [Part] III.G.3 [of this Decree] does not relieve the owner of any claim to a Water Right Arising Under State Law that is at issue in the Montana general stream adjudication from the obligation of prosecuting that water right claim through the Montana general stream adjudication.
- e.** If a consensual agreement is entered into among the Tribes, United States, the Project Operator and the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] prior to the issuance of the final decree for Water Court Basin 76L

and 76 LJ, as applicable, that agreement shall terminate as a matter of law if the claimed Water Right is terminated as a result of proceedings conducted in the Montana general stream adjudication.

- f.** If a consensual agreement is entered into among the Tribes, the United States, the Project Operator, and the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] prior to the issuance of the final decree for Water Court Basin 76L and 76 LJ, as applicable, and such owner has a claim in the Montana general stream adjudication that is ultimately decreed a quantity of water for that claim less than the quantity established in the agreement, the consensual agreement shall protect only the lesser amount of water.
- g.** If the owner of a Water Right Arising Under State Law described in this [Part] III.G.3.b [of this Decree] ceases to use that portion of that water right in excess of the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, pursuant to a consensual agreement as set forth in [Part] III.G.3 [of this Decree]:

 - i.** that nonuse does not represent an intent by the owner of that water right to wholly or partially abandon that water right or to not comply with the terms and conditions of that right; and
 - ii.** the period of nonuse may not create or may not be added to any previous period of nonuse to create a presumption of abandonment.
- h.** Any use of a Water Right Arising Under State Law subject to a consensual agreement described in this [Part] III.G.3 [of this Decree] exceeding the volume of water specified in the consensual agreement shall be subject to Call by the Tribes, the United States, or the Project Operator for that amount of water in excess of the terms of the consensual agreement.

- i. A Person who has both an entitlement to the delivery of water from the FIIP and a Water Right Arising Under State Law to serve the same acreage may only protect from Call, by entering into a consensual agreement pursuant to this [Part] III.G.3 [of this Decree], a total quantity of water equal to the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, for each acre served, irrespective of whether the water applied to each acre is pursuant to that Person's FIIP delivery right or that Person's Water Right Arising Under State Law.

4. Water Rights Upstream of the Reservation (Basins 761, 76J, and 76LJ).

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any water right located upstream of the Flathead Reservation in Basins 761, 76J, and 76LJ, except for those Water Rights Arising Under State Law:

- a. whose purpose is irrigation and whose source of supply is surface water, and whose point of diversion is:
 - i. the mainstem of the Flathead River, including Flathead Lake;
 - ii. the North Fork of the Flathead River;
 - iii. the Middle Fork of the Flathead River; or
 - iv. the South Fork of the Flathead River.
- b. Whose purpose is irrigation, whose source of supply is Groundwater connected to one of the sources identified in [Part] III.G.4.a [of this Decree], and whose flow rate is greater than 100 gallons per minute.
- c. The Tribes and the United States agree that the Tribal Water Right recognized in the [Decree] may not be exercised to make Call against any Water Right Arising Under State Law upstream of the Flathead Reservation and located on a tributary to the Flathead River not

identified in [Part] III.G.4.a [of this Decree].

5. Water Rights on the Little Bitterroot River Outside the Reservation (Basin 76L).

The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this [Decree], and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose point of diversion is outside the Flathead Reservation and whose source of supply is the Little Bitterroot River or its tributaries.

6. Any Water Right Arising Under State Law the purpose of which is irrigation and that is susceptible to Call by the Tribes pursuant to [Part] III.D.1.g, III.D.2.e, III.D.3.e, III.D.5.a.iv, III.D.7.e, III.G.4.a, or III.G.4.b [of this Decree] whose purpose is changed after the Effective Date to something other than irrigation shall remain susceptible to Call pursuant to the terms and conditions of this [Decree] as though the purpose of the Water Right Arising Under State Law was still irrigation.

H. Water Rights Arising Under State Law Appurtenant to Lands Acquired by the Tribes. For lands acquired by the Tribes within the Reservation, the Tribes have the right to any Water Right Arising Under State Law acquired as an appurtenance to the land. Starting upon the Effective Date of the Compact, the Tribes may file a Trust Transfer form with the Board for any lands acquired by the Tribes with appurtenant Water Rights Arising Under State Law that have been taken into trust by the United States on behalf of the Tribes, as provided in the Law of Administration and the water right appurtenant to the land shall be transferred to the Tribal Water Right quantified in this [Decree] with a priority date of July 16, 1855, provided that the Tribes shall continue to use the acquired water right as historically used or may change the use of the acquired water right pursuant to the provisions for change of use set forth in [Part] IV.[A of this Decree] and the Law of Administration. [The last sentence was omitted as

unnecessary for this Decree.]

Part IV.

Conditions on Changes and New Development of the Tribal Water Right.⁵

A. Change in Use of the Tribal Water Right.

Any user of a portion of the Tribal Water Right who proposes a change of such use must seek authorization to change the use of that portion of the right. Such applications for authorization to change a use shall be heard and decided by the [Water Management] Board pursuant to Article IV.I.4.b of the Compact and the Law of Administration, provided that the [Water Management] Board may not consider any change application of Flathead System Compact Water unless the applicant has secured the written consent of the Tribal Council to apply for a Change in Use authorization.

B. New Development of the Tribal Water Right.

1. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Tribal Water Right on the Reservation after the Effective Date. Such development may only proceed upon the issuance of an Appropriation Right for the New Development by the [Water Management] Board pursuant to Article IV.I.4.a [of the Compact] and the Law of Administration.
2. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree] off the Reservation after the Effective Date, but only after complying with the provisions of [Part] IV.B.3 [of this Decree].
3. Any new development by the Tribes of a portion of the Tribes' Flathead System Compact Water Right off the Reservation shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of Sections 85-2-302, 307-310 and 314, MCA. Prior to developing Flathead System Compact Water for beneficial use off the

⁵ Provisions IV.A and B are copied, exactly where noted in brackets, from Articles IV.B.4 and 5 of the Compact.

Reservation, the Tribes must comply with the provisions of subsections (1)-(3) and (8)-(17) of 85-2-402, MCA, as those provisions read on December 31, 2014.

4. In the event that, after the Effective Date, the Montana legislature substantively amends or repeals any of the sections identified in [Part] IV.B.3 [of this Decree], the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions of State law set forth in [Part] IV.B.3 [of this Decree] or the new provisions of State law shall govern the process for off-Reservation development of new uses of the Flathead System Compact Water Right set forth in [Part] III.C.1.c [of this Decree]. In the event that the Tribes and the DNRC are unable to agree, the provisions of State law identified in [Part] IV.B.3 [of this Decree] shall remain in effect. Any modification to the provisions of [Part] IV.B.3 [of this Decree] agreed to by the Tribes and the DNRC in response to future State legislative action shall be pursuant to and not a modification or amendment to [the] Compact.
5. If the Tribes' use of Flathead System Compact Water off the Reservation involves diversion works or facilities for the transport of water located off the Reservation, the Tribes shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

C. Exercise of Certain Portions of the Tribal Water Right Related to the FIIP.

1. Priority for the Exercise of the FIIP Instream Flow and FIIP Water Use Rights.

Once the water rights described in [Part] III.C [of this Decree] become

enforceable, the following relative priorities among those rights shall apply:

- a.** Minimum Enforceable Instream Flows.
 - b.** Minimum Reservoir Pool Elevations.
 - c.** River Diversion Allowances.
 - d.** Target Instream Flows.
- 2.** Reallocated Water in excess of Target Instream Flows will be split as equally as hydrologically practicable between the Instream Flow water rights set forth in [Part] III.C.1.d.ii and the FIIP Water Use Right set forth in [Part] III.C.1.a [of this Decree].
- 3. MEF and TIF implementation and schedule.** Exercise of FIIP Instream Flow Rights set forth in [Part] III.C.1.d.ii [of this Decree] shall be accomplished through the implementation and enforcement of MEFs and TIFs and is subject to the Shared Shortage and Adaptive Management provisions set forth in [Part] IV.E and F [of this Decree] and Appendix 3.5 [to the Compact].
 - a.** MEFs and TIFs shall be enforceable at the values set forth in Appendix 3.1 [to the Compact].
 - b.** Implementation and enforceability of MEFs and TIFs.
 - i.** Incremental implementation of Operational Improvements will result in additional FIIP Instream Flow.
 - ii.** MEFs and TIFs shall be enforceable following the completion of Operational Improvements according to the schedule attached [to the Compact] as Appendix 3.4.
 - iii.** Reallocated Water from Rehabilitation and Betterment Projects shall be used to incrementally achieve FIIP Instream Flows set forth in [Part] III.C.1.d.ii [of this Decree].
 - iv.** If the schedule attached [to the Compact] as Appendix 3.4 cannot be met due to lack of available funding or other circumstances outside of the control of the Parties or Project Operator, the Parties may agree to adjust the schedule as

necessary to allow for timely implementation of MEFs and TIFs. [last sentence omitted as unnecessary for this Decree].

- v. If the Project Operator fails to implement the schedule attached [to the Compact] as Appendix 3.4 due to acts, errors, or omissions of the Project Operator, MEFs and TIFs will be enforceable as though the schedule had been implemented.
 - c. Until an MEF has become enforceable, the interim Instream Flow, where applicable, for that location shall be the enforceable Instream Flow. Where the Instream Flow has been incrementally increased above the interim Instream Flow level as a result of the partial completion of actions listed in the Implementation Schedule attached [to the Compact] as Appendix 3.4, the incrementally achieved level may be maintained until the MEF is achieved.
 - d. Until a Minimum Reservoir Pool Elevation has become enforceable, the interim reservoir pool elevation, where applicable, for that location shall be enforced.
 - e. TIFs shall be determined seasonally according to [Compact] Appendix 3.5, and will vary between the wet and normal year levels attached [to the Compact] as Appendix 3.1.
- 4. Minimum Reservoir Pool Elevations.** Minimum Reservoir Pool Elevations attached as Appendix 3.1 [to the Compact] shall be enforceable according to the schedule specified in Appendix 3.4 [to the Compact]. Enforceability of Minimum Reservoir Pool Elevations is subject to [Part] IV.E [of this Decree], Appendix 3.5 [to the Compact], and superseding Federal law allowing for regulation of reservoir elevations.

D. Exercise of the FIIP Water Use Right.

1. FIIP Water Use Right.

- a. The FIIP Water Use Right shall be satisfied by meeting the RDA values for each RDA Area attached [to the Compact] as Appendix

- 3.2 and as evaluated pursuant to [part] IV.D.1.e [of this Decree].
- b.** RDAs shall be enforceable according to the schedule attached [to the Compact] as Appendix 3.4, subject to evaluation pursuant to [Part] IV.D.1.e [of this Decree].
 - c.** Headworks diversion amounts shall be progressively adjusted to achieve the RDAs as Operational Improvements are completed pursuant to Appendix 3.4 [to the Compact].
 - d.** Once RDAs are achieved through completion of Operational Improvements, headworks diversion amounts shall be progressively adjusted as Rehabilitation and Betterment is completed pursuant to Appendix 3.6 [to the Compact]. The enforceable RDA for the location in which a particular Rehabilitation and Betterment project has been completed is the amount defined in [Compact] Appendix 3.2, reduced by the volume of Reallocated Water made available by that Rehabilitation and Betterment project. The amount actually diverted may be adjusted pursuant to the evaluation process described in [Part] IV.D.1.e [of this Decree].
 - e.** RDA values shall be evaluated to ensure their adequacy to meet Historic Farm Deliveries. Initial evaluation of RDAs shall occur once the Parties and Project Operator have completed all Operational Improvements in a given RDA Area according to the schedule attached [to the Compact] as Appendix 3.4. Evaluation of RDAs will continue as part of the responsibilities of the CITT described in [Compact] Appendix 3.5 as follows:
 - i.** The Project Operator must measure and record farm turnout deliveries within a given RDA Area.
 - ii.** If the aggregate measured deliveries to farm turnouts do not meet Historic Farm Deliveries for a given RDA Area, actual diversions shall be adjusted to assure that Historic Farm

Deliveries are met for wet, normal and dry water years. If water in excess of the RDA is needed to meet Historic Farm Deliveries, it will be provided through an increase of the Flathead River pumping plant diversion allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2. If the aggregate measured deliveries to farm turnouts exceed Historic Farm Deliveries within an RDA Area, the actual diversions shall be reduced accordingly.

iii. Any adjustment of actual diversions pursuant to this section shall not result in decrease of the MEFs, TIFs, or Minimum Reservoir Pool Elevations.

f. RDAs are quantified for wet, normal, and dry Natural Flow years, attached [to the Compact] as Appendix 3.2, and shall be set each year according to the process specified in Appendix 3.5 [to the Compact].

2. FIIP Delivery Entitlement Statement. Assessed land within the FIIP is entitled to have water delivered by the Project Operator if the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP. Beginning on the Effective Date, an owner of assessed land within the FIIP may request of the Project Operator a delivery entitlement statement, which must be tendered within 90 days of the request or denied for cause. Beginning on the date one year after the Effective Date, the delivery entitlement statement must be tendered or denied within 30 days. The delivery entitlement runs with the land and is valid so long as the land remains assessed and the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP.

E. Shared Shortages Provision.

1. In the event that water supplies are inadequate to simultaneously satisfy an enforceable Instream Flow water right and a corresponding RDA, the provisions of [Part] IV.E [of this Decree] govern the exercise of the water

rights set forth in [Parts] III.C.1.a and III.C.1.d.ii and iv [of this Decree] at that location. The CITT shall determine when Shared Shortages conditions begin and end as specified in Appendix 3.5 [to the Compact].

2. For purposes of [Part] IV.E [of this Decree], once MEFs and RDAs have become enforceable, they shall be maintained at the levels set forth in [Compact] Appendices 3.1 and 3.2, as adjusted pursuant to [Part] IV.D.1.e [of this Decree]. Prior to enforceability of the MEF and RDA levels attached hereto as [Compact] Appendices 3.1 and 3.2, Instream Flows will be maintained as provided by [Part] IV.C.3.c [of this Decree] and RDAs will be maintained as provided by [Parts] IV.D.1.b and c [of this Decree].
3. Subject to the priority system set forth in [Part] IV.C.1 [of this Decree], RDAs shall be maintained by implementing the following measures in the order of priority set forth below:
 - a. Available Natural Flow or regulated streamflow shall be diverted by the Project Operator to satisfy RDAs.
 - b. If the application of [Part] IV.E.3.a [of this Decree] does not satisfy RDAs, Flathead River pumping plant diversions shall be increased as allowed by the Flathead Pumping Station RDA attached [to the Compact] as Appendix 3.2.
 - c. If the application of [Parts] IV.E.3.a and b [of this Decree] does not satisfy RDAs, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations specified in [Compact] Appendix 3.1 to supply RDAs, subject to [Part] IV.E.5 [of this Decree].
 - d. If the application of [Parts] IV.E.3.a through c [of this Decree] does not satisfy RDAs, the Tribes shall make available for short-term lease Flathead System Compact Water for use within the FIIP as provided by Article IV.B.6.c.ii [of the Compact].
4. Within the Basin 76LJ portion of the Little Bitterroot Valley, RDAs shall be

maintained by sequentially applying the procedures in [Parts] IV.E.3.a through c [of this Decree], where applicable.

5. As set forth in [Part] IV.E.3.c [of this Decree], FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations set forth in [Part] III.C.1.e [of this Decree] to support RDAs as follows:
 - a. FIIP reservoirs may be reduced pursuant to this section for no more than four consecutive years.
 - b. [Part] IV.E.3.c [of this Decree] does not apply to Mission Reservoir.
 - c. FIIP reservoirs may not be reduced below the interim reservoir pool elevations set forth in [Part] III.C.1.e.iv [of this Decree] and attached [to the Compact] as Appendix 13.
 - d. RDAs may be met from carryover reservoir storage, at the discretion of the Project Operator.

F. Requirement to Implement Adaptive Management and Water Measurement.

1. The Parties agree that Adaptive Management and a comprehensive water measurement program, as described in [Compact] Appendix 3.5, are essential to the successful implementation of this Compact.
2. The Parties, upon mutual written agreement, and in conformance with the Compact and other applicable provisions of law, may amend [Compact] Appendix 3.5. Such modifications are pursuant to, and shall not be deemed an amendment of, this [Decree].

Part V.

Relationship with Compact and Other Water Rights Claims.

This Decree is based upon the Compact. The water rights of the Tribes confirmed in this Decree are subject to all conditions upon use and administration set forth in the Compact. The water rights of the Tribes confirmed in this Decree are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or the use of water by the Tribes, Tribal members, and Allottees and the United States on behalf of the Tribes, Tribal members, and Allottees except for any

Appropriation Rights or Water Rights Arising Under State Law held by the Tribes, their members, or Allottees. Upon entry of this Decree and the occurrence of the other events described in Compact Article VII.D.2, the Tribes and United States shall waive and dismiss all such claims as provided by Compact Article VII.C and D. Nothing in this Decree is intended to modify, alter, or amend the terms and provisions of the Compact.

Part VI.

Jurisdiction of Court.

Nothing in this Decree or the Compact shall expand the subject matter jurisdiction of the Water Court of the State of Montana.

DECREE APPENDIX 1

Compact as Ratified

85-20-1901. Water rights compact entered into by the Confederated Salish and Kootenai Tribes of the Flathead Reservation, Montana, the State of Montana, and the United States ratified.

This Compact is entered into by and among the Confederated Salish and Kootenai Tribes of the Flathead Reservation, Montana, the State of Montana, and the United State of America to settle all existing claims to water of or on behalf of the Confederated Salish and Kootenai Tribes within the State of Montana.

ARTICLE I – RECITALS

WHEREAS, pursuant to the Hellgate Treaty of 1855, 12 Stat. 975, the Confederated Salish and Kootenai Tribes reserved the Flathead Indian Reservation; and

WHEREAS, the Confederated Salish and Kootenai Tribes claim aboriginal water rights and, pursuant to said Treaty, reserved water rights to fulfill the purposes of the Treaty and the Reservation; and

WHEREAS, in 1979, the United States, on its own behalf and on behalf of the Confederated Salish and Kootenai Tribes, their members and Allottees brought suit in the United States District Court for the District of Montana to obtain a final determination of the Tribes' water rights claims, see *United States v. Abell*, No. CIV-79-33-M (filed April 5, 1979); and

vi. Call may be initiated on the day following a five-consecutive-day-period in which four out of five average daily river flows fall below their respective daily enforceable hydrograph values. Call may persist until such time as two average daily flows of the previous five-consecutive-day-period are in excess of their respective enforceable hydrograph values.

b. Upon the Effective Date, the Tribes shall be a co-owner with MFWP of these water rights. As co-owners, the Tribes and MFWP shall meet and confer on a biennial basis, or on such other timeframe as the Tribes and MFWP may mutually agree to, regarding the exercise of these rights, with a goal of establishing a joint plan for the exercise of these rights. c. MFWP shall manage the Painted Rocks and Como contract rights, in a prudent, biologically based and environmentally sound manner, and within the terms and conditions of these contracts. MFWP will manage in the same manner any future contracts for the delivery of water from Painted Rocks or Lake Como to which MFWP becomes a party. The Tribes are an intended beneficiary of MFWP's management of these contracts, and have the right to challenge MFWP's management decisions in a Court of Competent Jurisdiction.

d. MFWP shall meet and confer with the Tribes on a biennial basis, or on such other timeframe as the Tribes and MFWP may mutually agree to, regarding the management of these contract rights. Such modifications to the meeting schedule are pursuant to, and shall not be deemed an amendment of, this Compact. If the Tribes become co-owners of any water right pursuant to this Article III.D.6 of the Compact, the Tribes and MFWP shall each retain the independent right to exercise each water right as each deems appropriate. Neither the Tribes nor MFWP has any affirmative duty to take any particular action in regard to the exercise of any of such rights. The Tribes do not assume any liability arising out of or resulting from any of the contracts identified in this Article III.D.6 pertaining to co-ownership of rights to stored water in Basin 76H.

f. The recognition of the Instream Flow water rights in this Article III.D.8 does not confer on the Tribes any authority over the management of National Forest System lands within Basin 76D, or any claim to ownership or other rights in that land. With the exception of future diversionary uses by the United States on National Forest System lands in excess of the Forest Service's reserved rights identified in Article III.D.8.e, the Tribes hold the United States harmless for delivery of water or maintenance of flows to meet this Instream Flow water right in Basin 76D.

E. Period of Use. The period of use of the Tribal Water Right set forth in this Article III shall be January 1 to December 31 of each year, provided however, that any portion of that water right that is dedicated to seasonal use, including irrigation use, shall have a period of use as set forth in the abstracts attached hereto as Appendix 5 or as set forth in the registration of such right pursuant to the Law of Administration, as applicable.

F. Points and Means of Diversion. The points and means of diversion for use of the Tribal Water Right set forth in this Article III are as set forth in the abstracts of water rights attached to this Compact or as may be provided for under the Law of Administration.

G. Call Protection.

1. Non-Irrigators. The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose(s) do(es) not include irrigation.

2. Groundwater Irrigators with Flow Rates Less Than or Equal to 100 Gallons Per Minute. The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose purpose is irrigation and whose source of supply is Groundwater and whose flow rate is less than or equal to 100 gallons per minute.

3. Irrigators Within the FIIP Influence Area.

a. The Tribes, the United States, and the Project Operator, agree to relinquish their right to exercise the Tribal Water Right to make a Call against that portion of any Water Right Arising Under State Law identified in Article III.G.3.b that is equal to the quantity of water established as the annual FIIP quota for the current irrigation season, or an equivalent farm delivery amount within the FIIP as implemented by the Project Operator within the applicable RDA Area, or the quantity allowed under a claim decreed by the Montana Water Court or water right granted by the DNRC (an Alternate Value), whichever is less, whose owner enters into a consensual agreement as described in this Article III.G.3.

b. Water Rights Arising Under State Law whose owners are eligible to enter into consensual agreements as described in this Article III.G.3 are those rights:

i. whose purpose is irrigation;

ii. whose point(s) of diversion or place(s) of use are within the FIIP Influence Area; and

iii. whose source of supply is surface water; or

iv. whose source of supply is Groundwater and whose flow rate is greater than 100 gallons per minute.

c. The Tribes, the United States, and the Project Operator, agree to enter into the consensual agreement described in this Article III.G.3 with every owner of a Water Right Arising Under State Law described in Article III.G.3.b who wishes to enter into such an agreement. The following conditions shall apply to any such consensual agreement:

i. the owner of a Water Right Arising Under State Law that meets the criteria described in Article III.G.3.b shall measure all diversions, report the measured amount of those diversions to the Project Operator, agree to divert no more water each year than the lesser of the quantity established as the annual FIIP quota or an Alternate Value, and shall not expand water use beyond the terms of the agreement;

ii. the owner of a Water Right Arising Under State Law does not acquire any entitlement to any delivery or diversion of water from the FIIP, whether the water is stored or run of the river, by entering into a consensual agreement as described in this Article III.G.3;

iii. irrigation use pursuant to any Water Right Arising Under State Law whose owner enters into a consensual agreement as set forth in this Article III.G.3 shall be limited to the irrigation season identified annually by the FIIP and to such period of use limitation as may apply to FIIP irrigators;

iv. the method and frequency of measurement of the diversion must be described and occur at a reasonable level of accuracy and frequency to demonstrate that the diversion does not exceed the lesser of the annual FIIP quota for a given irrigation season or an Alternate Value; and

v. the agreement is permanent and is binding on the heirs and assigns of the owner of each Water Right Arising Under State Law who enters into such agreement.

d. The entering into a consensual agreement as set forth in this subsection (3) does not relieve the owner of any claim to a Water Right Arising Under State Law that is at issue

in the Montana general stream adjudication from the obligation of prosecuting that water right claim through the Montana general stream adjudication.

e. If a consensual agreement is entered into among the Tribes, United States, the Project Operator and the owner of a Water Right Arising Under State Law described in Article III.G.3.b prior to the issuance of the final decree for Montana Water Court Basin 76L and 76 LJ, as applicable, that agreement shall terminate as a matter of law if the claimed Water Right is terminated as a result of proceedings conducted in the Montana general stream adjudication.

f. If a consensual agreement is entered into among the Tribes, the United States, the Project Operator, and the owner of a Water Right Arising Under State Law described in Article III.G.3.b prior to the issuance of the final decree for Montana Water Court Basin 76L and 76 LJ, as applicable, and such owner has a claim in the Montana general stream adjudication that is ultimately decreed a quantity of water for that claim less than the quantity established in the agreement, the consensual agreement shall protect only the lesser amount of water.

g. If the owner of a Water Right Arising Under State Law described in Article III.G.3.b ceases to use that portion of that water right in excess of the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, pursuant to a consensual agreement as set forth in Article III.G.3:

i. that nonuse does not represent an intent by the owner of that water right to wholly or partially abandon that water right or to not comply with the terms and conditions of that right; and

ii. the period of nonuse may not create or may not be added to any previous period of nonuse to create a presumption of abandonment.

h. Any use of a Water Right Arising Under State Law subject to a consensual agreement described in this Article III.G.3 exceeding the volume of water specified in the consensual agreement shall be subject to Call by the Tribes, the United States, or the Project Operator for that amount of water in excess of the terms of the consensual agreement.

i. A Person who has both an entitlement to the delivery of water from the FIIP and a Water Right Arising Under State Law to serve the same acreage may only protect from Call, by entering into a consensual agreement pursuant to this Article III.G.3, a total quantity of water equal to the lesser of the annual FIIP quota for a given irrigation season, or an Alternate Value, for each acre served, irrespective of whether the water applied to each acre is pursuant to that Person's FIIP delivery right or that Person's Water Right Arising Under State Law.

4. Water Rights Upstream of the Reservation (Basins 76I, 76J, and 76LJ). The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this

Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any water right located upstream of the Flathead Reservation in Basins 76I, 76J, and 76LJ, except for those Water Rights Arising Under State Law:

a. Whose purpose is irrigation and whose source of supply is surface water, and whose point of diversion is:

i. the mainstem of the Flathead River, including Flathead Lake;

ii. the North Fork of the Flathead River;

iii. the Middle Fork of the Flathead River; or

iv. the South Fork of the Flathead River.

b. Whose purpose is irrigation, whose source of supply is Groundwater connected to one of the sources identified in Article III.G.4.a, and whose flow rate is greater than 100 gallons per minute.

c. The Tribes and the United States agree that the Tribal Water Right recognized in the Compact may not be exercised to make Call against any Water Right Arising Under State Law upstream of the Flathead Reservation and located on a tributary to the Flathead River not identified in Article III.G.4.a.

5. Water Rights on the Little Bitterroot River Outside the Reservation (Basin 76L). The Tribes, on behalf of themselves and the users of any portion of the Tribal Water Right set forth in this Compact, and the United States agree to relinquish their right to exercise the Tribal Water Right to make a Call against any Water Right Arising Under State Law whose point of diversion is outside the Flathead Reservation and whose source of supply is the Little Bitterroot River or its tributaries.

6. Any Water Right Arising Under State Law the purpose of which is irrigation and that is susceptible to Call by the Tribes pursuant to Article III.D.1.g, III.D.2.e, III.D.3.e, III.D.5.a.iv, III.D.7.e, III.G.4.a, or III.G.4.b whose purpose is changed after the Effective Date to something other than irrigation shall remain susceptible to Call pursuant to the terms and conditions of this Compact as though the purpose of the Water Right Arising Under State Law was still irrigation.

H. Water Rights Arising Under State Law Appurtenant to Lands Acquired by the Tribes. For lands acquired by the Tribes within the Reservation, the Tribes have the right to any Water Right Arising Under State Law acquired as an appurtenance to the land. Starting upon the Effective Date of the Compact, the Tribes may file a Trust Transfer form with the Board for any lands acquired by the Tribes with appurtenant Water Rights Arising Under State Law that have been taken into trust by the United States on behalf of the Tribes, as provided in the Law of Administration and the water right appurtenant to the land shall be transferred to the Tribal Water Right quantified in this Compact with a priority date of July 16, 1855, provided that the

Tribes shall continue to use the acquired water right as it was historically used or may change the use of the acquired water right pursuant to the provisions for change of use set forth in Article IV.B.4 and the Law of Administration. Such transfer does not shield the underlying right from abandonment based on acts or omissions of the holder of that water right prior to its acquisition by the Tribes.

ARTICLE IV - IMPLEMENTATION OF COMPACT

A. Trust Status of Tribal Water Right. The Tribal Water Right shall be held in trust by the United States for the benefit of the Tribes, their members and Allottees.

B. Use of Tribal Water Right.

1. Persons Entitled to Use the Tribal Water Right. The Tribal Water Right may be used by the Tribes, their members, Allottees, or their lessees or assigns. FIIP customers who have assessed land within the FIIP who are in compliance with the applicable BIA rules and guidelines are entitled to have delivered an equitable share of the FIIP Water Use Right as provided by Article IV.D.2.

2. Effect of Non-Use of the Tribal Water Right. Non-use of all or any portion of the Tribal Water Right described in Article III shall not constitute a relinquishment, forfeiture, or abandonment of such right.

3. Review of Registration of Existing Uses of the Tribal Water Right.

a. Within five (5) years after the Effective Date, the Board shall provide the DNRC with a report, in a form materially consistent with that of abstracts of water rights decreed by the Montana Water Court, of the Tribal Water Right registered pursuant to the Law of Administration as being in existence as of the Effective Date.

b. Within six (6) months after receipt of the report, the DNRC must agree, agree in part, or disagree with the report. If the DNRC takes no action by the end of the six-month period after the report is received, the report shall be deemed accepted. If the DNRC agrees in part or disagrees with the report, the State, the Tribes, and the United States shall meet within ninety (90) days of issuance of the DNRC's notice of disagreement in an effort to resolve the issue(s) giving rise to the disagreement. If, after meeting and conferring, the State, the Tribes, and the United States are still unable to come to agreement on the list of Existing Uses, all disagreements over the contents of the list must be brought to the Water Management Board for resolution of the dispute under Article IV.I.4.c within 180 days of the issuance of the DNRC's notice of disagreement.

4. Changes in Use of the Tribal Water Right. Any user of a portion of the Tribal Water Right who proposes a change of such use must seek authorization to change the use of that portion of the right. Such applications for authorization to change a use shall be heard and decided by the Board pursuant to Article IV.I.4.b of the Compact and the Law of Administration, provided that the Board may not consider any change application of

Flathead System Compact Water unless the applicant has secured the written consent of the Tribal Council to apply for a Change in Use authorization.

5. New Development of the Tribal Water Right.

a. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Tribal Water Right on the Reservation after the Effective Date. Such development may only proceed upon the issuance of an Appropriation Right for the New Development by the Board pursuant to Article IV.I.4.a and the Law of Administration.

b. The Tribes, or any Person with authorization from the Tribes, may develop a new use of the Flathead System Compact Water Right set forth in Article III.C.1.c off the Reservation after the Effective Date, but only after complying with the provisions of Article IV.B.5.c.

c. Any New Development by the Tribes of a portion of the Tribes' Flathead System Compact Water Right off the Reservation shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to developing Flathead System Compact Water for beneficial use off the Reservation, the Tribes must comply with the provisions of subsections (1) through (3) and (8) through (17) of 85-2-402, MCA, as those provisions read on December 31, 2014.

d. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively amends or repeals any of the sections identified in Article IV.B.5.c, the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions of State law set forth in Article IV.B.5.c or the new provisions of State law shall govern the process for off-Reservation development of new uses of the Flathead System Compact Water Right set forth in Article III.C.1.c. In the event that the Tribes and the DNRC are unable to agree, the provisions of State law identified in Article IV.B.5.c shall remain in effect. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

e. If the Tribes' use of Flathead System Compact Water off the Reservation involves diversion works or facilities for the transport of water located off the Reservation, the Tribes shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, facility or associated facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

6. Lease of the Tribal Water Right.

a. Lease of the Tribal Water Right generally.

i. Pursuant to the terms and conditions of this Compact, the Tribes may Lease, for use on or off the Reservation, any portion of the Tribal Water Right set forth in Article III.C.1.a, b, i, and j; provided, that either the Tribes or its assignee, on behalf of the Tribes, first comply with the procedures for changing the use of water rights set forth in subsections iii and iv of this Article IV.B.6.a, as applicable.

ii. The Tribes may make or authorize a Lease of the Tribal Water Right for use within or outside the Reservation; provided that, any Lease shall be for a term not to exceed 99 years, and may include provisions authorizing renewal for an additional term not to exceed 99 years. The off-Reservation use of any portion of the Tribal Water Right is limited to a place of use within the Flathead or Clark Fork River Basins in Montana.

iii. A Lease of the Tribal Water Right shall not adversely affect a Water Right Arising Under State Law with a priority date before the date of the Lease or an Appropriation Right issued pursuant to this Compact with a priority date before the date of the Lease. Uses of the Tribal Water Right being exercised prior to the date of the Lease shall not be adversely affected by a Lease of the Tribal Water Right, except that the Tribes may allow uses of the Tribal Water Right on Tribally owned land to be adversely affected by declining to object to the Change in Use application associated with the Lease.

1. If the Lease is for use on the Reservation, the determination of adverse effect shall be made by the Water Management Board pursuant to the process set forth regarding applications for Change in Use authorizations under the Law of Administration.

2. If the Lease is for use off the Reservation, the Lease shall be treated as a change in use. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to the lessee putting leased water to beneficial use, the Tribes or their assignee, on behalf of the Tribes, must comply with the following provisions of State law as those provisions read on December 31, 2014:

a. Subsections (1) through (3) and (8) through (17) of 85-2-402, MCA;

b. Subsections (1) through (8) of 85-2-407, MCA, provided, that the term of any such Lease may be for up to 99 years, and the DNRC may approve the renewal of such a Lease for a period of up to 99 years; and

c. 85-2-408, MCA, as limited by the provisions of Article IV.B.6.a.iii.2.a.

iv. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively

amends or repeals any of the sections identified in Article IV.B.6.a.iii.2, the Tribes and the DNRC shall meet, no later than 60 days after the effective date of the State legislative action amending or repealing, to determine if they can agree whether the provisions set forth in Article IV.B.6.a.iii.2 or the new provisions of State law shall govern the process for off-Reservation Leases under this Compact. In the event that the Tribes and the DNRC are unable to agree, the provisions of Article IV.B.6.a.iii.2 shall remain in effect. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

v. The Tribes or any Person using diversion works or facilities for the transportation of water located off the Reservation in connection with a use of the Tribal Water Right shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, or facility proposed to use or transport water, prior to exercising a use of the Tribal Water Right off the Reservation.

b. Lease of the Tribal Water Right by an Individual Indian Owner.

i. An Individual Indian Owner may enter into a Lease to authorize a Person or Persons to use the Individual Indian Owner's allocated portion of the Tribal Water Right on the Reservation.

ii. If the lessee intends to put the water to beneficial use in a manner different than how the Individual Indian Owner had been using the water prior to the date of the Lease, the Individual Indian Owner or the lessee must comply with the provisions of the Law of Administration pertaining to securing Change in Use authorizations from the Water Management Board before the use of water may be changed.

iii. Any Lease entered into pursuant to subsection b of this section may be for a term not to exceed 25 years, and may include provisions authorizing renewal for an additional term not to exceed 25 years.

iv. A Lease of the Tribal Water Right by an Individual Indian Owner shall not adversely affect a Water Right Arising Under State Law with a priority date before the date of the Lease or an Appropriation Right issued pursuant to this Compact with a priority date before the date of the Lease. Uses of the Tribal Water Right being exercised prior to the date of the Lease shall not be adversely affected by a Lease of the Tribal Water Right by an Individual Indian Owner, except that the Tribes may allow uses of the Tribal Water Right on Tribally owned land to be adversely affected by declining to object to the Change in Use application associated with the Lease.

c. Lease of the Flathead System Compact Water Right.

i. Pursuant to the terms and conditions of this Compact, the Tribes may Lease Flathead System Compact Water for use on or off the Reservation, provided that either the Tribes or their lessee comply with the Law of Administration and the relevant provisions of this section, as applicable.

ii. The Tribes shall make available Flathead System Compact Water for short-term Lease within the FIIP or the FIIP Influence Area pursuant to the Shared Shortages provisions set forth at Article IV.E. The Lease term may not exceed the period during which Shared Shortage provisions are in effect. The baseline annual price for this water shall be \$8 per Acre-foot plus a \$25 administrative fee per Lease as of July 1, 2015. From that date, the baseline annual price and the administrative fee shall be indexed for inflation and consequently adjusted annually on July 1st of each successive year thereafter (the Adjustment Date) by the percentage change over the previous twelve months in the most recent monthly Consumer Price Index for All Urban Consumers (CPI-U) published by the United States Department of Labor, Bureau of Labor Statistics, or such other index as the Parties may agree to use. The initial price for each Lease of any portion of the Flathead System Compact Water entered into during that year pursuant to the Shared Shortage provisions contained in Article IV.E shall be the adjusted baseline price. During the term of any given Lease, the price per Acre-foot shall continue to adjust annually on the Adjustment Date by the percentage change in the CPI-U, or such other index as the Parties may agree to use, of the previous twelve-month period. The foregoing provisions regarding the adjusted baseline price and per-Lease administrative fee shall constitute the sole and exclusive price terms of each Lease entered under this Article IV.B.6.c.ii. Any modifications of the index are pursuant to, and shall not be deemed an amendment of, this Compact.

iii. The Tribes may make or authorize a Lease of the Tribal Water Right for use within or outside the Reservation; provided that, any Lease shall be for a term not to exceed 99 years, and may include provisions authorizing renewal for an additional term not to exceed 99 years. The off-Reservation use of any portion of the Tribal Water Right is limited to a place of use within the Flathead or Clark Fork River Basins in Montana.

iv. If the Lease is for a portion of the Tribes' Flathead System Compact Water right to be delivered wholly from water stored in Hungry Horse Reservoir, the Tribes shall provide notice to the DNRC and the Water Management Board, in advance of the effective date of the Lease, of the terms of the Lease and any modifications thereto or termination thereof. For Leases lasting one irrigation season or less, notice to the DNRC and the Water Management Board shall be provided as far in advance as practicable. For Leases lasting longer than one year, notice shall be provided to the DNRC and the Water Management Board by the later of 120 days prior to the date on which the Lease is to take effect or March 31 of the year in which the Lease is to take effect. The point of delivery for a Lease shall be the outlet works at the Hungry Horse Dam. If disputes arise between or among holders of Water Rights Arising Under State Law as to the reasonable transmission and

carriage losses from the point of delivery to the place of use of the Lease, the district court pursuant to its powers and duties under Title 85, Chapter 5, MCA, shall calculate such losses.

v. Any Lease or portion of a Lease to be delivered from water stored in Hungry Horse Reservoir is subject to reduction due to conditions defined in Appendix 8 on a pro rata basis as set forth in Article III.C.1.c.iii.

vi. If the Lease is for the off-Reservation use of a portion of the Tribes' Flathead System Compact Water right to be delivered from a combination of stored water and direct flow water from the Flathead River, or exclusively from direct flow water from the Flathead River, the Lease shall be treated as a change in use as it pertains to the use of the direct flow water. The DNRC shall process each change application pursuant to the provisions of 85-2-302, 85-2-307 through 85-2-310, and 85-2-314, MCA. Prior to the lessee putting leased water to beneficial use, the Tribes or the lessee must comply with the following provisions of State law as those provisions read on December 31, 2014:

1. Subsections (1) through (3) and (8) through (17) of 85-2-402, MCA;

2. Subsections (1) through (8) of 85-2-407, MCA, provided, however, that the term of any such Lease may be for up to 99 years, and the DNRC may approve the renewal of such a Lease for a period of up to 99 years; and

3. 85-2-408, MCA, as limited by the provisions of Article IV.B.6.c.vi.1.

vii. In the event that, after the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Montana Legislature substantively amends or repeals any of the sections identified in Article IV.B.6.c.vi.1 through 3, the Tribes and the DNRC shall meet no later than 60 days after the effective date of the State legislative action amending or repealing to determine if they can agree whether the provisions set forth in Article IV.B.6.c.vi.1 through 3 or the new provisions of State law shall govern the process for off-Reservation Leases under this Compact. In the event that the Tribes and the DNRC are unable to agree, the provisions of Article IV.B.6.c.vi.1 through 3 shall remain in effect. Any agreed upon modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

viii. The Tribes or any Person using diversion works or facilities for the transportation of water located off the Reservation in connection with a use of the Flathead System Compact Water Right shall apply for and obtain all permits, certificates, variances and other authorizations required by State laws regulating, conditioning or permitting the siting, construction, operation, alteration or use of any equipment, device, or facility proposed to use or transport water, prior to exercising a use of the Flathead System Compact Water Right off the Reservation.

7. Lease of 11,000 Acre-Feet per Year of Water From Hungry Horse Reservoir for Off-Reservation Mitigation.

a. The Tribes shall make available for Lease off the Reservation 11,000 Acre-feet of the water identified in Article III.C.1.c.i stored in Hungry Horse Reservoir pursuant to the process, and subject to the terms and conditions, set forth in this Article IV.B.7.

b. The water identified in Article IV.B.7.a shall be available for the mitigation of net depletions arising from new or existing domestic, commercial, municipal and/or industrial uses of water at any point in the Flathead or Clark Fork Basins in Montana for which the 11,000 Acre-feet per year of water is capable of providing mitigation.

c. The DNRC, under Title 85, MCA, shall retain the responsibility for determining if, when, where, and how much mitigation water is needed for any proposed new development and if the water identified in Article IV.B.7.a meets the appropriate mitigation criteria for any proposed mitigation plan.

d. The water identified in Article IV.B.7.a is subject to reduction due to conditions defined in Appendix 8 on a pro rata basis as set forth in Article III.C.1.c.iii.

e. The mechanism for entering into a Lease for any portion of the water set forth in this Article IV.B.7.a shall be as follows:

i. Any interested Person may approach the Tribes, through the Tribal Lands Department or successor Tribal department, to negotiate a Lease of a portion of this water;

ii. The baseline annual per Acre-foot price for this water shall be set at \$40 as of July 1, 2015. From that date, the baseline price shall be indexed for inflation and consequently adjusted annually on July 1st of each year thereafter (the Adjustment Date) by the percentage change over the previous year in the most recent monthly Consumer Price Index for All Urban Consumers (CPI-U) published by the United States Department of Labor, Bureau of Labor Statistics, or such other index as the Parties may agree. The initial price for each Lease of any portion of the 11,000 Acre-feet identified in this Article IV.B.7 entered into during that year shall be the adjusted baseline price. During the term of any given Lease, the price per Acre-foot shall continue to adjust annually on the Adjustment Date by the percentage change in the CPI-U, or such other index as the Parties may agree to use, of the previous twelve-month period. The foregoing provisions regarding the adjusted baseline price shall constitute the sole and exclusive price term of each Lease;

iii. Each Lease between the Tribes and a lessee shall be for a term of 99 years, with the lessee holding an option to renew for an additional 99 years, unless the Tribes and the lessee affirmatively agree on an alternate duration not to exceed 99 years. Any Lease including a term of alternate duration may also include an option to renew for a term not to exceed 99 years; and

iv. The Tribes and each prospective lessee shall negotiate any and all other non-price terms of the Lease arrangement.

f. In the event of an impasse between the Tribes and a prospective lessee over any non-price term, the prospective lessee may file a notice of impasse with the Water Management Board, invoking the Board's authority to resolve any such impasse pursuant to the process set forth in Article IV.B.7.g.

g. Process for resolving disputes over Lease terms.

i. Upon receipt of a notice of impasse, the Board shall date stamp it. Within three days of the filing of a notice of impasse, the Board shall provide notice of the filing to the Tribes, with a copy to the prospective lessee, identifying a date certain between 30 and 60 days from the date of receipt of the notice for the Tribes and the prospective lessee each to submit a last, best offer concerning all of the non-price terms.

ii. No later than the date set by the Board, the Tribes and the prospective lessee shall file a last, best offer with the Board in the form of a proposed Lease agreement and shall serve the same on each other. To be filed, the offer must be placed in the custody of the Board within the time fixed for filing. Filing may be accomplished by mail addressed to the Board, but filing shall not be timely unless the papers are actually received within the time fixed for filing. Immediately upon receipt by the Board, the offers shall be date stamped. If the Tribes fail to timely file an offer, the offer filed by the prospective lessee shall become the terms of the Lease. If the prospective lessee fails to timely file an offer, no Lease shall be concluded.

iii. The Board shall issue a decision selecting one side's offer or the other's between 15 and 45 days after the filing of the offer. At any time prior to the Board's decision, the prospective lessee may choose to withdraw the prospective lessee's offer and decline to enter into the Lease.

iv. The Board shall provide notice of its decision to both the Tribes and the prospective lessee. The Lease shall be concluded on the terms selected by the Board, but must include the price term identified in Article IV.B.7.e.ii of this Compact. The effective date of the Lease shall be ten days after the Board's issuance of its decision.

v. The Tribes or a prospective lessee dissatisfied with a decision of the Board made pursuant to this Article IV.B.7.g may appeal that decision by filing a petition for judicial review with a Court of Competent Jurisdiction within 30 days of the issuance of the Board's decision. The court shall review the Board's decision for abuse of discretion.

C. Exercise of Certain Portions of the Tribal Water Right Related to the FIIP.

1. Priority for the Exercise of the FIIP Instream Flow and FIIP Water Use Rights. Once the water rights described in Article III.C become enforceable, the following relative priorities among those rights shall apply:

- a. Minimum Enforceable Instream Flows.
- b. Minimum Reservoir Pool Elevations.
- c. River Diversion Allowances.
- d. Target Instream Flows.

2. Reallocated Water in excess of Target Instream Flows will be split as equally as hydrologically practicable between the Instream Flow water rights set forth in Article III.C.1.d.ii and the FIIP Water Use Right set forth in Article III.C.1.a.

3. MEF and TIF implementation and schedule. Exercise of FIIP Instream Flow Rights set forth in Article III.C.1.d.ii shall be accomplished through the implementation and enforcement of MEFs and TIFs and is subject to the Shared Shortage and Adaptive Management provisions set forth in Article IV.E and F and Appendix 3.5.

a. MEFs and TIFs shall be enforceable at the values set forth in Appendix 3.1.

b. Implementation and enforceability of MEFs and TIFs.

i. Incremental implementation of Operational Improvements will result in additional FIIP Instream Flow.

ii. MEFs and TIFs shall be enforceable following the completion of Operational Improvements according to the schedule attached hereto as Appendix 3.4.

iii. Reallocated Water from Rehabilitation and Betterment Projects shall be used to incrementally achieve FIIP Instream Flows set forth in Article III.C.1.d.ii.

iv. If the schedule attached hereto as Appendix 3.4 cannot be met due to lack of available funding or other circumstances outside of the control of the Parties or Project Operator, the Parties may agree to adjust the schedule as necessary to allow for timely implementation of MEFs and TIFs. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

v. If the Project Operator fails to implement the schedule attached hereto as Appendix 3.4 due to acts, errors, or omissions of the Project Operator, MEFs and TIFs will be enforceable as though the schedule had been implemented.

c. Until an MEF has become enforceable, the interim Instream Flow, where applicable, for that location shall be the enforceable Instream Flow. Where the Instream Flow has been incrementally increased above the interim Instream Flow level as a result of the partial completion of actions listed in the Implementation Schedule attached hereto as Appendix 3.4, the incrementally achieved level may be maintained until the MEF is achieved.

d. Until a Minimum Reservoir Pool Elevation has become enforceable, the interim reservoir pool elevation, where applicable, for that location shall be enforced.

e. TIFs shall be determined seasonally according to Appendix 3.5, and will vary between the wet and normal year levels attached hereto as Appendix 3.1.

4. Minimum Reservoir Pool Elevations. Minimum Reservoir Pool Elevations attached hereto as Appendix 3.1 shall be enforceable according to the schedule specified in Appendix 3.4. Enforceability of Minimum Reservoir Pool Elevations is subject to Article IV.E, Appendix 3.5, and superseding Federal law allowing for regulation of reservoir elevations.

D. Exercise of the FIIP Water Use Right.

1. FIIP Water Use Right.

a. The FIIP Water Use Right shall be satisfied by meeting the RDA values for each RDA Area attached hereto as Appendix 3.2 and as evaluated pursuant to Article IV.D.1.e.

b. RDAs shall be enforceable according to the schedule attached hereto as Appendix 3.4, subject to evaluation pursuant to Article IV.D.1.e.

c. Headworks diversion amounts shall be progressively adjusted to achieve the RDAs as Operational Improvements are completed pursuant to Appendix 3.4.

d. Once RDAs are achieved through completion of Operational Improvements, headworks diversion amounts shall be progressively adjusted as Rehabilitation and Betterment is completed pursuant to Appendix 3.6. The enforceable RDA for the location in which a particular Rehabilitation and Betterment project has been completed is the amount defined in Appendix 3.2, reduced by the volume of Reallocated Water made available by that Rehabilitation and Betterment project. The amount actually diverted may be adjusted pursuant to the evaluation process described in Article IV.D.1.e.

e. RDA values shall be evaluated to ensure their adequacy to meet Historic Farm Deliveries. Initial evaluation of RDAs shall occur once the Parties and Project Operator have completed all Operational Improvements in a given RDA Area according to the

schedule attached hereto as Appendix 3.4. Evaluation of RDAs will continue as part of the responsibilities of the CITT described in Appendix 3.5 as follows:

i. The Project Operator must measure and record farm turnout deliveries within a given RDA Area.

ii. If the aggregate measured deliveries to farm turnouts do not meet Historic Farm Deliveries for a given RDA Area, actual diversions shall be adjusted to assure that Historic Farm Deliveries are met for wet, normal and dry water years. If water in excess of the RDA is needed to meet Historic Farm Deliveries, it will be provided through an increase of the Flathead River pumping plant diversion allowed by the Flathead Pumping Station RDA attached hereto as Appendix 3.2. If the aggregate measured deliveries to farm turnouts exceed Historic Farm Deliveries within an RDA Area, the actual diversions shall be reduced accordingly.

iii. Any adjustment of actual diversions pursuant to this section shall not result in decrease of the MEFs, TIFs, or Minimum Reservoir Pool Elevations.

f. RDAs are quantified for wet, normal, and dry Natural Flow years, attached hereto as Appendix 3.2, and shall be set each year according to the process specified in Appendix 3.5.

2. FIIP Delivery Entitlement Statement. Assessed land within the FIIP is entitled to have water delivered by the Project Operator if the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP. Beginning on the Effective Date, an owner of assessed land within the FIIP may request of the Project Operator a delivery entitlement statement, which must be tendered within 90 days of the request or denied for cause. Beginning on the date one year after the Effective Date, the delivery entitlement statement must be tendered or denied within 30 days. The delivery entitlement runs with the land and is valid so long as the land remains assessed and the FIIP customer is in compliance with the applicable BIA rules and guidelines for FIIP.

E. Shared Shortages Provision.

1. In the event that water supplies are inadequate to simultaneously satisfy an enforceable Instream Flow water right and a corresponding RDA, the provisions of Article IV.E govern the exercise of the water rights set forth in Articles III.C.1.a and III.C.1.d.ii and iv at that location. The CITT shall determine when Shared Shortages conditions begin and end as specified in Appendix 3.5.

2. For purposes of Article IV.E, once MEFs and RDAs have become enforceable, they shall be maintained at the levels set forth in Appendices 3.1 and 3.2, as adjusted pursuant to Article IV.D.1.e. Prior to enforceability of the MEF and RDA levels attached hereto as Appendices 3.1 and 3.2, Instream Flows will be maintained as provided by Article IV.C.3.c and RDAs will be maintained as provided by Article IV.D.1.b and c.

3. Subject to the priority system set forth in Article IV.C.1, RDAs shall be maintained by implementing the following measures in the order of priority set forth below:

a. Available Natural Flow or regulated streamflow shall be diverted by the Project Operator to satisfy RDAs.

b. If the application of Article IV.E.3.a does not satisfy RDAs, Flathead River pumping plant diversions shall be increased as allowed by the Flathead Pumping Station RDA attached hereto as Appendix 3.2.

c. If the application of Article IV.E.3.a and b does not satisfy RDAs, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations specified in Appendix 3.1 to supply RDAs, subject to Article IV.E.5.

d. If the application of Article IV.E.3.a through c does not satisfy RDAs, the Tribes shall make available for short-term lease Flathead System Compact Water for use within the FIIP as provided by Article IV.B.6.c.ii.

4. Within the Basin 76LJ portion of the Little Bitterroot Valley, RDAs shall be maintained by sequentially applying the procedures in Article IV.E.3.a through c, where applicable.

5. As set forth in Article IV.E.3.c, FIIP reservoirs may be reduced below the Minimum Reservoir Pool Elevations set forth in Article III.C.1.e to support RDAs as follows:

a. FIIP reservoirs may be reduced pursuant to this section for no more than four consecutive years.

b. Article IV.E.3.c does not apply to Mission Reservoir.

c. FIIP reservoirs may not be reduced below the interim reservoir pool elevations set forth in Article III.C.1.e.iv and attached hereto as Appendix 13.

d. RDAs may be met from carryover reservoir storage, at the discretion of the Project Operator.

F. Requirement to Implement Adaptive Management and Water Measurement.

1. The Parties agree that Adaptive Management and a comprehensive water measurement program, as described in Appendix 3.5, are essential to the successful implementation of this Compact.

2. The Parties, upon mutual written agreement, and in conformance with the Compact and other applicable provisions of law, may amend Appendix 3.5. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

G. Compact Implementation Technical Team. Within six months of the date the ratification of the Compact by the Montana Legislature takes effect under State law, the Parties shall establish a Compact Implementation Technical Team (CITT) to allow planning for and implementation of Operational Improvements, Rehabilitation and Betterment, and Adaptive Management prior to and following the Effective Date.

1. The CITT membership shall be as provided for in Appendix 3.5.
2. The CITT shall carry out the duties specified by Appendix 3.5.
3. The CITT shall develop criteria for prioritizing and selecting projects.
4. Public Meetings and Records:
 - a. All regularly scheduled meetings of the CITT shall be open to the observation of the general public pursuant to State and Tribal open meeting laws. Where there is a conflict of laws, the law that provides for greater openness to the public applies.
 - b. CITT records are public records and shall be made available to the public for inspection under such reasonable terms and conditions as the CITT shall establish.
5. Disputes Related to the Compact Implementation Technical Team. The Parties agree to perform each obligation set forth in this Compact in good faith and with diligence and loyalty to this agreement. The Parties shall form a Compact Management Committee (CMC) comprised of the Director of the Montana Department of Natural Resources, the Chairman of the Tribal Council, and the Regional Director of the Northwest Region of the Bureau of Indian Affairs or their designees. The CMC will provide policy and administrative oversight of the CITT.
 - a. The CITT shall attempt to reach consensus on all of its actions.
 - b. Where consensus is not achieved, the CITT will resolve disputed issues by majority vote.
 - c. If the CITT vote results in a tie, or is appealed, the disputed issue will be referred to the CMC. The CMC will review and attempt to reach consensus on the disputed issue and if consensus is not possible, will resolve the issue by majority vote.
 - d. A majority vote of the CMC may be appealed using the following procedures:
 - i. Disputes arising out of any act, failure to act, error or omission of the BIA or Project Operator involving Operational Improvements or Rehabilitation and Betterment or otherwise affecting real property owned by the United States may be appealed under Title 25, Part 2, Code of Federal Regulations.

ii. For disputes raising questions of Compact interpretation, the CMC shall immediately seek a determination of those questions from the Water Management Board, which determination will be provided in writing within 30 days.

iii. All other disputes may be appealed to a Court of Competent Jurisdiction. In considering a petition for relief, a Court of Competent Jurisdiction will review the CMC's legal conclusions for correctness and its factual findings for abuse of discretion.

H. Power Provisions

1. Low-Cost Block of Power

The Parties recognize that Article 40 of the Kerr Project License, as amended, jointly issued to the Montana Power Company and the Tribes for the Kerr Project, Project No. 5, requires Montana Power Company, through its successor-in-interest, NorthWestern Energy, to make available the capacity and energy up to 3.734 megawatts at up to 100 percent load factor during the months of April through October to the United States, for and on behalf of the FIIP, at the rates set forth in and adjusted in accordance with such Article.

The Parties agree that the Kerr Project License Article 40 Low Cost Block of Power is equivalent to the delivery of 19,178,000 kilowatt hours of electricity per year, and generally supplies electricity necessary to pump approximately 46,000 Acre-feet of water per year to the FIIP. If the operation and maintenance, and all other rights and responsibilities for the Kerr Project are assumed by the Tribes or their wholly-owned corporation, the Tribes agree, to the extent permitted under applicable license(s) and Federal law, to make the Low Cost Block of Power available in the same manner and at the same rates, as adjusted, as NorthWestern Energy. If the Tribes seek a new license for the Kerr Project, the Tribes or their wholly-owned corporation, agree that their license application will request authority from FERC to make the Low Cost Block of Power available in the same manner and at the same rates, as adjusted, as NorthWestern Energy.

2. Net Power in Excess of Low Cost Block

For purposes of Article IV.E, power required to run the Flathead Pumping Station in excess of the Low Cost Block of Power identified in Article IV.H.1 shall be purchased at the price at which Mission Valley Power sells power for irrigation purposes.

3. Net Power Revenues

These funds shall only be used for work on the FIIP that has significant fisheries, water

conservation, or water management benefits. If on an annual basis such work by the Project Operator or the Tribes does not require the full amount of such net revenues the remainder shall be set aside and accumulated for future expenditure for these purposes. This initial allocation may be changed by mutual agreement of the Parties within nine (9) years of the Effective Date, with any subsequent agreement to become effective on the tenth (10th) anniversary of the Effective Date. Any such modification is pursuant to, and shall not be deemed an amendment of, this Compact.

Any commissioner appointed shall act under the supervision of the Water Engineer.

ii. Under the jurisdiction of the Board, and as set forth in the Law of Administration, the commissioner(s) shall have the authority to administer and distribute water only on the Reservation. The authority of any commissioner(s) appointed pursuant to this subsection, as it pertains to portions of the Tribal Water Right used within the FIIP, extends only to the delivery of water to FIIP diversion facilities and shall not extend to the administration of that water in FIIP facilities or on lands served by the FIIP, which shall remain subject to the authority of the Project Operator.

6. Review and Enforcement of Board Decisions.

a. Decisions by the Board shall be effective immediately, unless stayed by the Board. Persons involved in the proceedings before the Board may appeal any final decision by the Board to a Court of Competent Jurisdiction within thirty days of such decision. An appeal of a final decision of the Board shall be styled as a petition for judicial review of an agency decision pursuant to the rules of procedure of the court from which review is sought. The petition for judicial review shall be filed with the Board and the court and served upon all Persons involved in the proceeding before the Board, as well as the

Tribes, the State and the United States. Service shall be accomplished according to the requirements of the court's rules of procedure.

- ii. recordings of all hearings conducted by the Board or the Office of the Engineer;
- iii. all documents filed with or generated by the Board or the Office of the Engineer;
- iv. any other records required by applicable provisions of Federal, State or Tribal law, provided that if there is a conflict of laws, the law that provides for more expansive record retention shall apply.

8. Waiver of Immunity. The Tribes and the State hereby waive their respective immunities from suit, including any defense the State shall have under the Eleventh Amendment of the Constitution of the United States, in order to permit the resolution of disputes under the Compact by the Board, and the appeal or judicial enforcement of Board decisions as provided herein, except that such waivers of sovereign immunity by the Tribes or the State shall not extend to any action for money damages, costs, or attorneys' fees. The Parties recognize that only Congress can waive the immunity of the United States and that the participation of the United States in the proceedings of the Board shall be governed by Federal law, including 43 U.S.C. 666.

J. Amendments to the Law of Administration. The Board may not amend the Law of Administration. 2. The expenditure or advance of any money or the performance of any work by the United States or the Tribes pursuant to this Compact which requires appropriation of money by Congress or by the Tribes is contingent on such appropriation being timely made.

3. The Tribes and the State recognize that this Compact has not been finally approved by the United States as of the date of execution by the Tribes or the State, and that ratification by the Tribes or by the State in no manner limits or restricts the discretion of the United States in the negotiation of all matters related to this Compact.

E. Obligations of the State Contingent. The expenditure or advance of any money or the performance of any work by the State pursuant to this Compact that requires appropriation of money by the Montana Legislature or allotment of funds shall be contingent upon such appropriation or allotment.

ARTICLE VI - CONTRIBUTIONS TO SETTLEMENT

A. State Contribution to Settlement. The Parties agree that the State contribution to settlement shall be \$55 million. The agreement to, expenditure, or advance of any State contribution which may require authorization and appropriation of money by the Montana Legislature or allotment of funds is contingent on such appropriation or allotment being made pursuant to

Article V, Section 11(4) of the Montana Constitution. The Parties recognize that the amount and structure of the State funding is contingent on action of the Montana Legislature. If the Legislature appropriates funds in a manner inconsistent with the structure contemplated by the Parties in this section, the Parties agree to meet and confer to consider adjustments to the funding structure and priorities described in Articles IV.H.1.a and b above. Such modifications are pursuant to, and shall not be deemed an amendment of, this Compact.

ARTICLE VII – FINALITY

A. Ratification and Effectiveness of Compact.

1. The terms of the Compact may not be amended without the consent of all the Parties following the first ratification by any Party. After the Effective Date, no provision of the Compact shall be modified except as expressly provided in the Compact. Any amendment that is not expressly provided for in the Compact must be ratified in the same manner as the Compact; however, if the proposed amendment concerns non-monetary matters and does not affect the water rights of the Tribes determined in this Compact or other property held in trust by the United States on behalf of the Tribes or Indians, the Secretary may ratify such amendment on behalf of the United States, as determined by Congress. The State and the Tribes will support provisions in the Federal legislation ratifying the Compact that delegates to the Secretary the authority to ratify such future amendments on behalf of the United States.

2. Notwithstanding any other provision in the Compact, the Tribes reserve the unilateral right to withdraw as a Party if:

- a. Congress has not ratified this Compact and authorized appropriations for the Federal contribution to the settlement within four years from the date on which the ratification

of the Compact by the Montana Legislature takes effect under State law. This is a continuing right until Congress ratifies the Compact;

b. Appropriations are not made in the manner contemplated by the Federal legislation ratifying this Compact;

c. The Parties do not reach agreement on the State contribution to settlement;

d. The State has not authorized appropriations for the State contribution to settlement within five years from the date the Compact is ratified by the United States; or

e. Appropriations are not made by the State in the manner contemplated by any agreement for contributions to settlement made pursuant to Article VI.A.

3. The Tribes may exercise their right to withdraw from the Compact under Article VII.A.2 by sending to the Governor of the State and to the Secretary by certified mail a resolution of the Tribal Council expressing the Tribes' intent to withdraw and specifying a reason for withdrawal and a withdrawal date not sooner than one hundred and twenty days from the date of the resolution. On the date designated in the resolution for Tribal withdrawal, the Compact shall become null and void without further action by any Party.

4. Notwithstanding any other provision in the Compact, the State reserves the unilateral right to withdraw as a Party to the Compact if:

a. Congress has not ratified this Compact within four years from the date on which the ratification of the Compact by the Montana Legislature takes effect under State law. This is a continuing right until Congress ratifies the Compact;

b. The Tribes have not ratified this Compact within five years from the date on which the ratification of the Compact by the Montana Legislature takes effect under State law;

c. Congress requires a State contribution to settlement that exceeds the contributions described in Article VI.A; or

d. Congress does not authorize and appropriate the Federal share of funding agreed to pursuant to Article VI.B.

5. The State may exercise its right to withdraw under Article VII.A.4 by sending to the Chair of the Tribal Council and to the Secretary a letter delivered by certified mail from the Governor of the State expressing the State's intent to withdraw and specifying a reason for withdrawal and a withdrawal date not sooner than one hundred and twenty days from the date of the letter. On the date designated in the letter for State withdrawal, the Compact shall become null and void without further action by any Party.

B. Incorporation into Decrees.

1. Within one hundred eighty (180) days of the date this Compact is ratified by the Tribes, the State, and the United States, whichever is latest, the Tribes, the State, and/or the United States shall file, in the general stream adjudication initiated by the State, pursuant to the provisions of 85-2-702(3), MCA, a motion for entry of the proposed decree attached hereto as Appendix 38 as the decree of the water rights held by the United States in trust for the Tribes, Tribal members, and the Allottees of the Tribes as well as those Water Rights Arising Under State Law set forth in Article III.D.4.a.i and Article III.D.5, of which the Tribes become co-owners pursuant to this Compact, and such other provisions of the Compact as are related to the determination of these water rights and their administration. If the Montana Water Court does not approve the proposed decree submitted with the motion within three years following the filing of the motion, the Compact shall be voidable by written agreement of the State and the Tribes. If the Montana Water Court approves the proposed decree within three years, but the decree is subsequently set aside by the Montana Water Court or on appeal, the Compact shall be voidable by written agreement of the State and the Tribes. Any effect of the failure of approval or setting aside of the decree on the approval, ratification, and confirmation by the United States shall be as provided by Congress. The Parties understand and agree that the submission of the Compact to a State court or courts, as provided for in the Compact, is solely to comply with the provisions of 85-2-702(3), MCA, and does not expand the jurisdiction of the State court or expand in any manner the waiver of sovereign immunity of either the United States or the Tribes in the McCarran Amendment, 43 U.S.C. 666, or other provision of Federal law.

2. Consistent with 3-7-224, MCA, setting forth the jurisdiction of the chief water judge, for the purposes of 85-2-702(3), MCA, the review by the Montana Water Court shall be limited to the contents of Appendix 38, and may extend to other sections of the Compact only to the extent that they relate to the determination of water rights and their administration. The final decree shall consist of the contents of Appendix 38, and such other information as may be required by 85-2-234, MCA. Nevertheless, pursuant to 85-2-702(3), MCA, the terms of the entire Compact must be included in the preliminary decree without alteration for the purpose of notice.

C. Disposition of State and Federal Suits.

1. On issuance of a final decree by the Montana Water Court or its successor, and the completion of any direct appeals therefrom, or on expiration of the time for filing any such appeal:

a. the United States, the Tribes, and the State shall execute and file joint motions pursuant to Rule 41(a), Fed.R.Civ.P., to dismiss without prejudice any and all claims of the Tribes, Tribal members, and Allottees and any and all claims made by the United States for the benefit of the Tribes, Tribal members, and Allottees in *United States v. Abell*, No. CIV-79-33-M (filed April 5, 1979). The case may only be resumed if either the State or the Tribes exercise the rights each holds under Article VII.A;

b. the Tribes and the State shall execute and file joint motions to dismiss without prejudice the case entitled *Confederated Salish and Kootenai Tribes v. Bud Clinch*,

Director, Montana Department of Natural Resources and Conservation, and the Montana Department of Natural Resources and Conservation, Montana First Judicial Court, County of Lewis and Clark, Cause No. BDV-2001-253, Montana First Judicial District Court, Lewis and Clark County, Montana;

c. The United States, the Tribes, and the State shall execute and file joint motions pursuant to Rule 41(a), Mont.R.Civ.P., to dismiss without prejudice any and all claims of the Tribes, Tribal members, and Allottees and any and all claims made by the United States for the benefit of the Tribes, Tribal members, and Allottees that have been filed in the Montana Water Court as contemplated by Article VII.D.2. The case adjudicating those claims may only be resumed if either the State or the Tribes exercise the rights each holds under Article VII.A.2 and 4; and

d. The Decree shall be filed by the Parties as a consent decree in Abell, or in Federal court as a new proceeding after the dismissal of Abell conditional on agreement by the Parties to seek the necessary State, Tribal, and Federal ratification of the Compact, if it is finally determined in a judgment binding on the State that the State courts lack jurisdiction over, or that the State court proceedings are inadequate to adjudicate some or all of the water rights asserted in Abell.

D. Settlement of Water Rights Claims.

1. The water rights and other benefits confirmed to the Tribes in this Compact are in full and final satisfaction of and are intended to be in replacement of and substitution for all claims to water or to the use of water by the Tribes, Tribal members, and Allottees and the United States on behalf of the Tribes, Tribal members, and Allottees existing on the Effective Date, except for any Appropriation Rights or Water Rights Arising Under State Law held by the Tribes, their members, or Allottees as of the Effective Date or acquired thereafter, which shall be satisfied pursuant to their own terms.

2. The Tribes and United States will file all of their claims to water on and off of the Flathead Indian Reservation on or before July 1, 2015, pursuant to **85-2-702(3)**, MCA. b. Approval by the Tribes of the Compact and the Act described in Article VII.D.2.a.

c. Issuance by the Montana Water Court of a final water right decree or decrees incorporating the water rights quantified pursuant to this Compact; and

d. All portions of the final Water Court decree or decrees survive exhaustion of all avenues of appeal.

3. Upon occurrence of these events, the waiver and dismissal described in Article VII.C.1.c and VII.D.3 shall be accomplished.

4. In consideration of the water rights and other benefits confirmed to the Tribes, Tribal members, and Allottees in this Compact, and of performance by the State and the United States of all actions required by this Compact, and on entry of a final order issuing the decree of the Tribal Water Right held in trust by the United States as quantified in this Compact and displayed in Appendix 38 and occurrence of the events set forth in Article VII.D.2, the Tribes and the United States as trustee for the Tribes, Tribal members, and Allottees shall waive, release, and relinquish any and all claims to water rights or to the use of water, and shall dismiss any such claims filed pursuant to Article VII.D.2, existing on the Effective Date.

E. Settlement of Tribal Claims Against the United States. Waiver of claims against the United States by the Tribes, their members and Allottees shall be as provided by Congress.

F. Binding Effect. After the Effective Date and the entry of a final decree by the Montana Water Court of the water rights quantified by this Compact, or if necessary the Federal court in Abell, the Compact's terms shall be binding on:

1. The State and any Person using, claiming or in any manner asserting any right under the authority of the State to the use of water in the State; provided that, the validity of consent, ratification, or authorization by the State is to be determined by State law;

2. The Tribes and any Person using, claiming or in any manner asserting any right to the use of the Tribal Water Right, or any right arising under any doctrine of reserved or aboriginal water rights for the Tribes, Tribal members, and Allottees, or any rights arising under Tribal law; provided that, the validity of consent, ratification or authorization by the Tribes is to be determined by Tribal and, if applicable, Federal law; and

3. The United States and any Person using, claiming or in any manner asserting any right under the authority of the United States to the use of water in the State; provided that, the validity of consent, ratification or authorization by the United States is to be determined by Federal law.

1. The State and the Tribes will support provisions in the Federal legislation ratifying this Compact that authorizes the United States District Court for the District of Montana in

Missoula to review decisions of the Board and the MFWP authorized in the Compact; provided that, the sovereign immunity of the United States is not waived by such provision of the legislation.

2. The State and Tribes will support provisions in the Federal legislation ratifying this Compact that authorizes the Net Power Revenues distributions described in Article IV.H.3.

3. The State and the Tribes will support provisions in the Federal legislation ratifying this Compact that delegates to the Secretary the authority to ratify future amendments on behalf of the United States pursuant to Article VII.A.1.

D. Defense of the Compact. The Parties agree to defend the Compact after its Effective Date from all challenges and attacks and in all proceedings pursuant to Article VII.B and C.

IN WITNESS WHEREOF the representatives of the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States have signed this Compact on the 17th day of Sept. 2021.

THE UNITED STATES OF AMERICA

Date: Sept 17, 2021

By: 
Secretary of the Interior¹

¹ The Secretary of the Interior is executing the Compact pursuant to Section 4(b) of the Montana Water Rights Protection Act, and her signature is conditioned upon the interpretations set forth in the attached Execution Statement.

THE SECRETARY OF THE INTERIOR
WASHINGTON

EXECUTION STATEMENT FOR THE WATER RIGHTS COMPACT ENTERED INTO BY
THE STATE OF MONTANA, THE CONFEDERATED SALISH AND KOOTENAI TRIBES
OF THE FLATHEAD RESERVATION, AND THE UNITED STATES OF AMERICA

Today, I am honored to sign the Water Rights Compact entered into by the State of Montana, the Confederated Salish and Kootenai Tribes of the Flathead Indian Reservation (Tribes), and the United States of America (Compact). I am issuing this execution statement to clarify the authority under which I am signing the Compact.

The Montana Legislature passed the Compact on April 16, 2015, and the Governor of Montana signed the Compact legislation on April 24, 2015. The United States Congress passed the Montana Water Rights Protection Act (Settlement Act) on December 21, 2020, and the President of the United States signed the Settlement Act on December 27, 2020. The Tribes ratified both the Compact and the Settlement Act by resolution on December 29, 2020.

Section 4(a) of the Settlement Act provides that the Compact is authorized, ratified, and confirmed as “modified by this Act,” and section 4(b) directs that, to the extent that the Compact does not conflict with the Settlement Act, the Secretary of the Interior (Secretary) is directed to execute the Compact, including all exhibits to, appendices to, and parts of the Compact requiring the signature of the Secretary (which includes only the waivers and releases provided in section 10(a) of the Settlement Act and executed with the Compact).

I have determined that the Compact does not conflict with the Settlement Act and that the Settlement Act governs as follows:

1. Section 6 of the Settlement Act clarifies that the ownership and priority date of the Tribes’ Hungry Horse Reservoir allocation recognized in Article III.C.1.c of the Compact are based on the United States Bureau of Reclamation’s water rights for Hungry Horse Reservoir; and
2. Section 10(a)(4) of the Settlement Act requires the Tribes to relinquish the water rights located within the Flathead basin and as described in Appendices 28 and 29 to the Compact.

I also note two typographical errors in the Compact: the reference in Article VI.A of the Compact to “Articles IV.H.1.a and b above” should refer to “Appendix 3.4,” and the reference in Article VII.D.3 of the Compact to “VII.D.3” should refer to “VII.D.4.”

Thus, pursuant to section 4(b) of the Settlement Act, I am proudly executing the Compact today.

Date: Sept. 17, 2021

THE EXERCISE OF THIS WATER RIGHT SHALL ALSO CONFORM TO THE RAMPING RATES, AS MEASURED BELOW KERR AND HUNGRY HORSE DAMS, AND IDENTIFIED IN TABLES 3 THROUGH 6 OF THE UNITED STATES BUREAU OF RECLAMATION'S FINAL FLATHEAD BASIN DEPLETIONS STUDY (USBR, OCTOBER 2012) APPENDED TO THIS WATER RIGHT. IN THE EVENT THAT THE MINIMUM INSTREAM FLOW SCHEDULES OR RAMPING RATES ARE NOT MET, THE USE OF THIS WATER RIGHT SHALL BE SUSPENDED UNTIL SUCH TIME AS THOSE MINIMUM INSTREAM FLOW SCHEDULES AND RAMPING RATES ARE ACHIEVED. THE CONFEDERATED SALISH AND KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA, UPON MUTUAL WRITTEN AGREEMENT, AND IN CONFORMANCE WITH APPLICABLE ENDANGERED SPECIES ACT AND FEDERAL ENERGY REGULATORY COMMISSION LICENSING REQUIREMENTS FOR THE THREE PREVIOUSLY IDENTIFIED SITES, MAY AMEND THE LIMITATIONS FOR RELEASES FROM HUNGRY HORSE RESERVOIR THAT ARE REQUIRED TO CONFORM WITH MINIMUM INSTREAM FLOW AND RAMPING RATE SCHEDULES AT THESE SITES. SUCH AMENDMENTS SHALL BE CHRONICLED AND APPENDED TO THIS WATER RIGHT.

ANY NEW DEVELOPMENT OF THIS WATER RIGHT OFF THE FLATHEAD INDIAN RESERVATION SHALL BE TREATED AS A CHANGE IN USE PURSUANT TO 85-2-302, 307-310 AND 314, MCA. Remarks:

THIS WATER RIGHT SHALL NOT BE EXERCISED IN CONJUNCTION WITH ANY ARTIFICIAL DIVERSION. WATER RIGHT 76M 94404-00 HAS BEEN CHANGED FROM HYDROPOWER GENERATION TO INSTREAM FISHERY AND SPLIT INTO WATER RIGHTS 76M 94404-01 AND 76M 94404-02 BY THE MONTANA LEGISLATURE'S RATIFICATION OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA. 76M 94404-00 CAN NO LONGER BE CHANGED.

THE EXERCISE OF THIS WATER RIGHT IS SUBJECT TO THE TERMS AND CONDITIONS OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA.

THE ABILITY TO ENFORCE THIS RIGHT SHALL BE SUSPENDED UNTIL APRIL 24, 2025, WHICH IS 10 YEARS FROM THE DATE THE RATIFICATION OF THIS COMPACT BY THE MONTANA LEGISLATURE BECAME EFFECTIVE UNDER STATE LAW (APRIL 24, 2015).

THE OWNERS OF THIS WATER RIGHT SHALL BE ENTITLED TO MAKE A CALL, IN ACCORDANCE WITH STATE LAW, TO ENFORCE THIS WATER RIGHT ONLY AGAINST JUNIOR WATER RIGHTS IN BASIN 76F (BLACKFOOT RIVER), THAT:

1) HAVE A PRIORITY DATE EARLIER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW (APRIL 24, 2015), HAVE A PURPOSE OF IRRIGATION AND WHOSE SOURCE OF SUPPLY IS SURFACE WATER;

2) HAVE A PRIORITY DATE EARLIER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES, THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW (APRIL 24, 2015), AND HAVE A PURPOSE OF IRRIGATION, WHOSE SOURCE OF SUPPLY IS GROUNDWATER AND WHOSE FLOW RATE IS GREATER THAN 100 GALLONS PER MINUTE; OR

3) HAVE A PRIORITY DATE LATER THAN THE DATE ON WHICH THE RATIFICATION BY THE MONTANA LEGISLATURE OF THE WATER RIGHTS COMPACT ENTERED INTO BY THE CONFEDERATED SALISH & KOOTENAI TRIBES (APRIL 24, 2015), THE STATE OF MONTANA, AND THE UNITED STATES OF AMERICA TAKES EFFECT UNDER STATE LAW.

THE PLACE OF USE OF THIS WATER RIGHT INCLUDES THE REACH OF THE BLACKFOOT RIVER STARTING JUST ABOVE THE CONFLUENCE OF THE CLARK FORK AND BLACKFOOT RIVERS (46 52 17 N, 113 53 16 W, NAD27) (NESWNW SEC 21 T13N R18W) AND EXTENDING UPSTREAM TO THE CONFLUENCE OF THE BLACKFOOT RIVER AND EAST TWIN CREEK (46 54 49 N, 113 42 35 W, NAD27) (SWSWNE SEC 2 T12N R17W).

THE DESIGNATION OF A PLACE OF USE OF THIS WATER RIGHT IS A DESIGNATION FOR PURPOSES OF MEASUREMENT OF THE ENFORCEABLE LEVELS AND IS NOT A GEOGRAPHIC LIMITATION ON THE LOCATION OF JUNIOR WATER RIGHTS AGAINST WHOM THIS RIGHT MAY BE ENFORCED.

Remarks:

76M 94404-01 & 76M 94404-02 ARE NONCONSUMPTIVE INSTREAM WATER RIGHTS AND THE PURPOSES AND INSTREAM PLACES OF USE CANNOT BE CHANGED.

By way of the water rights compact entered into by the Confederated Salish & Kootenai Tribes, the State of Montana, and the United States of America, the former Milltown Dam water right, 76M 94404-00, is hereby split and changed, creating two separate active and enforceable water rights: 76M 94404-01, with a place of use along the reach of the Clark Fork River starting just above the confluence of the Clark Fork and Blackfoot Rivers extending upstream along the Clark Fork River to the confluence of the Clark Fork River and Allen Creek; and 76M 94404-02, with a place of use along the reach of the Blackfoot River starting just above the confluence of the Clark Fork and Blackfoot Rivers and extending along the Blackfoot River upstream to the confluence of the Blackfoot River and the East Fork of Twin Creek. The designation of a place of use of these water rights is a designation for purposes of measurement of the enforceable levels and is not a geographic limitation on the location of junior water rights against whom this right may be enforced.

These water rights maintain the original priority date of December 11, 1904.

The purpose of these water rights is the maintenance and enhancement of fish habitat.

For any analysis of the legal availability of water in basins 76F (Blackfoot River), 76G (Clark Fork above Blackfoot River), 76E (Rock Creek, Tributary to the Clark Fork River), and 76GJ (Flint Creek), these water rights shall be considered conjoined at a combined flow rate of 2,000 CFS for every day of the year, as measured downstream of the confluence of the Clark Fork and Blackfoot Rivers at the location of USGS Gage #12340500 above Missoula (46°52'38.06" N, 113°55'54.99" W, NAD83) (NWNWNW SEC 19 T13N R18W).

These water rights shall not be exercised in conjunction with any artificial diversion.

The ability to enforce these water rights shall be suspended for a period of 10 years from the date the ratification by the Montana legislature of the water rights compact entered into by the Confederated Salish & Kootenai Tribes, the State of Montana, and the United States of America, becomes effective under state law.

The enforceable levels of these water rights take the form of static distributions of unique daily flow values, one each for every day of the year for each water right. Call may be initiated on the day following a five-consecutive-day-period where four out of five average daily river flows fall below their respective daily enforceable flow values; call may persist until such time as two average daily flows of the previous five-consecutive-day-period are in excess of their respective daily enforceable flow values.

The details of each water right are described as follows:

Water Right 76M 94404-01: The owners of these water rights shall be entitled to make a call, in accordance with state law, to enforce water right number 94404-01 only against junior water

rights in basins 76G (Clark Fork above Blackfoot River), 76E (Rock Creek, Tributary to the Clark Fork River). and 76GJ (Flint Creek), that:

- 1) Have a priority date earlier than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), have a purpose of irrigation and whose source of supply is surface water;
- 2) Have a priority date earlier than the date on which the ratification by the Montanan Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), and have a purpose of irrigation, whose source of supply is groundwater and whose flow rate is greater than 100 gallons per minute; or
- 3) Have a priority date later than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015).

Enforceable levels of water right 76M 94404-01 shall be measured at USGS gage #12334550 on the mainstem of the Clark Fork River at Turah Bridge, Montana (46°49'33.28" N, 113°48'50.51", NAD83) (SWNWSW SEC 1 T12N R18W), unless that USGS gage is discontinued or otherwise rendered nonfunctional at which point measurements shall be taken either at this same location or at a point downstream on the Clark Fork River as near as reasonably practicable to just above, but not below, the confluence of the Clark Fork and Blackfoot Rivers. The enforceable static individual daily flow values are described in Table 1.

Water Right 76M 94404-02: The owners of these water rights shall be entitled to make a call, in accordance with state law, to enforce water right number 94404-02 only against junior water rights in basin 76F (Blackfoot River), that:

- 1) Have a priority date earlier than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), have a purpose of irrigation and whose source of supply is surface water;
- 2) Have a priority date earlier than the date on which the ratification by the Montanan Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015), and have a purpose of irrigation, whose source of supply is groundwater and whose flow rate is greater than 100 gallons per minute; or

Appendix 31: 76M 94404-01 and 76M 94404-02 Technical Documentation

- 3) Have a priority date later than the date on which the ratification by the Montana Legislature of the water rights compact entered into by the Confederated Salish and Kootenai Tribes, the State of Montana, and the United States of America takes effect under state law (April 24, 2015).

Enforceable levels of water right 76M 94404-02 shall be measured at the USGS gage #12340000 near Bonner, Montana (46°53'57.88" N, 113°45'22.75", NAD83) (SESENW SEC 9 T13N R17W), unless that USGS gage is discontinued or otherwise rendered nonfunctional at which point measurements shall be taken either at this same location or at a point downstream on the Blackfoot River as near as reasonably practicable to just above, but not below, the confluence of the Clark Fork and Blackfoot Rivers. The enforceable static individual daily flow values are described in Table 2.
